

## ÖRNEK DOKUNSAL KİTAP

dokunduyogren.com

A horizontal arrangement of 20 solid black circular dots. They are organized into four distinct rows: the top row contains 5 dots, the second row contains 6 dots, the third row contains 4 dots, and the bottom row contains 5 dots. The dots are evenly spaced within each row.

The image shows a horizontal sequence of 20 black circular dots. They are arranged in two rows: a top row with 10 dots and a bottom row with 10 dots. The dots are organized into several distinct groups. On the far left, there is a group of three dots in the top row and one dot in the bottom row. To its right, there is a group of two dots in the top row and two dots in the bottom row. Further along, there is a group of two dots in the top row and one dot in the bottom row. This pattern of two-top-one-bottom repeats across the sequence. There are also some isolated dots: a single dot in the top row near the center, a single dot in the bottom row near the center, and a final group of two dots in the top row and two dots in the bottom row on the far right.

The image shows a series of black dots arranged in a grid-like pattern. The dots are organized into several vertical columns. Some columns have a single dot at the top, while others have two or three dots stacked vertically. Horizontal rows are formed by groups of dots. There are approximately 15 distinct horizontal rows. The arrangement is roughly as follows: Row 1 has 1 dot; Row 2 has 2 dots; Row 3 has 1 dot; Row 4 has 2 dots; Row 5 has 1 dot; Row 6 has 2 dots; Row 7 has 1 dot; Row 8 has 2 dots; Row 9 has 1 dot; Row 10 has 2 dots; Row 11 has 1 dot; Row 12 has 2 dots; Row 13 has 1 dot; Row 14 has 2 dots; Row 15 has 1 dot; Row 16 has 2 dots; Row 17 has 1 dot; Row 18 has 2 dots; Row 19 has 1 dot; Row 20 has 2 dots; Row 21 has 1 dot; Row 22 has 2 dots; Row 23 has 1 dot; Row 24 has 2 dots; Row 25 has 1 dot; Row 26 has 2 dots; Row 27 has 1 dot; Row 28 has 2 dots; Row 29 has 1 dot; Row 30 has 2 dots; Row 31 has 1 dot; Row 32 has 2 dots; Row 33 has 1 dot; Row 34 has 2 dots; Row 35 has 1 dot; Row 36 has 2 dots; Row 37 has 1 dot; Row 38 has 2 dots; Row 39 has 1 dot; Row 40 has 2 dots; Row 41 has 1 dot; Row 42 has 2 dots; Row 43 has 1 dot; Row 44 has 2 dots; Row 45 has 1 dot; Row 46 has 2 dots; Row 47 has 1 dot; Row 48 has 2 dots; Row 49 has 1 dot; Row 50 has 2 dots; Row 51 has 1 dot; Row 52 has 2 dots; Row 53 has 1 dot; Row 54 has 2 dots; Row 55 has 1 dot; Row 56 has 2 dots; Row 57 has 1 dot; Row 58 has 2 dots; Row 59 has 1 dot; Row 60 has 2 dots; Row 61 has 1 dot; Row 62 has 2 dots; Row 63 has 1 dot; Row 64 has 2 dots; Row 65 has 1 dot; Row 66 has 2 dots; Row 67 has 1 dot; Row 68 has 2 dots; Row 69 has 1 dot; Row 70 has 2 dots; Row 71 has 1 dot; Row 72 has 2 dots; Row 73 has 1 dot; Row 74 has 2 dots; Row 75 has 1 dot; Row 76 has 2 dots; Row 77 has 1 dot; Row 78 has 2 dots; Row 79 has 1 dot; Row 80 has 2 dots; Row 81 has 1 dot; Row 82 has 2 dots; Row 83 has 1 dot; Row 84 has 2 dots; Row 85 has 1 dot; Row 86 has 2 dots; Row 87 has 1 dot; Row 88 has 2 dots; Row 89 has 1 dot; Row 90 has 2 dots; Row 91 has 1 dot; Row 92 has 2 dots; Row 93 has 1 dot; Row 94 has 2 dots; Row 95 has 1 dot; Row 96 has 2 dots; Row 97 has 1 dot; Row 98 has 2 dots; Row 99 has 1 dot; Row 100 has 2 dots.

A horizontal sequence of 20 black dots arranged in two rows. The top row has 10 dots, and the bottom row has 10 dots. The dots are scattered across the page, with some pairs appearing close together and others more isolated.

The image shows a horizontal sequence of black dots. The pattern starts with a cluster of five dots at the far left, followed by a series of groups of two dots each, decreasing in size as they move towards the right. This creates a visual effect similar to a perspective view or a narrowing beam.

The image shows a collection of black dots scattered across a white background. There are approximately 20 rows of dots, each containing between 1 and 5 dots. The dots are positioned such that they form several vertical columns and horizontal rows, creating a grid-like appearance with irregular gaps. The distribution of dots is roughly uniform, though there are some local concentrations.

A horizontal row of 24 black circular dots arranged in three equal columns of 8 dots each. The dots are evenly spaced and have a consistent size.

The image shows a horizontal sequence of 20 black circular dots. They are arranged in two rows: a top row with 10 dots and a bottom row with 10 dots. The dots are organized into several distinct groups. On the far left, there is a group of three dots in the top row and one dot in the bottom row. To its right, there is a group of two dots in the top row and two dots in the bottom row. Further along, there is a group of one dot in the top row and three dots in the bottom row. This pattern of small groups repeats across the entire sequence, creating a rhythmic visual texture.

A grid of 100 black dots arranged in 10 rows and 10 columns. The dots are positioned at regular intervals along the horizontal and vertical axes.

A grid of 100 black dots arranged in 10 rows and 10 columns. The dots are evenly spaced and form a perfect square pattern.

A grid of black dots arranged in a pattern of vertical columns and horizontal rows. The dots are positioned at various heights within each column, creating a sense of depth or a stylized representation of data points.

A horizontal row of 100 black dots, arranged in a perfect 10x10 grid. The dots are evenly spaced and have a uniform size.

A horizontal row of 100 black dots, arranged in a perfect 10x10 grid. The dots are evenly spaced and have a uniform size.

The figure displays two distinct clusters of data points. The left cluster is arranged in a triangular shape, consisting of 15 points. The right cluster is more loosely packed and consists of 15 points as well.

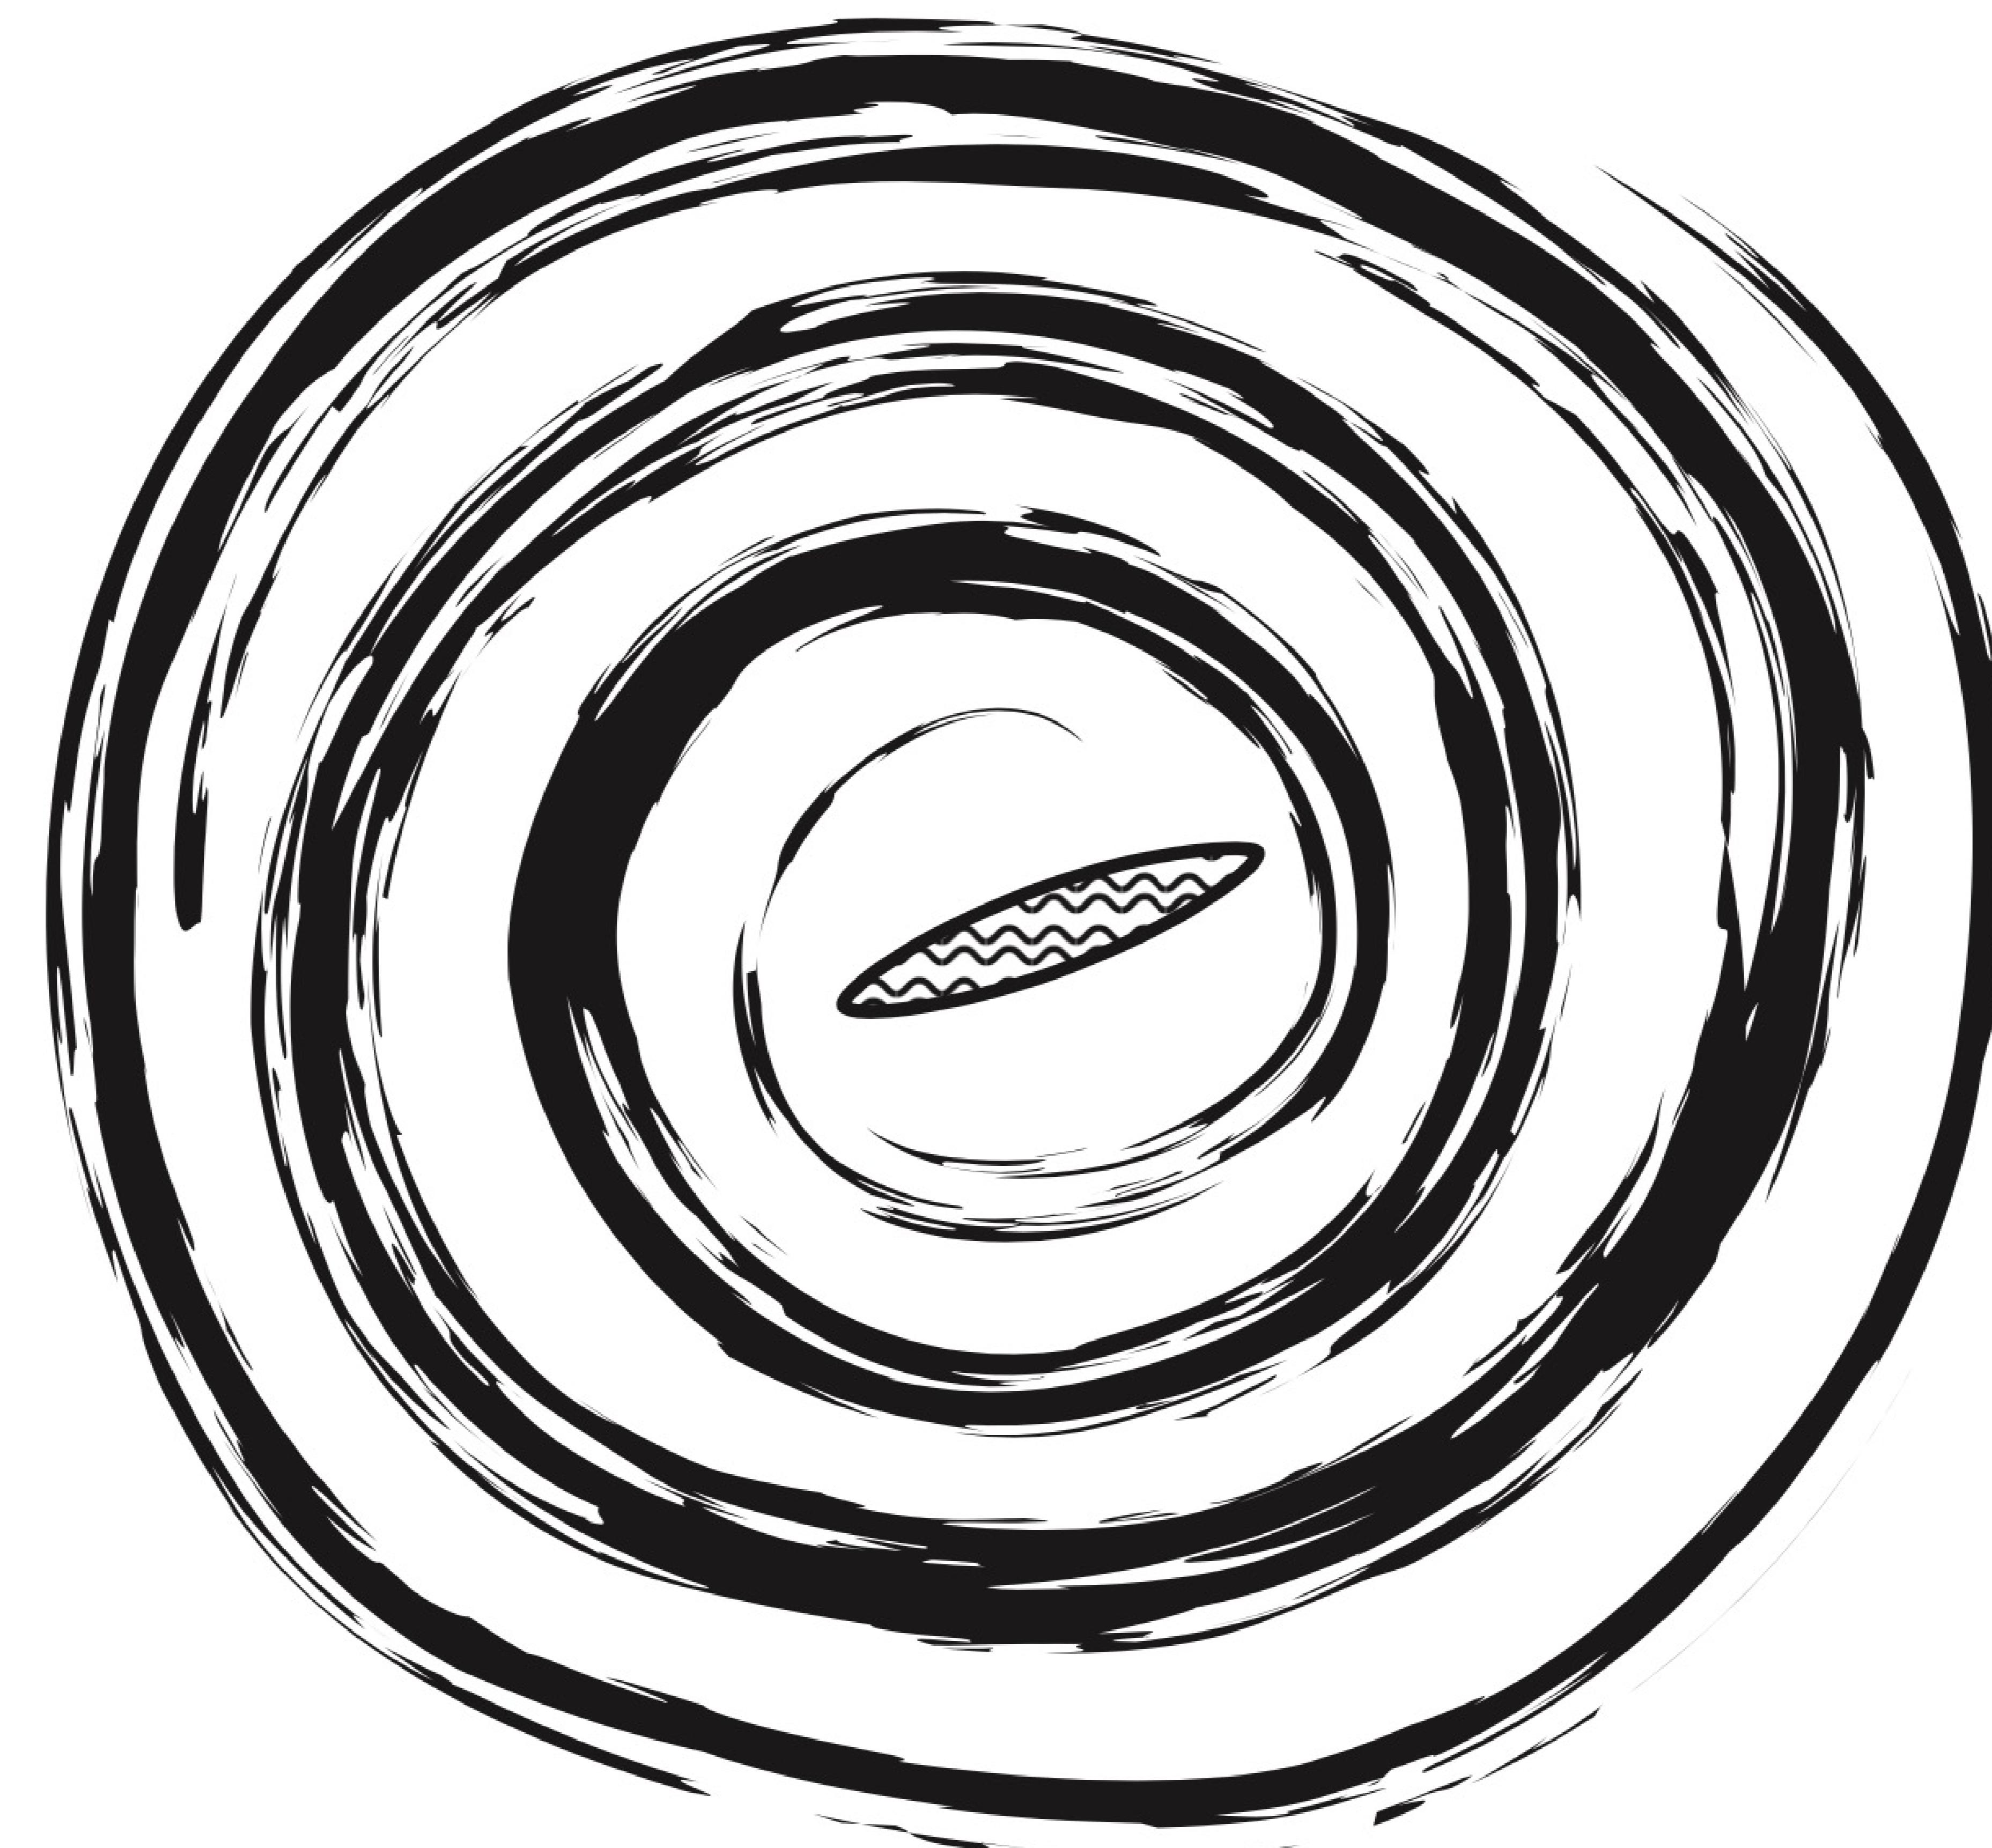

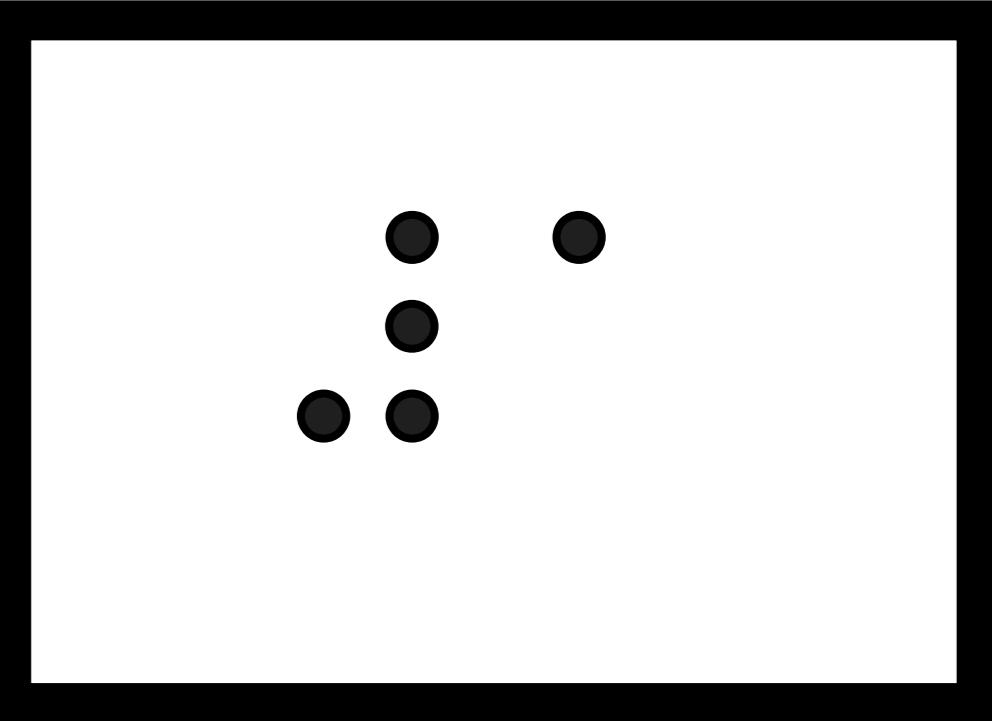

A horizontal arrangement of 20 solid black circular dots. They are organized into four distinct rows: the top row contains 5 dots, the second row contains 6 dots, the third row contains 4 dots, and the bottom row contains 5 dots. The dots are evenly spaced within each row.

A horizontal row of 100 black dots, arranged in a perfect 10x10 grid. The dots are evenly spaced and have a uniform size.

A horizontal row of 100 black dots, arranged in a perfect 10x10 grid. The dots are evenly spaced and have a uniform size.

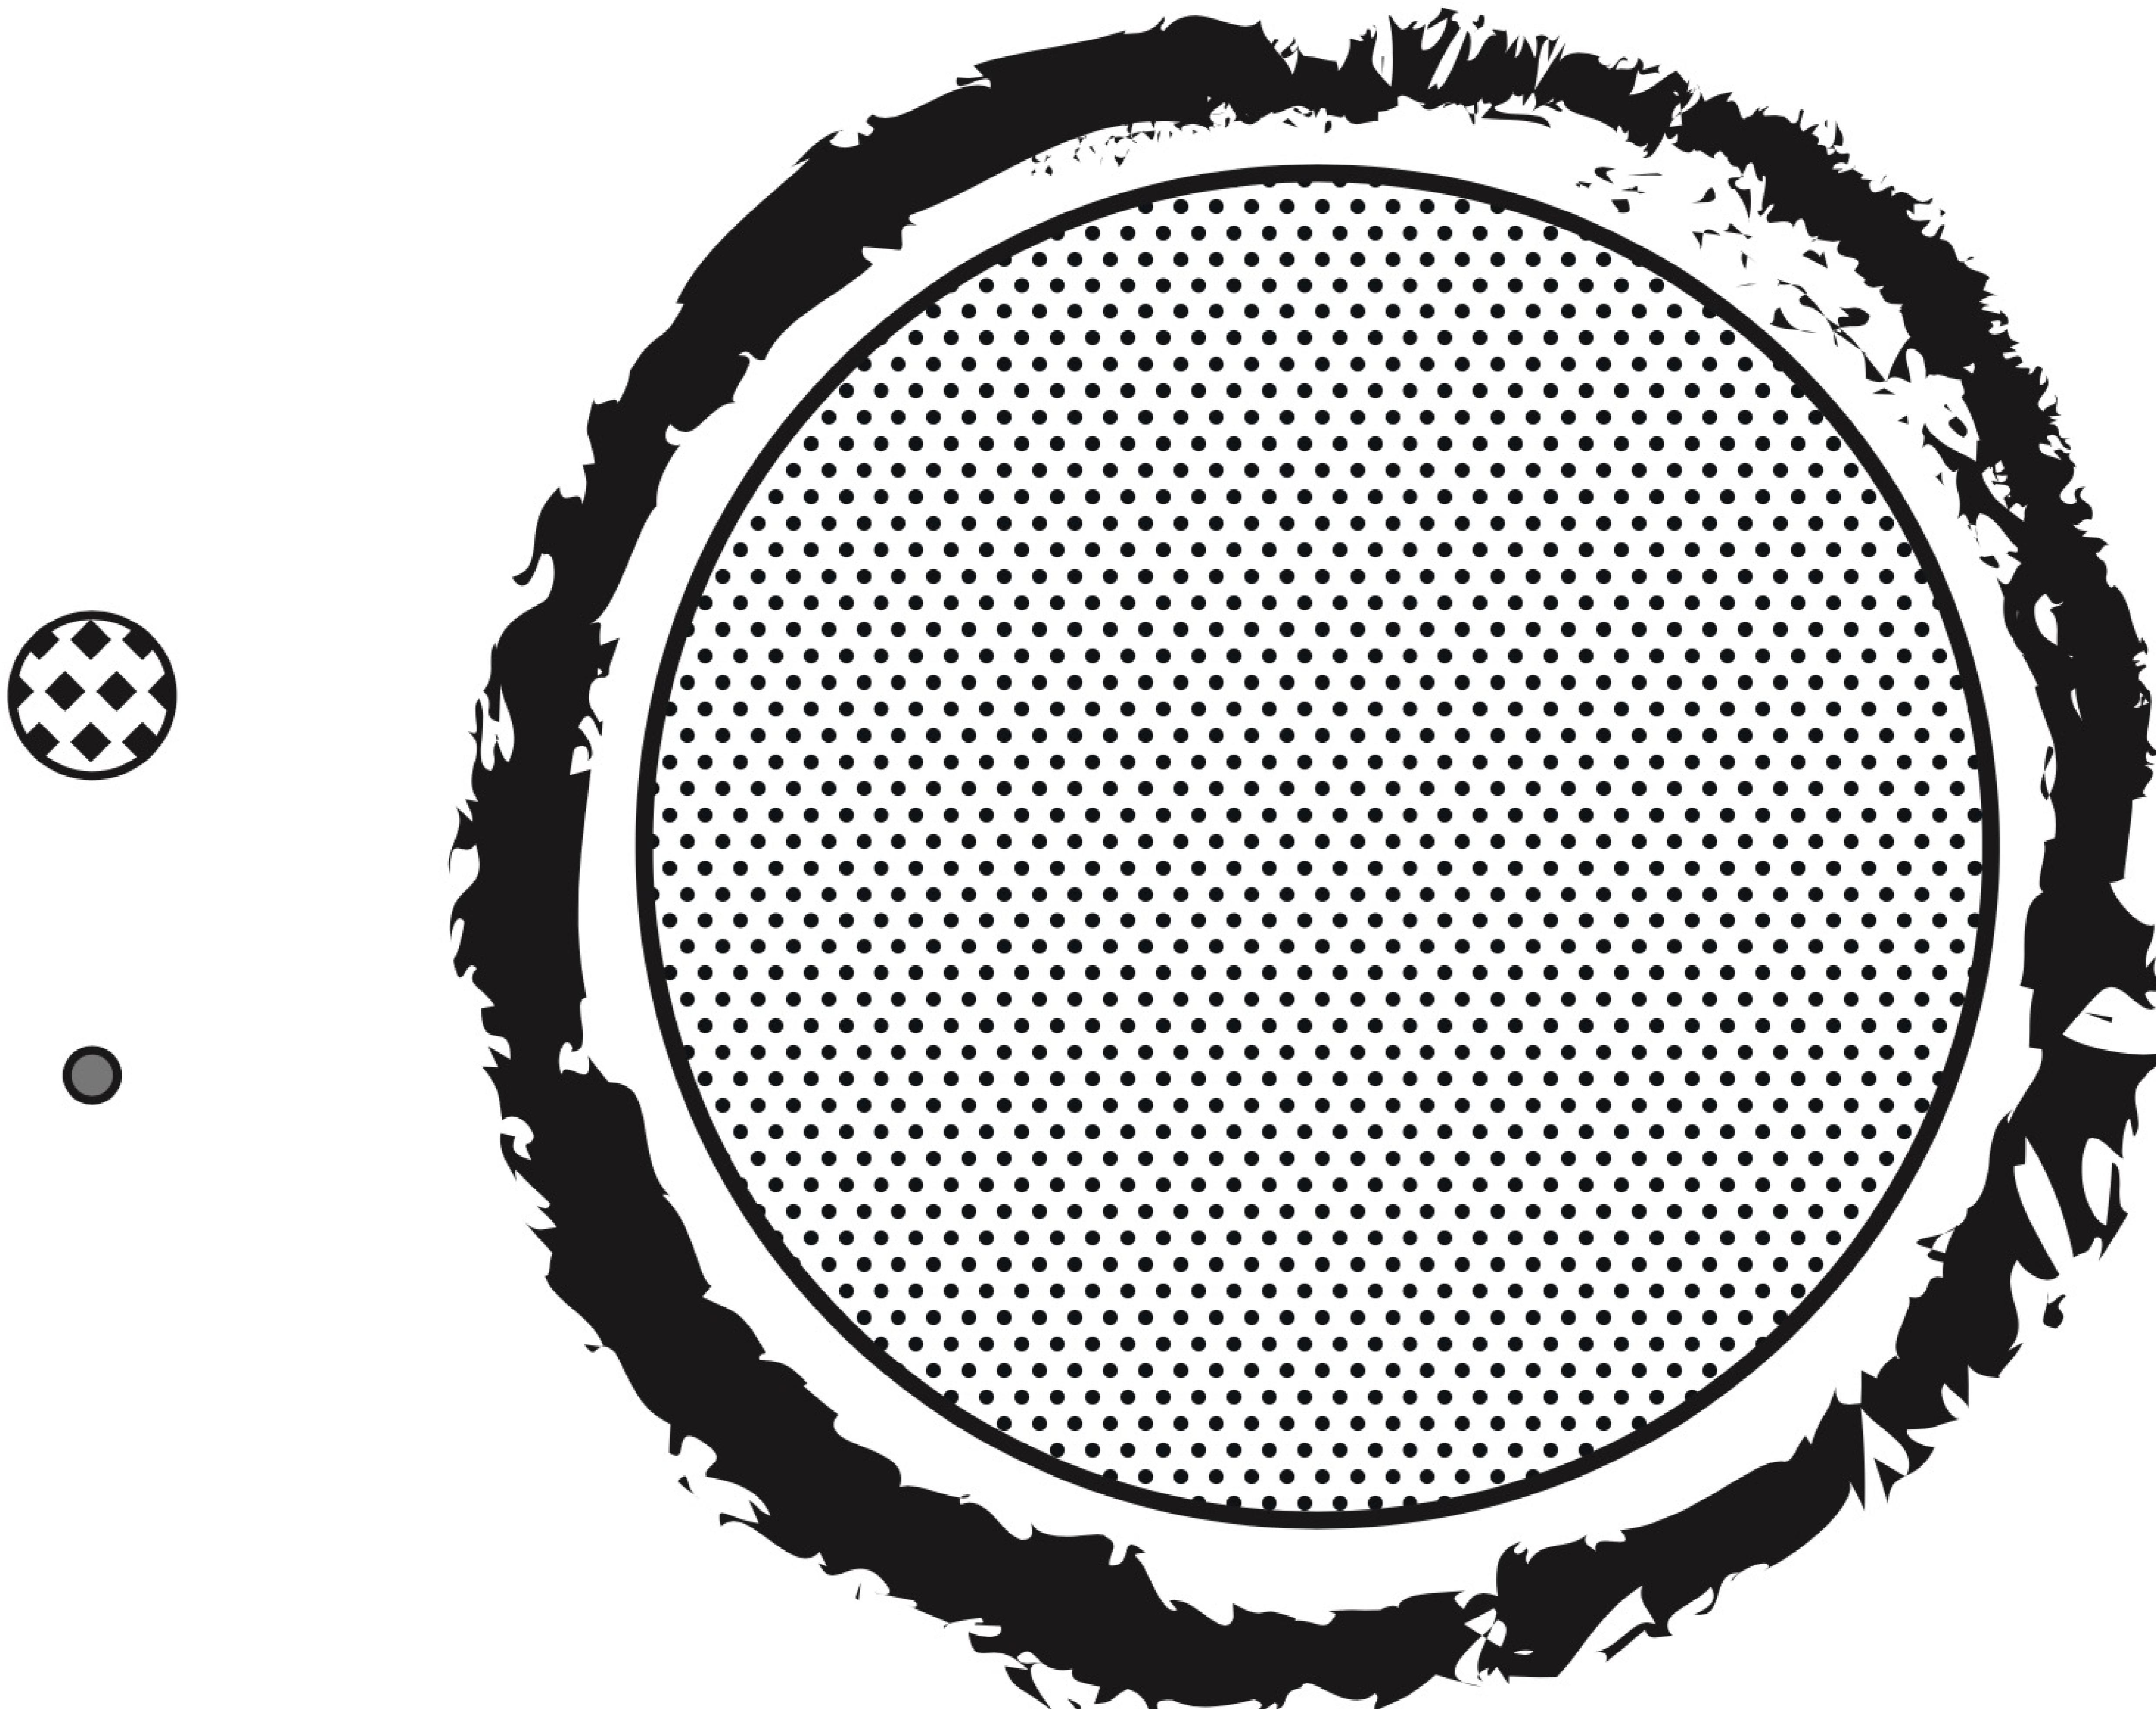

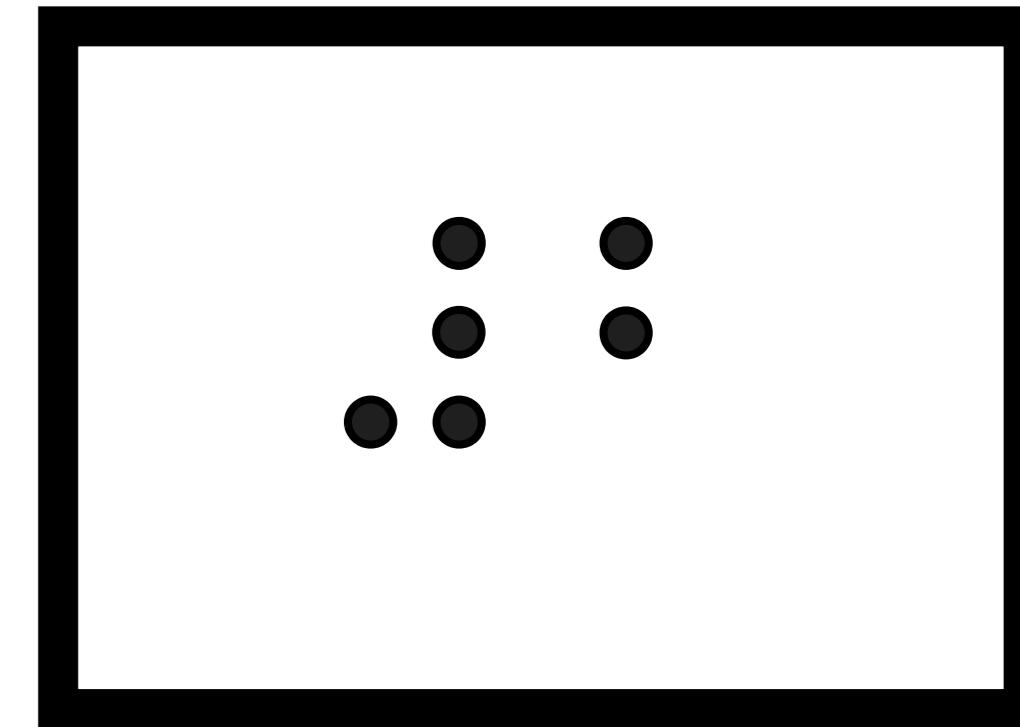

The image shows a horizontal sequence of 20 black circular dots. They are arranged in two rows: a top row with 10 dots and a bottom row with 10 dots. The dots are primarily aligned horizontally in pairs or small groups. There are several instances of vertical pairs of dots, such as at the far left, near the center, and towards the right side. Additionally, there are a few isolated dots and some other small clusters of three or four dots.

The image consists of a horizontal sequence of 20 distinct groups of black dots. Each group contains exactly three dots arranged in a triangular pattern. The groups are evenly spaced along the horizontal axis. Within each group, the top dot is positioned above the two bottom dots, which are aligned horizontally.

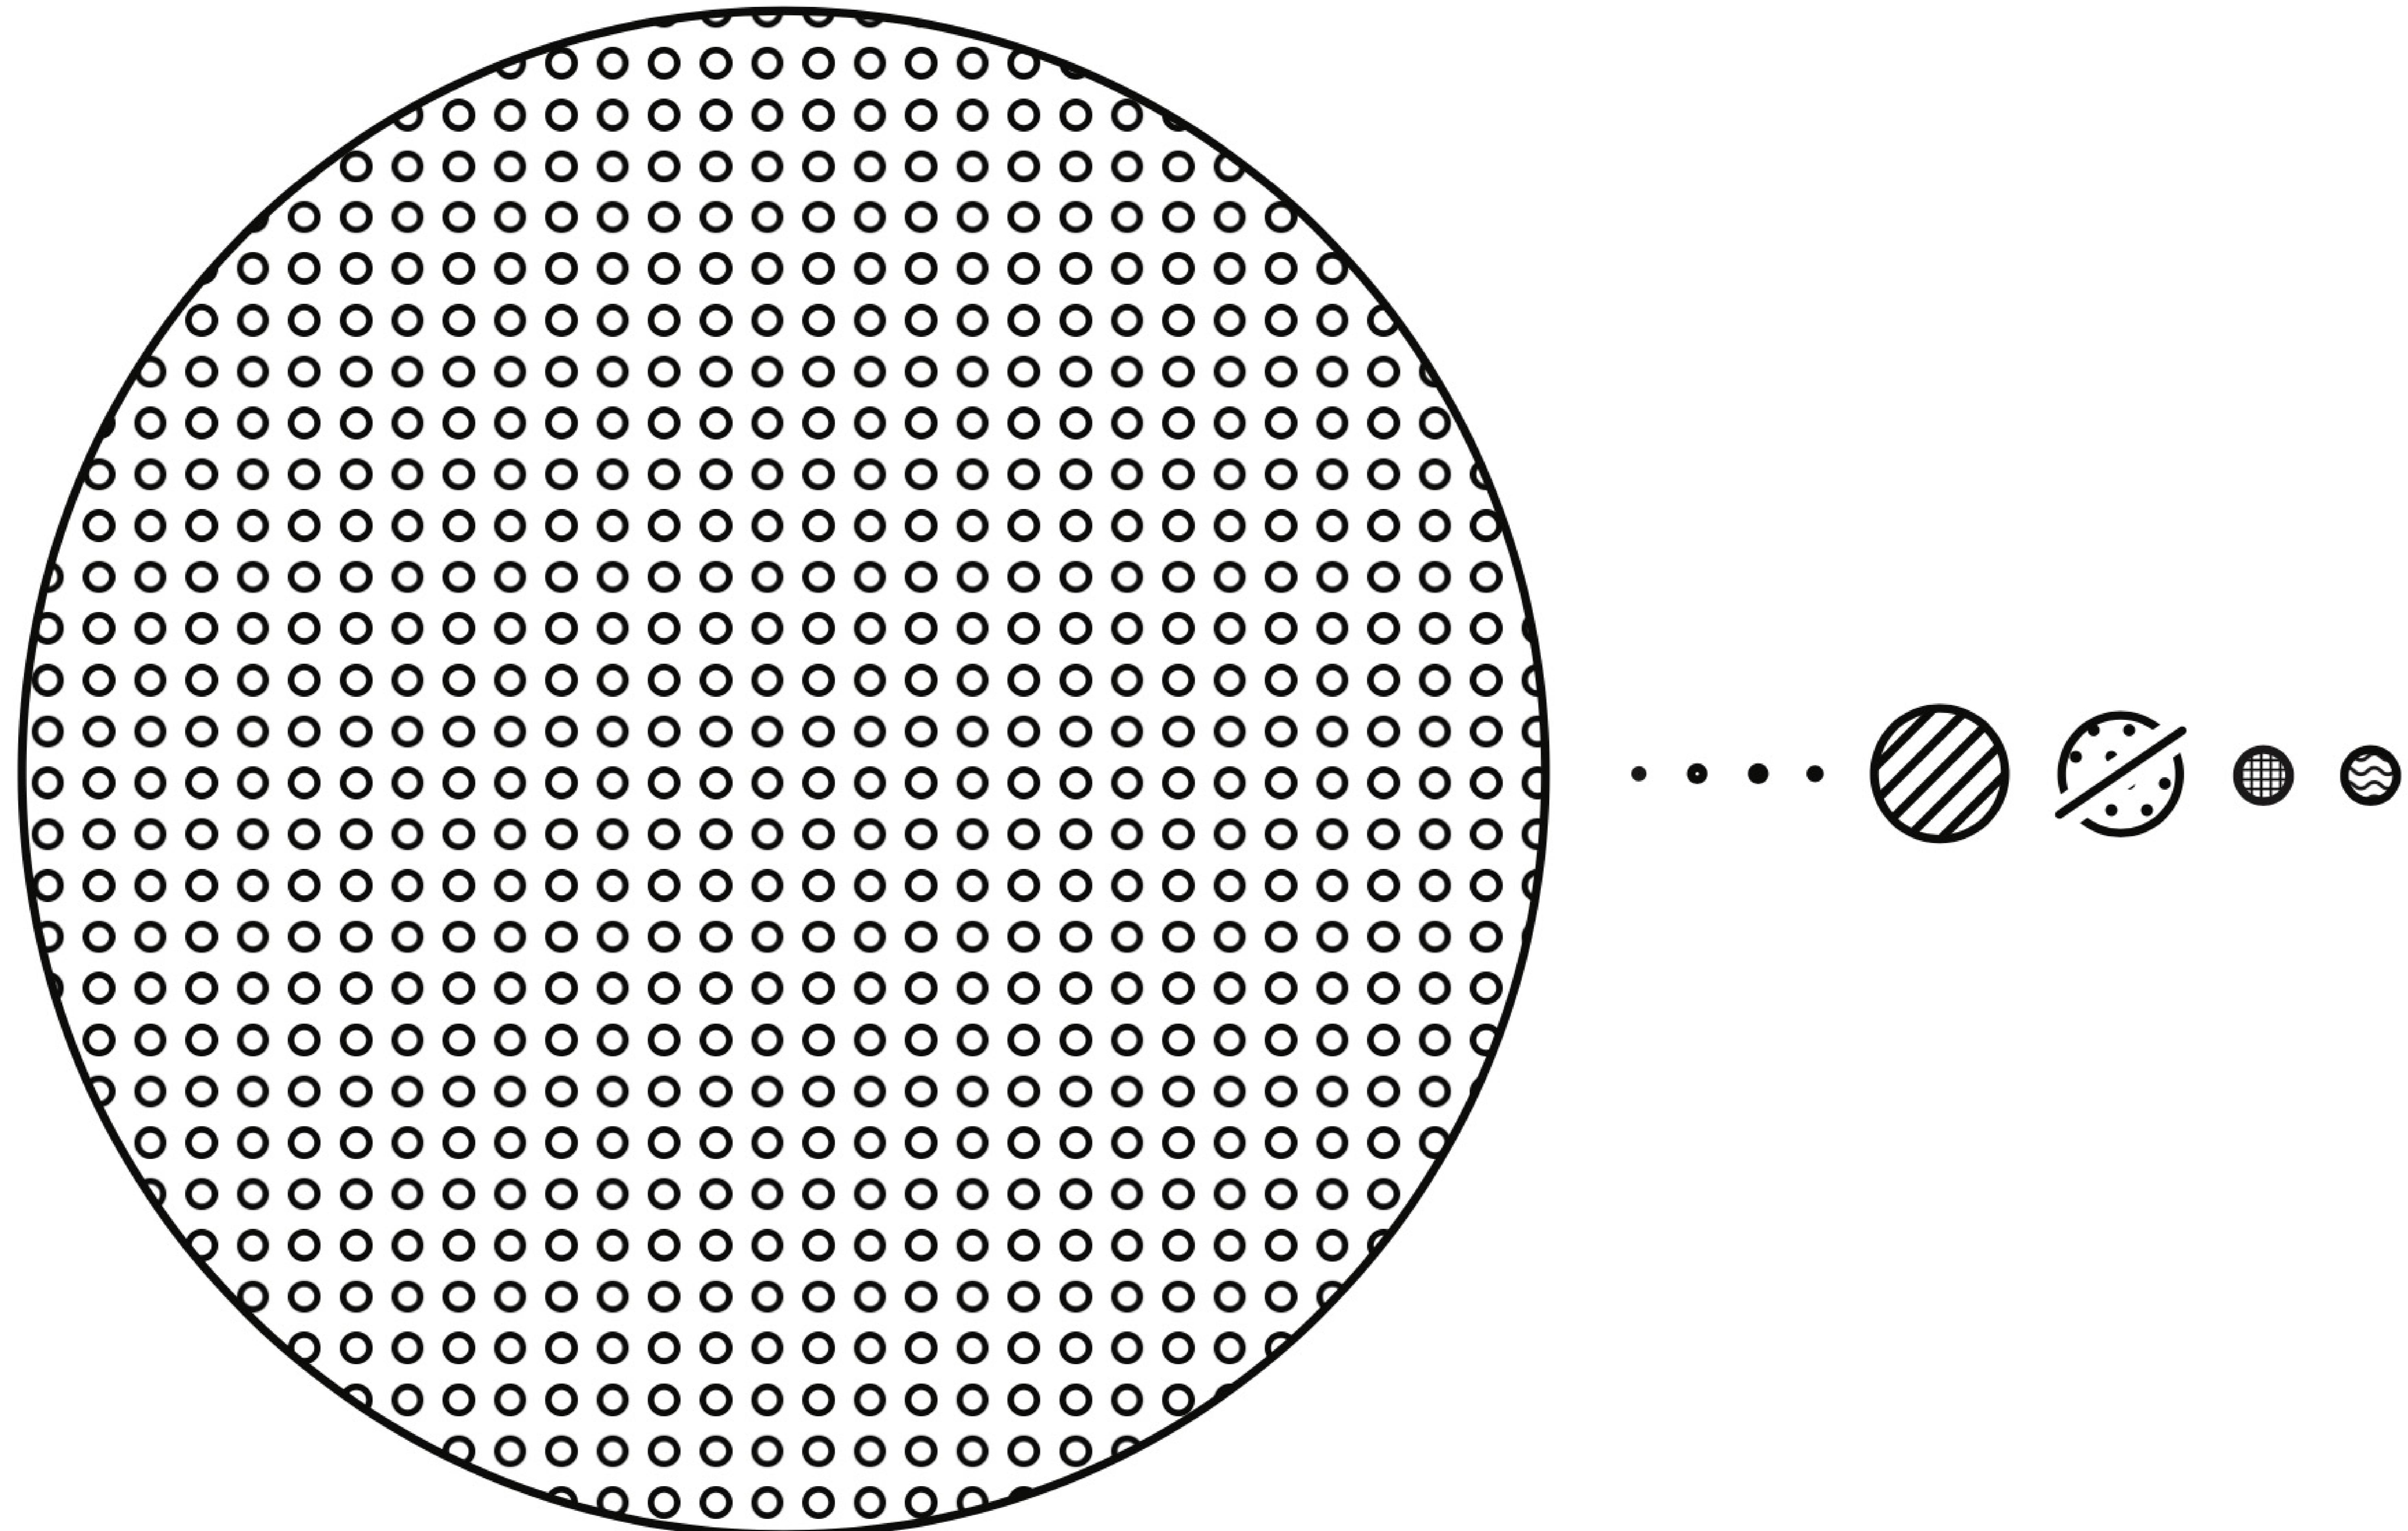

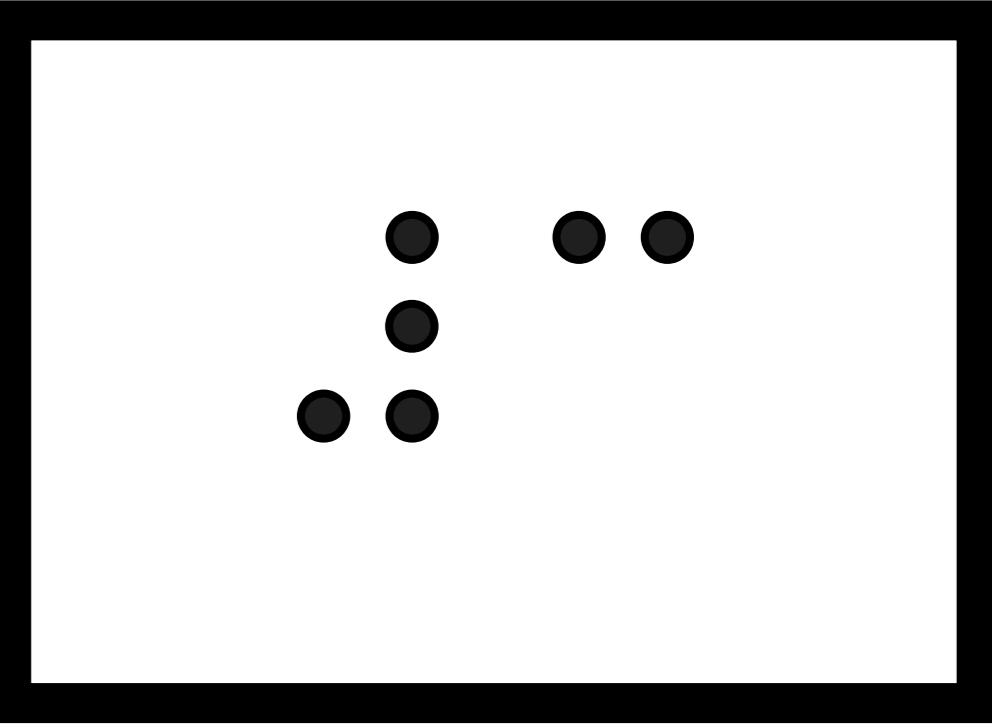

The image consists of two rows of black dots. The top row contains 10 pairs of dots, where each pair is a small circle with a larger dot inside. These pairs are arranged in a staggered pattern: the first pair is at the far left, followed by a gap, then pairs 2 through 10. The bottom row contains 10 single dots, also in a staggered pattern with gaps between groups of 2. The entire pattern is repeated three times horizontally across the frame.

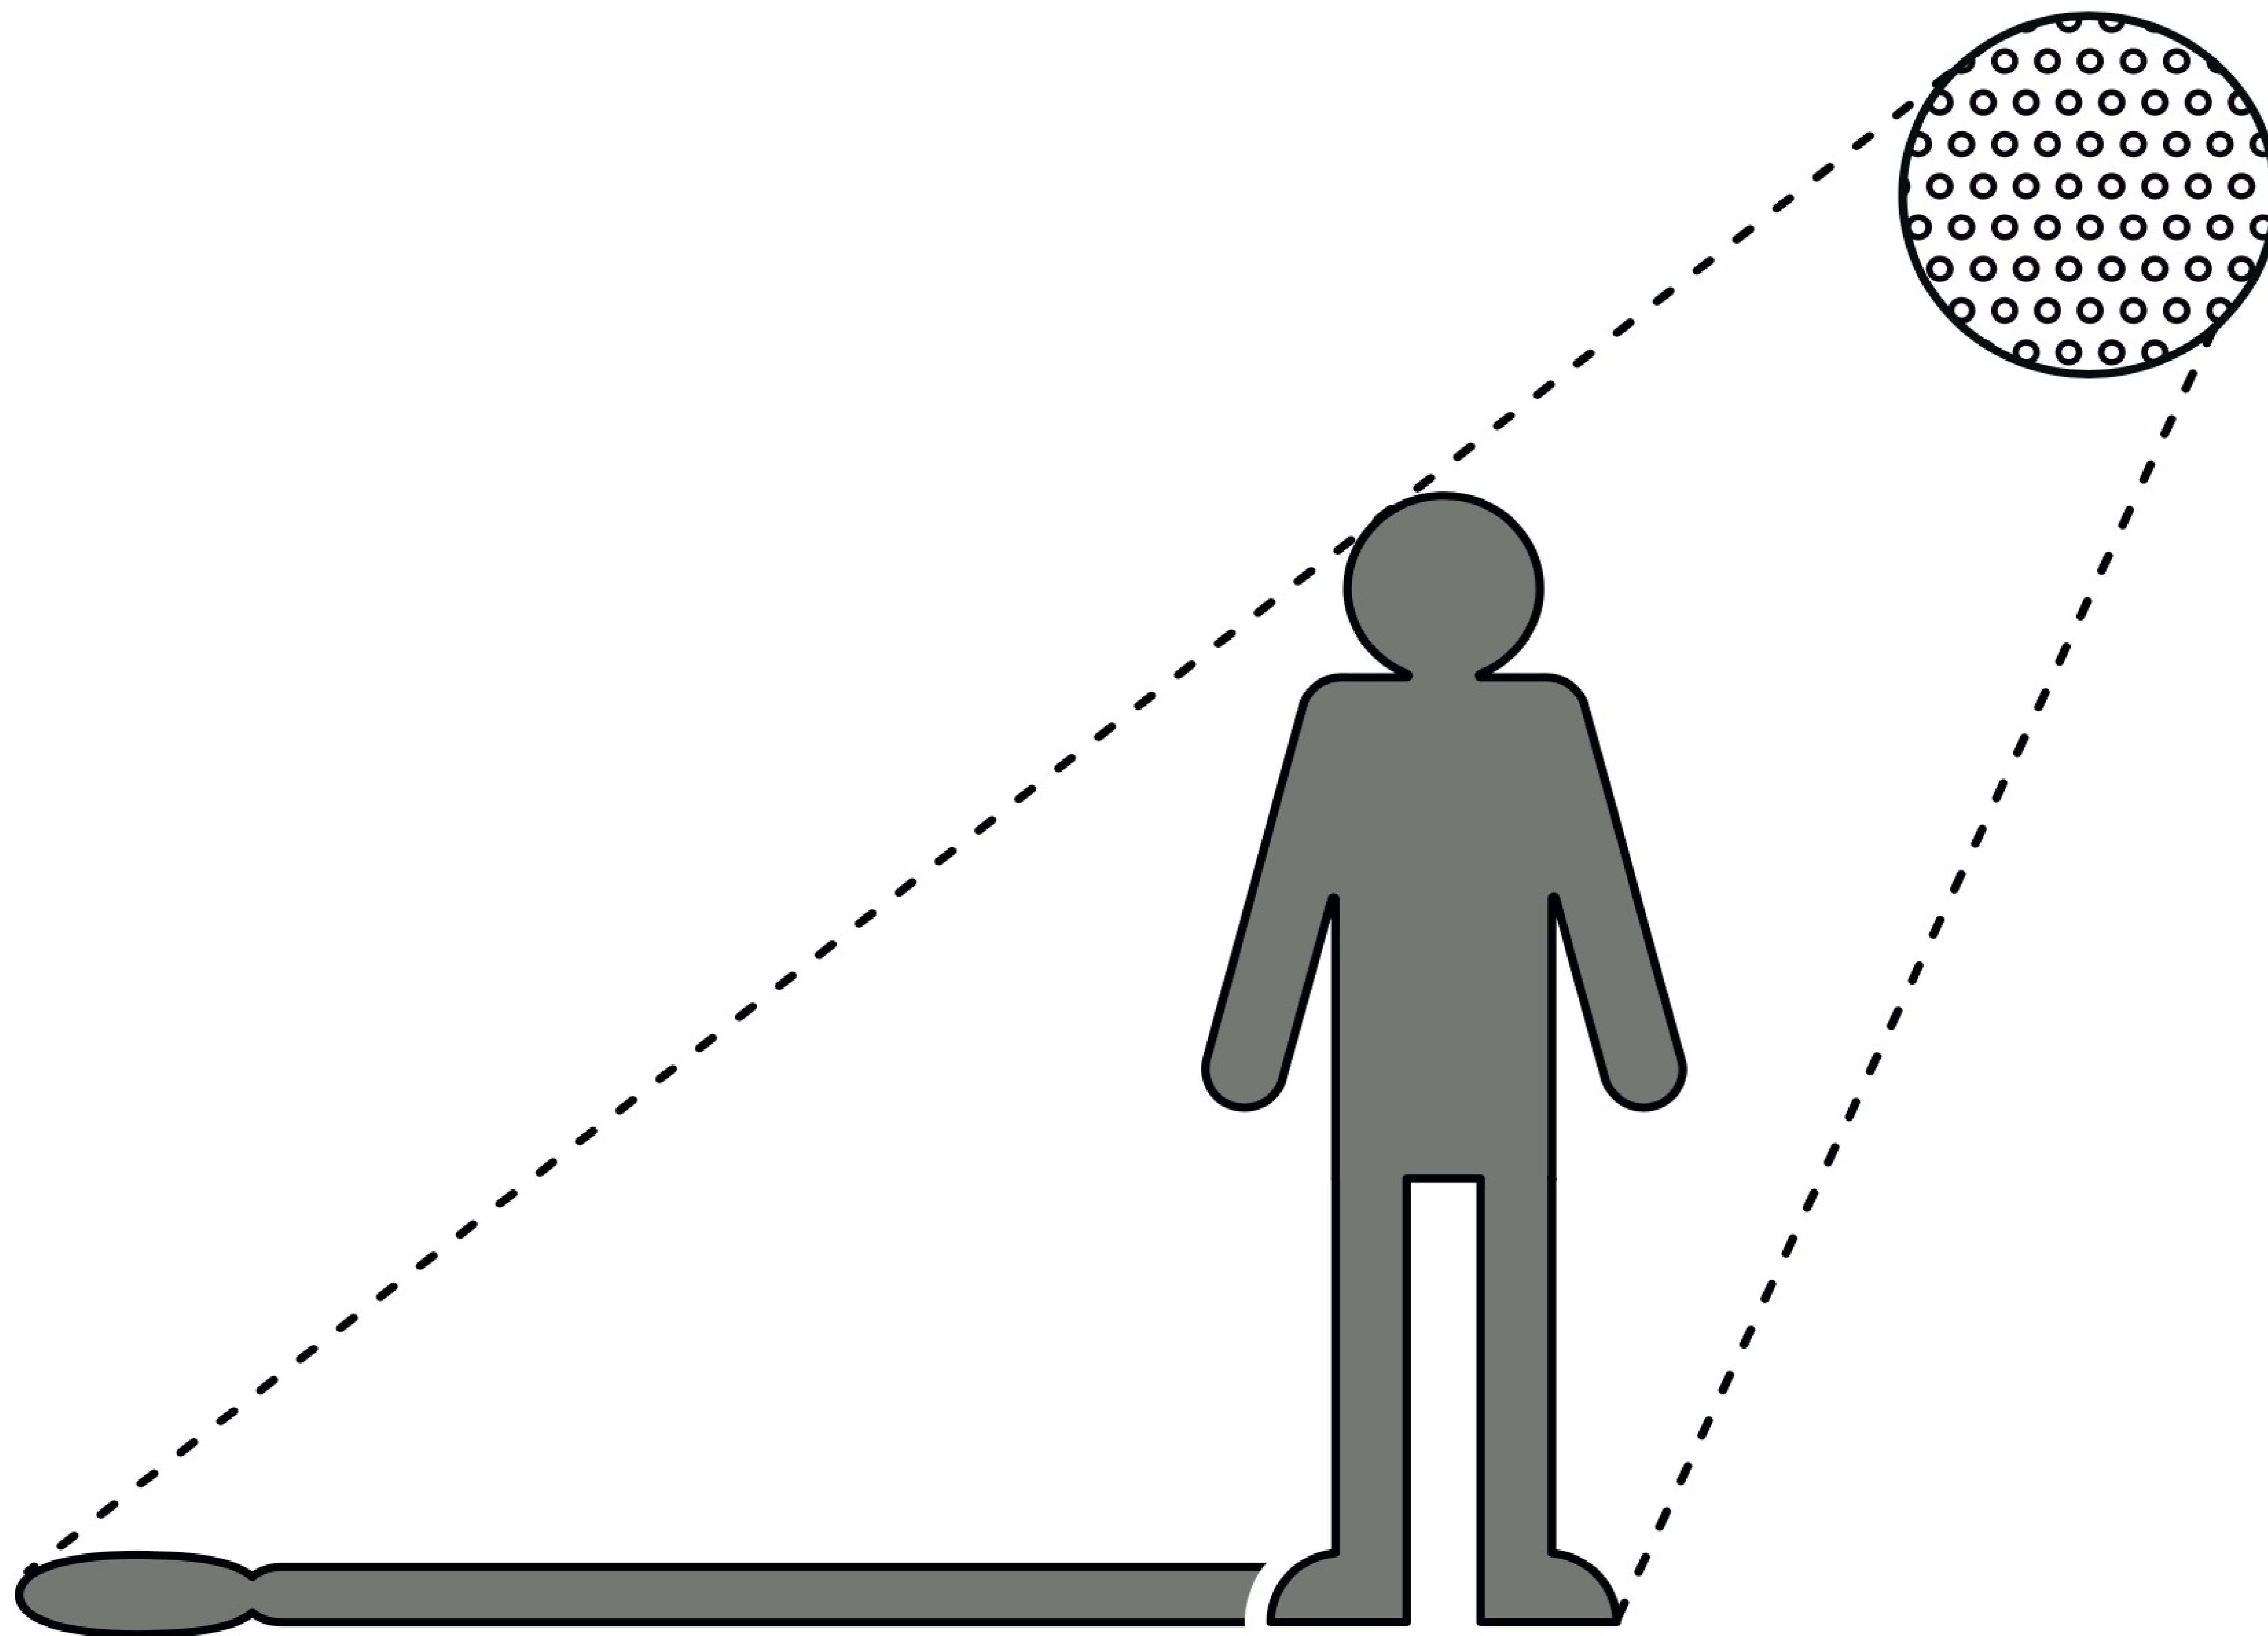

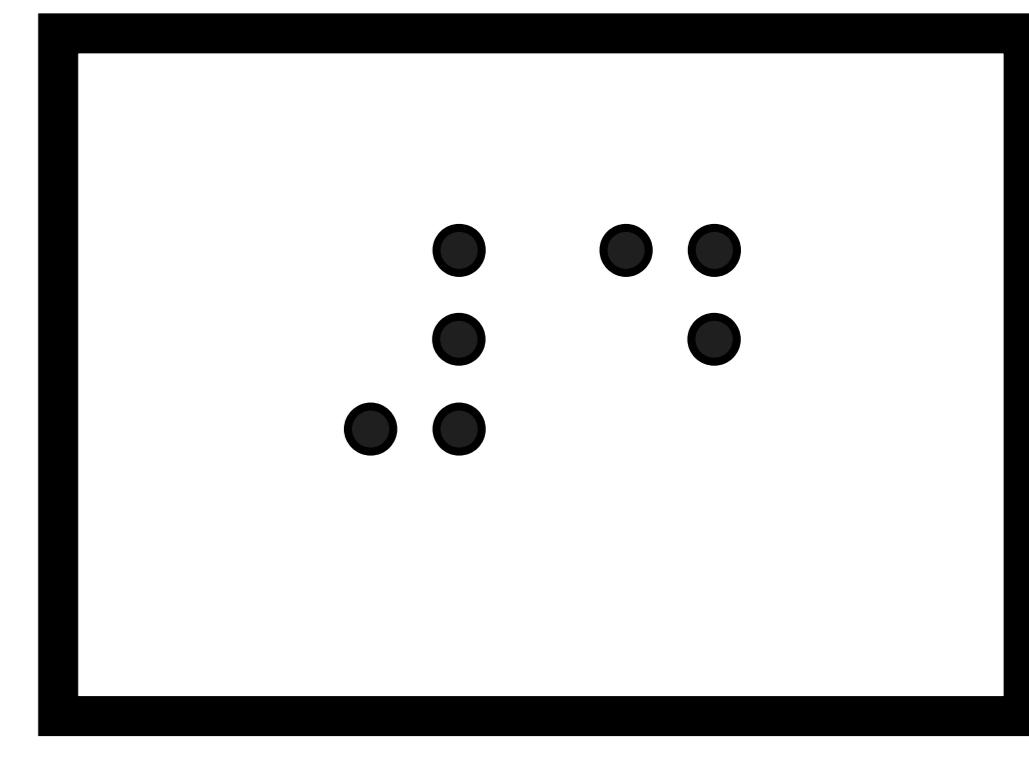

A horizontal row of 25 solid black circular dots. The dots are arranged in a regular, spaced-out pattern across the width of the image.

FOTOSENTEZ

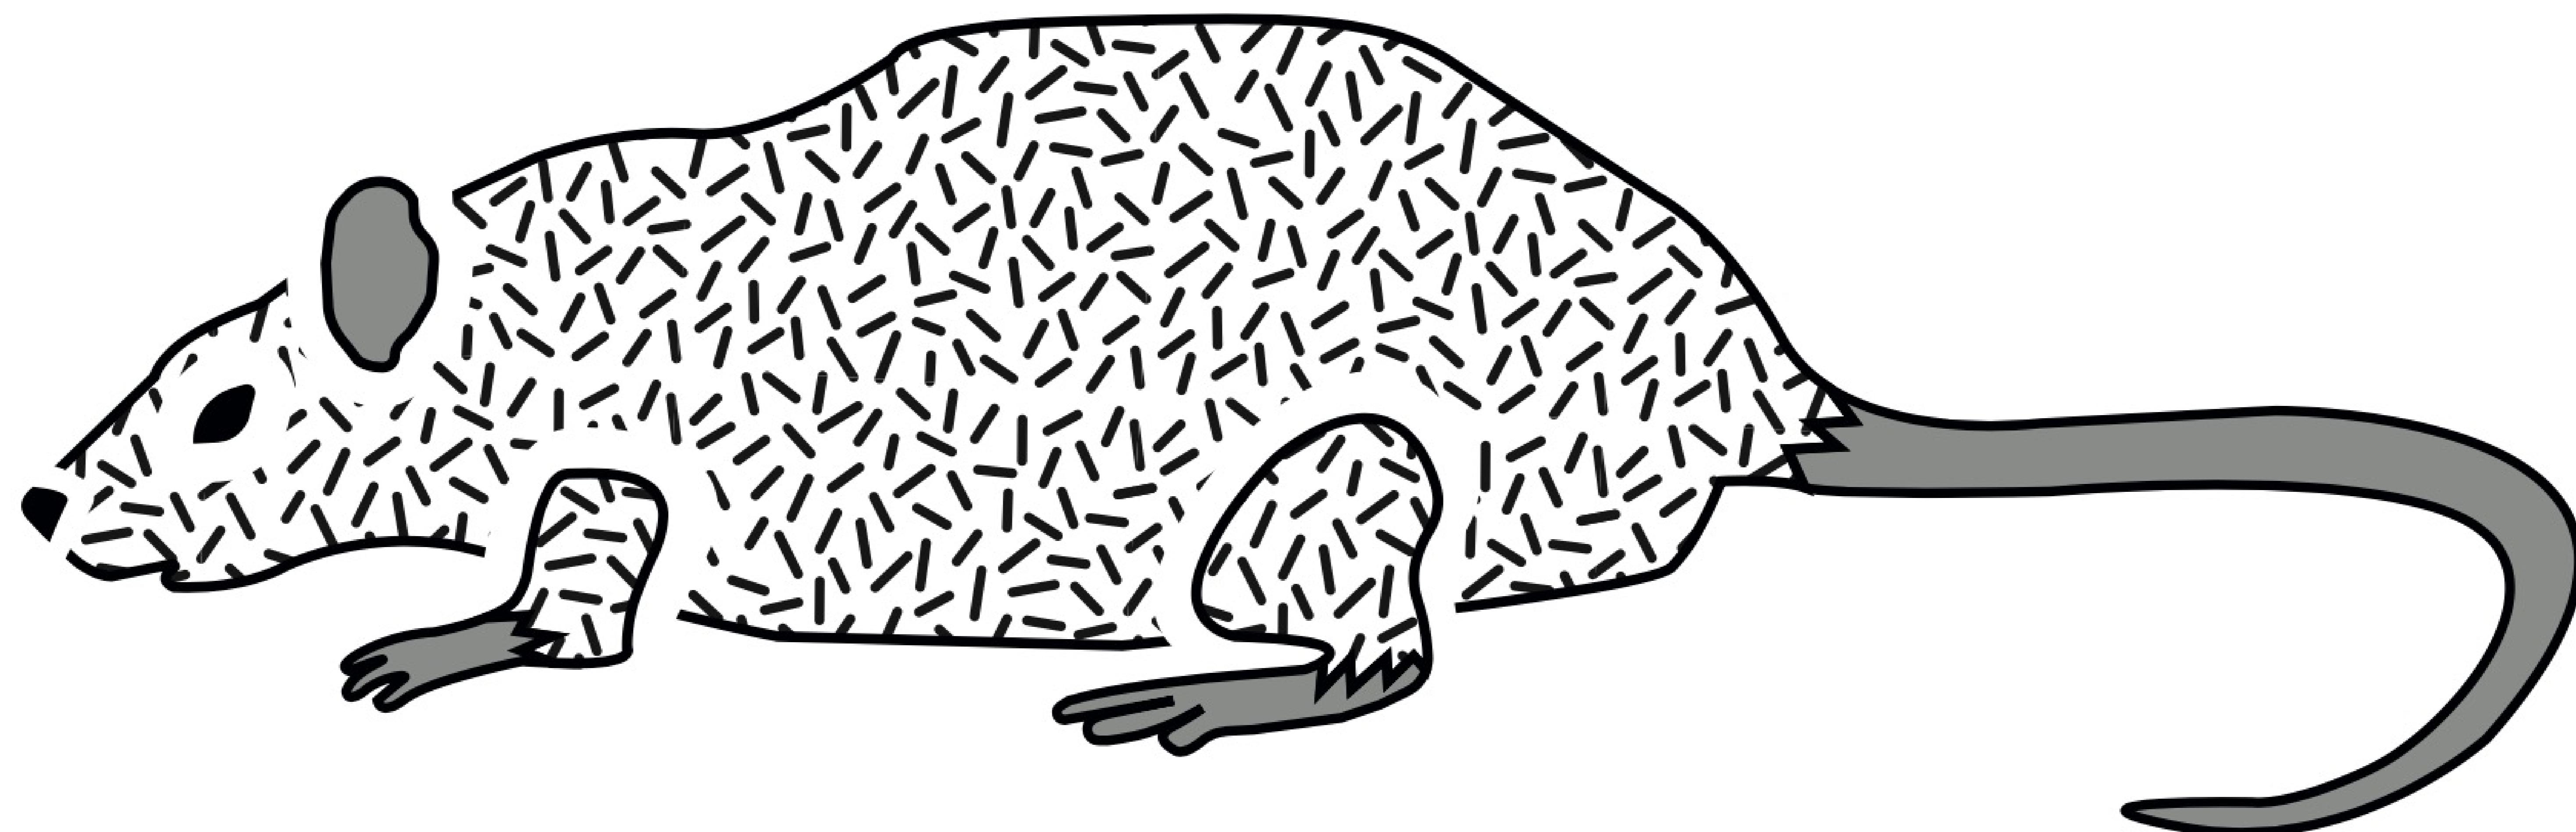

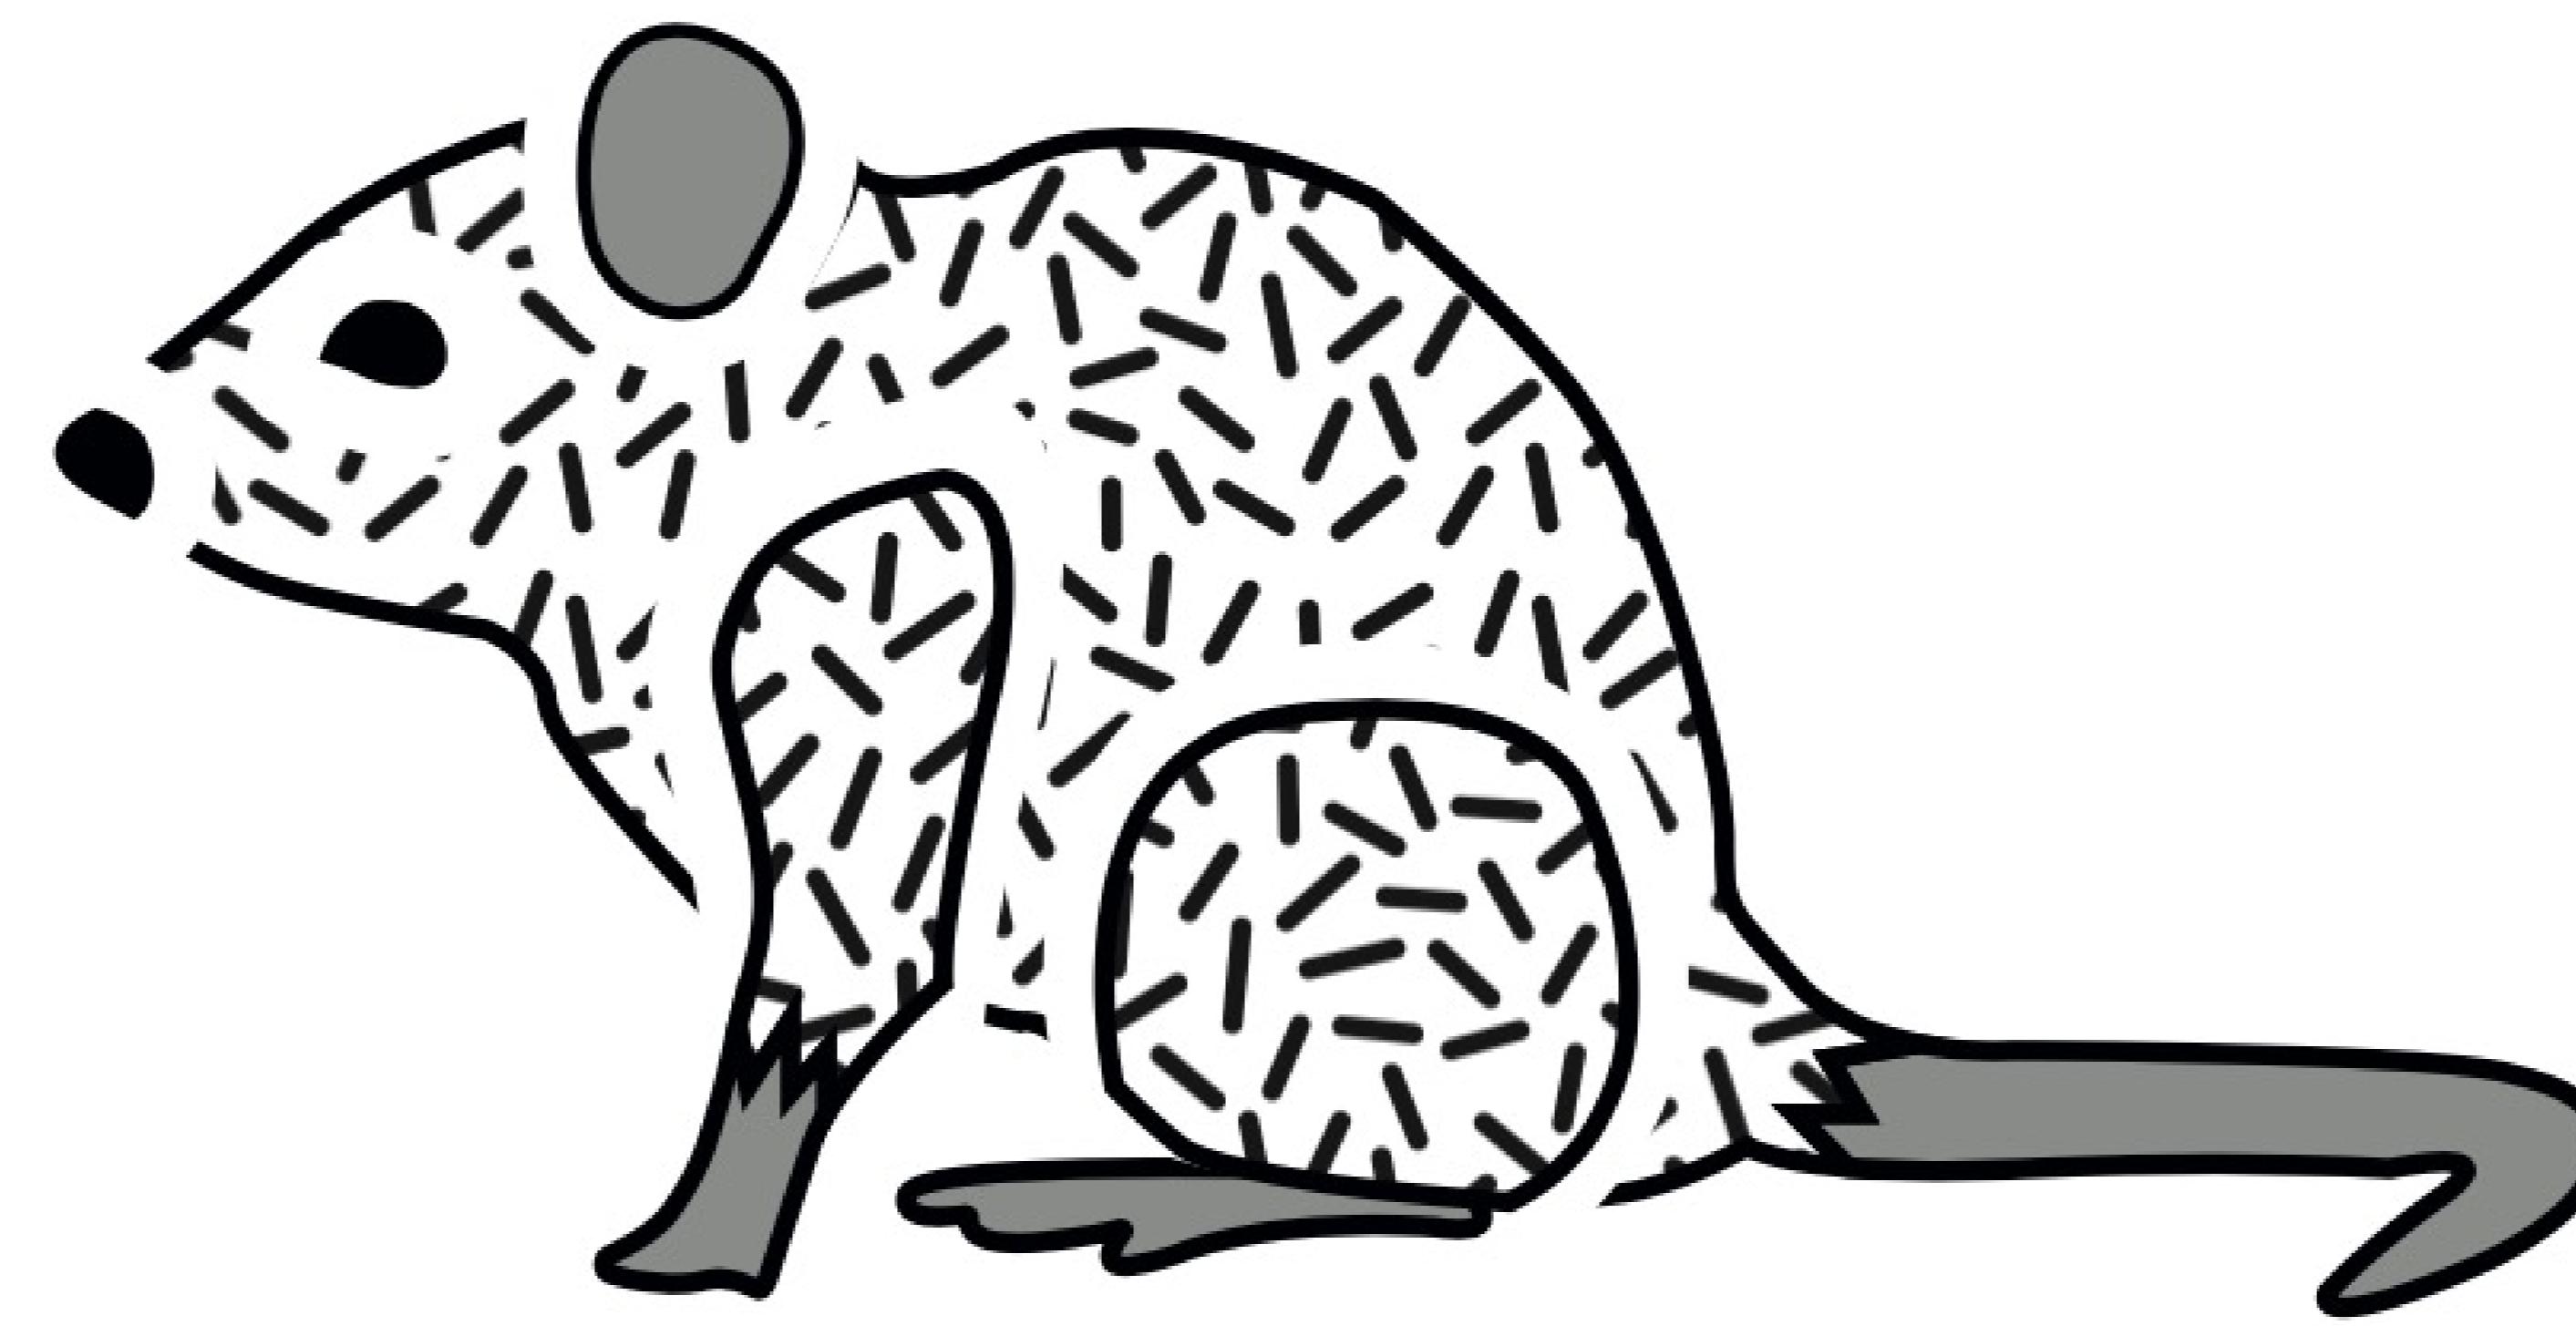

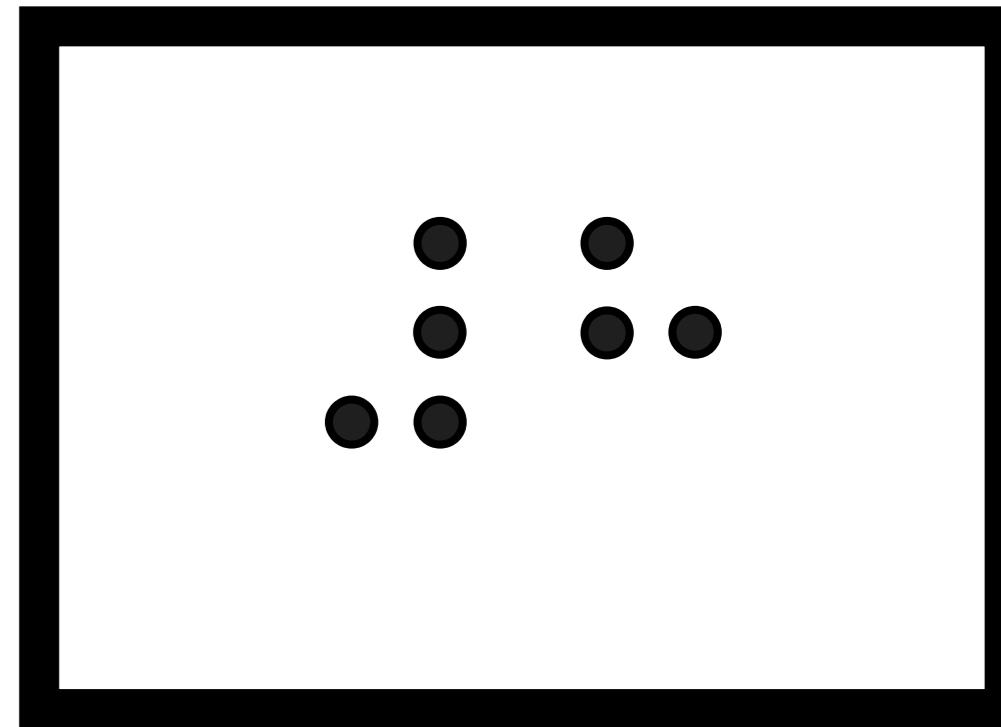

The image shows a collection of black dots arranged in a grid-like pattern. The dots are organized into several horizontal rows. Within each row, there are vertical columns of dots. Some columns have a single dot, while others contain multiple dots. The overall effect is a staggered or irregular grid. The dots are solid black and have a uniform size.

# KARŞILAŞTIRMALI OLARAK KUŞLAR

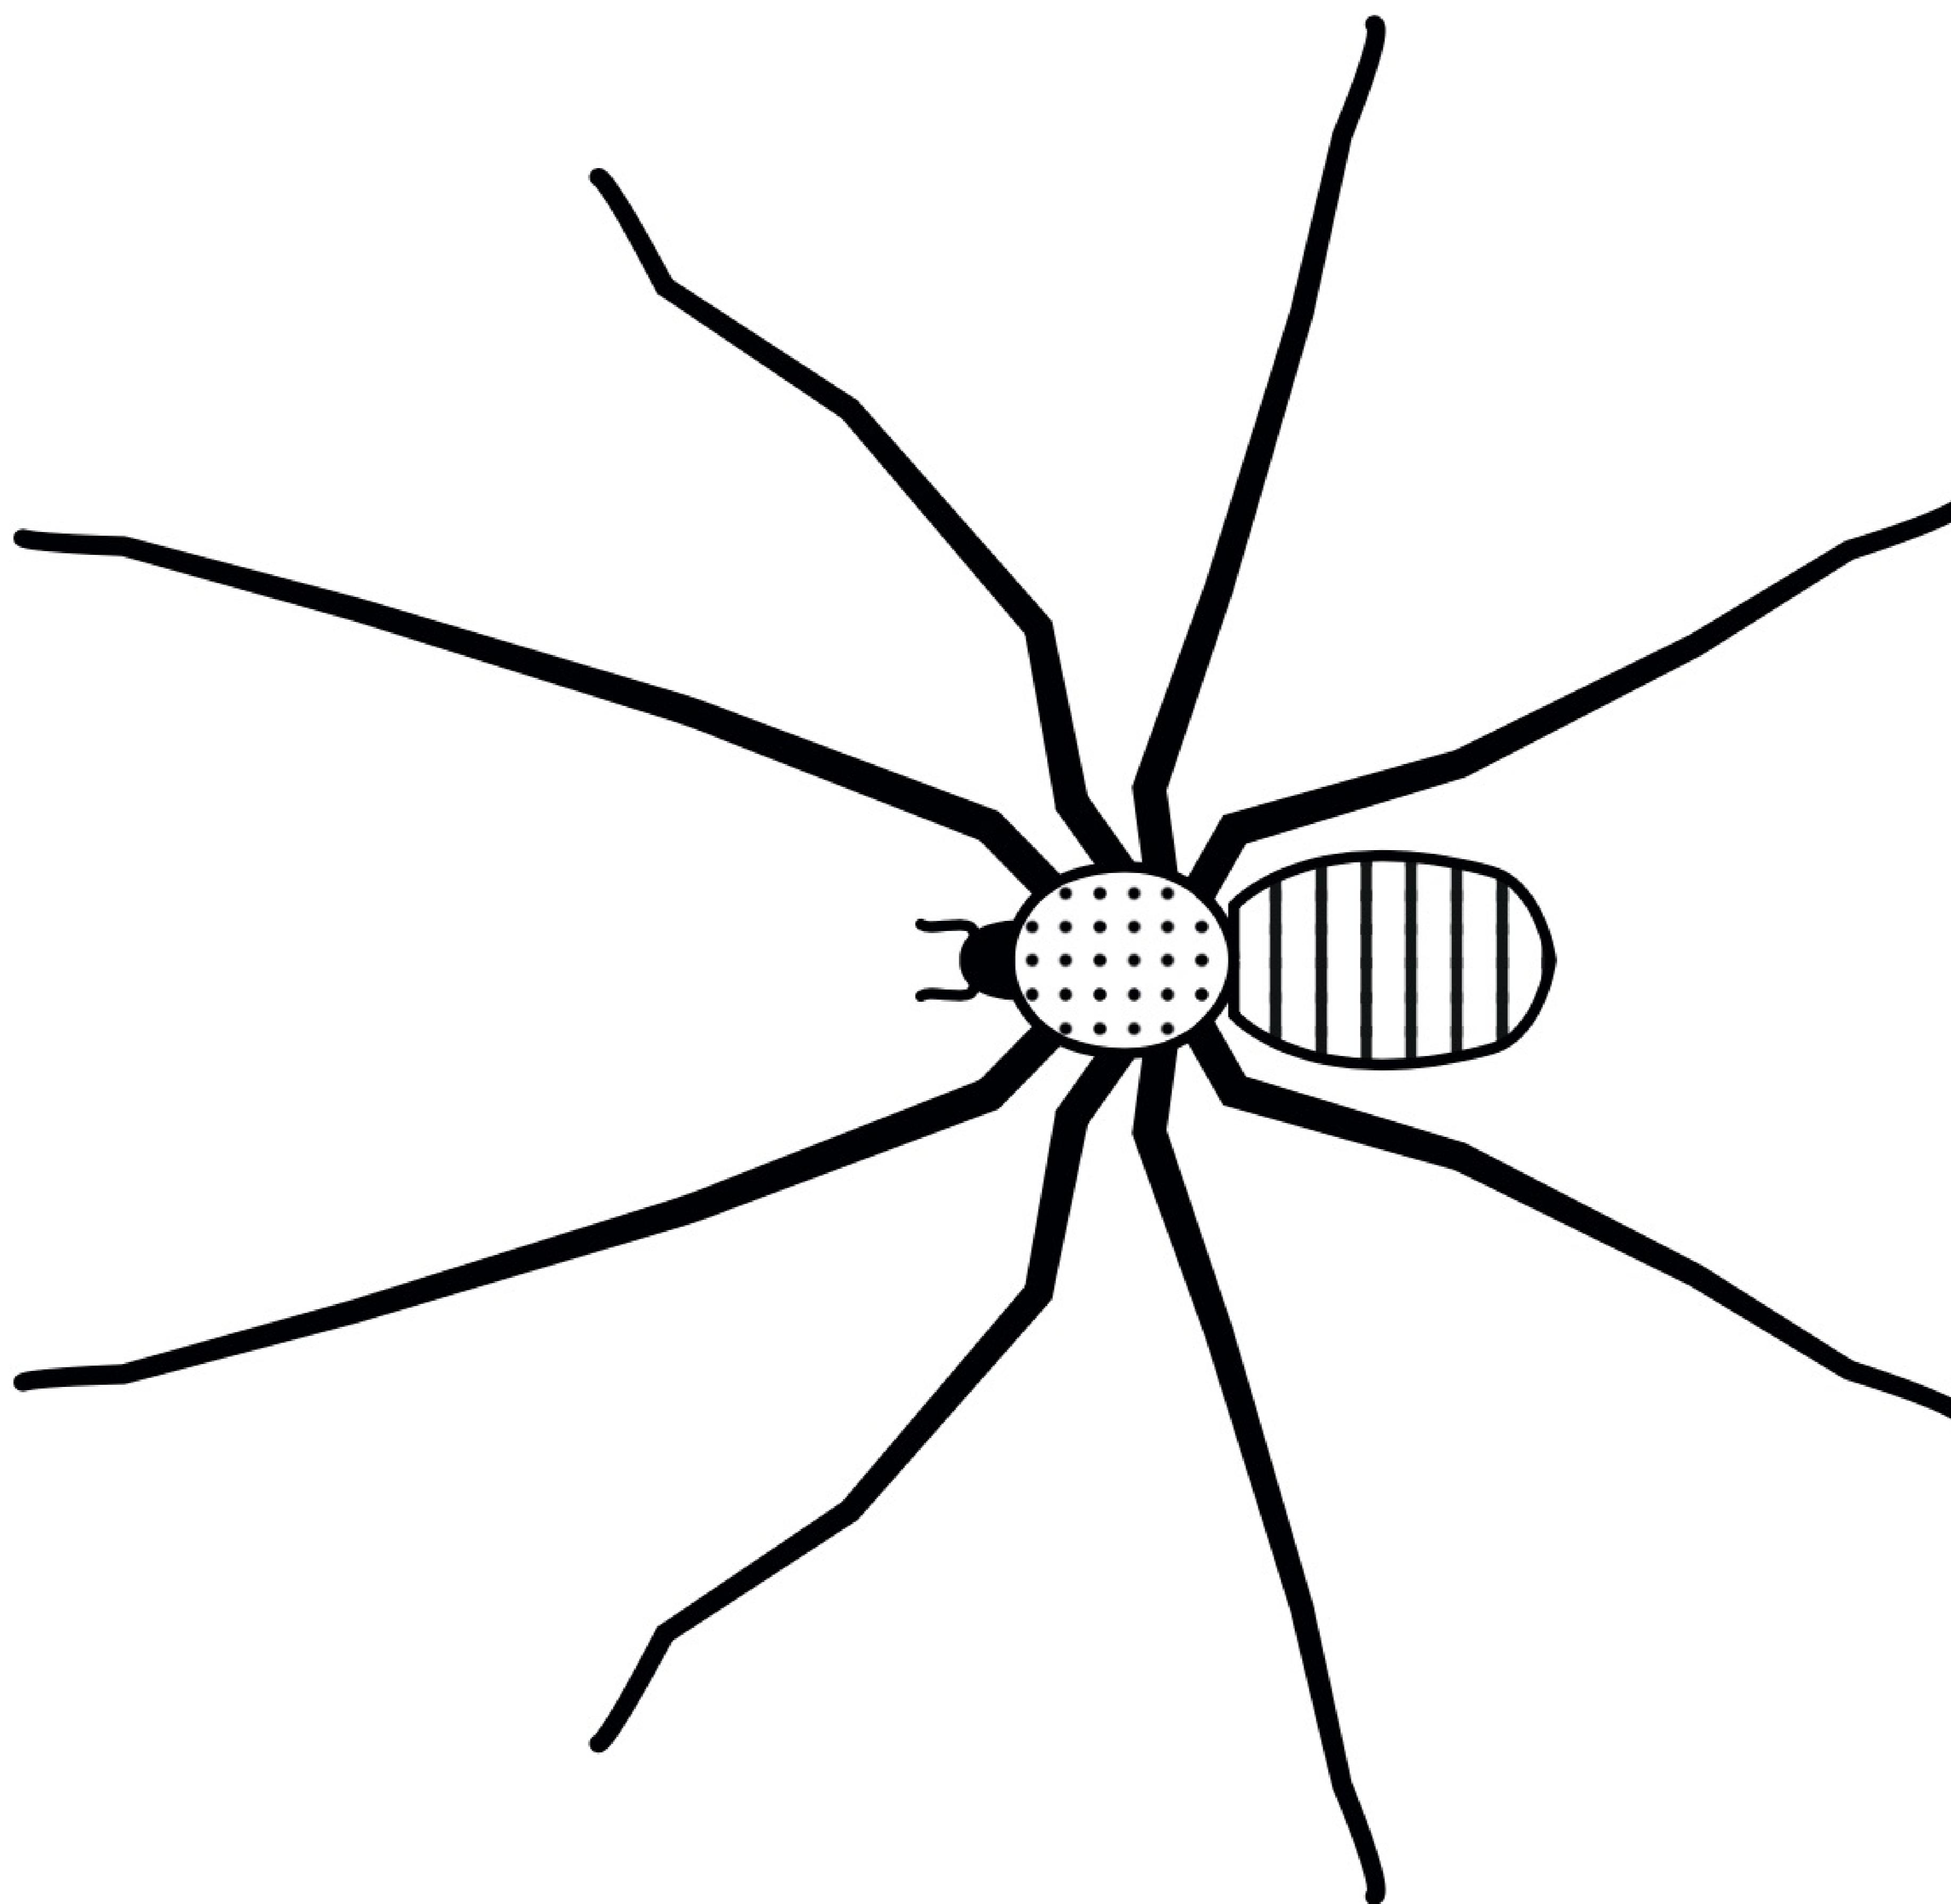

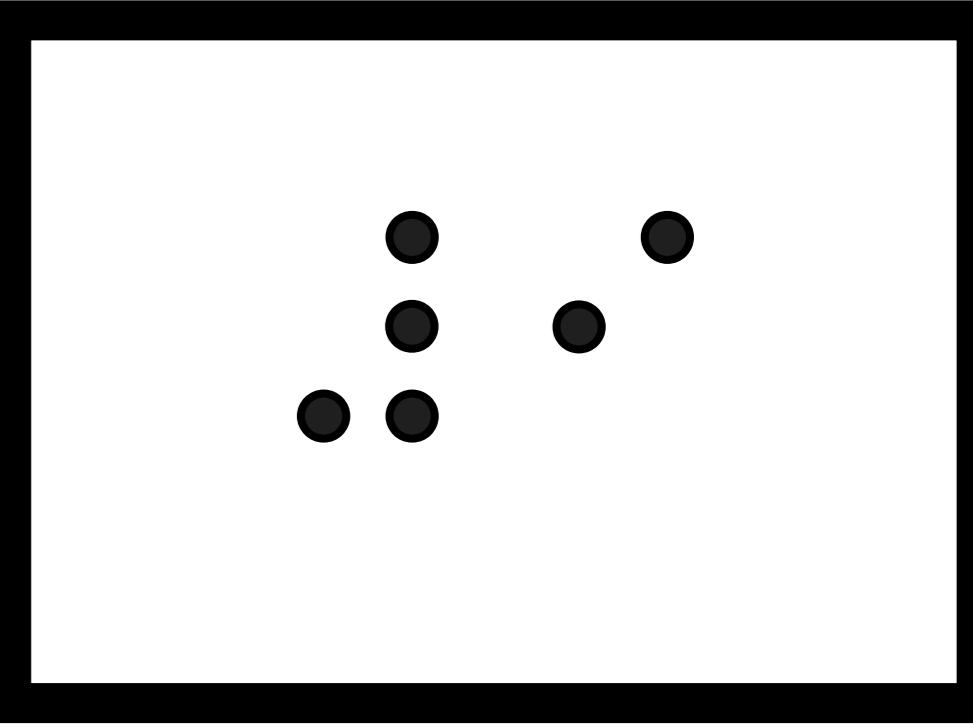

A horizontal sequence of 20 black dots arranged in three rows. The first row has 2 dots. The second row has 5 dots, with pairs at positions 1-2, 4-5, 7-8, 10-11, 13-14, 16-17, and 19-20. The third row has 13 dots, with pairs at positions 3-4, 6-7, 9-10, 12-13, 15-16, and 18-19.

# FARE VE SİÇAN

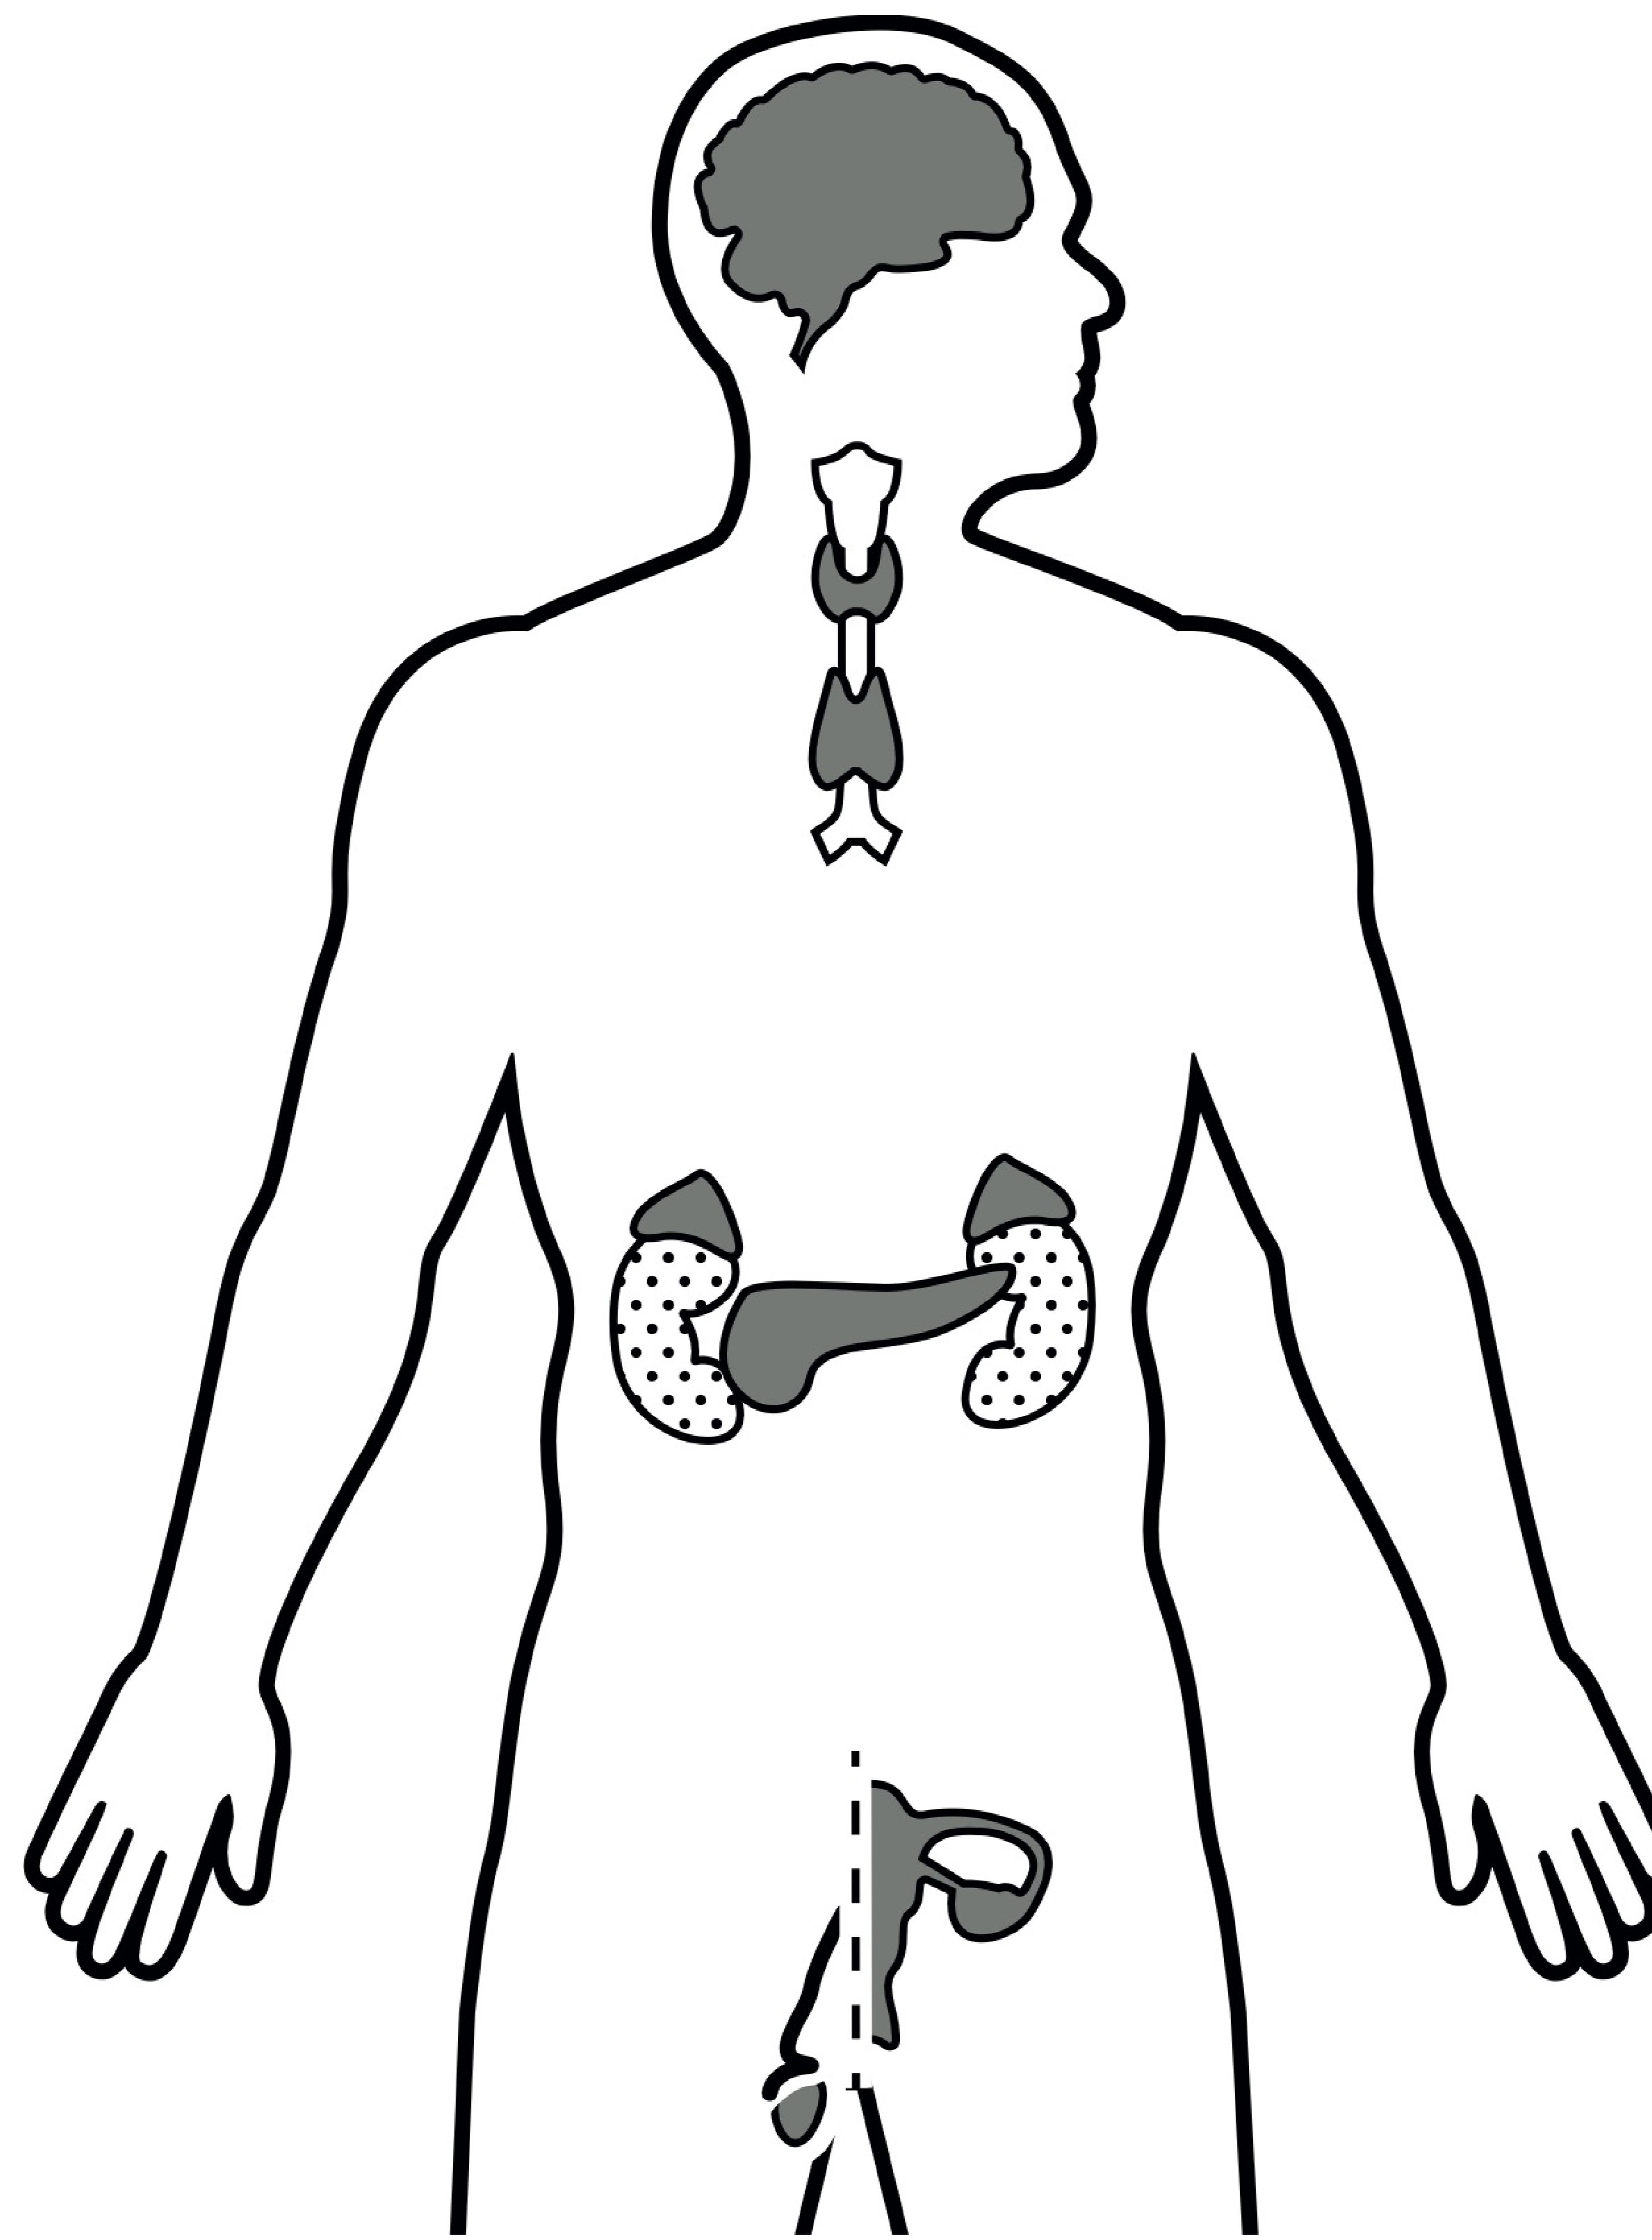

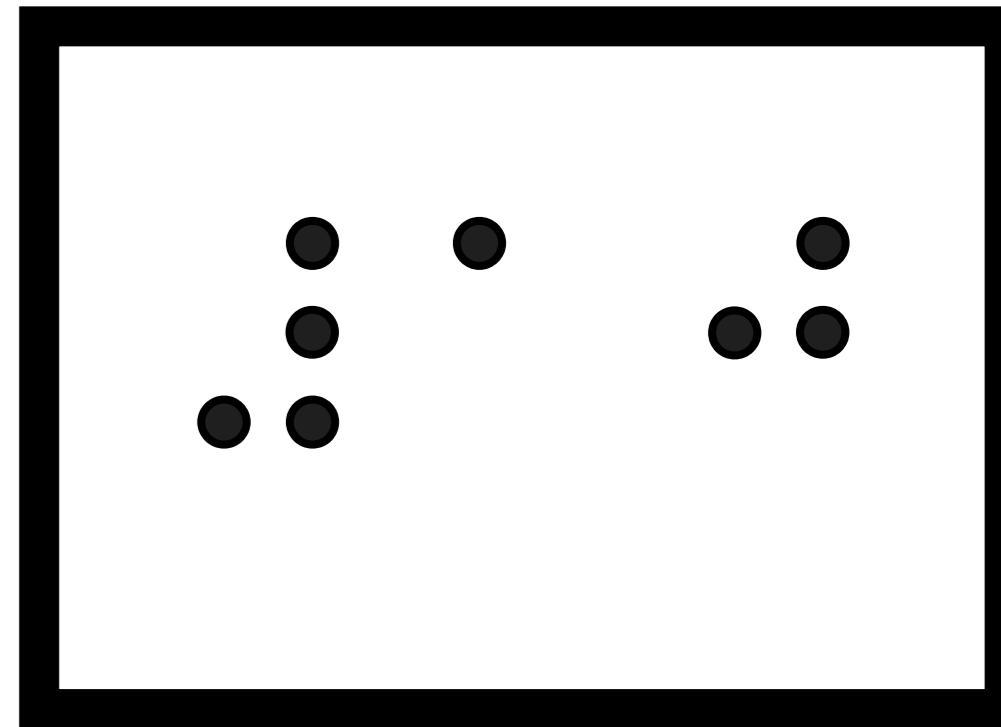

A 3x10 grid of black dots arranged in three rows. The top row has 10 dots. The middle row has 9 dots, with the first dot in the first column and the last dot in the ninth column. The bottom row has 10 dots.

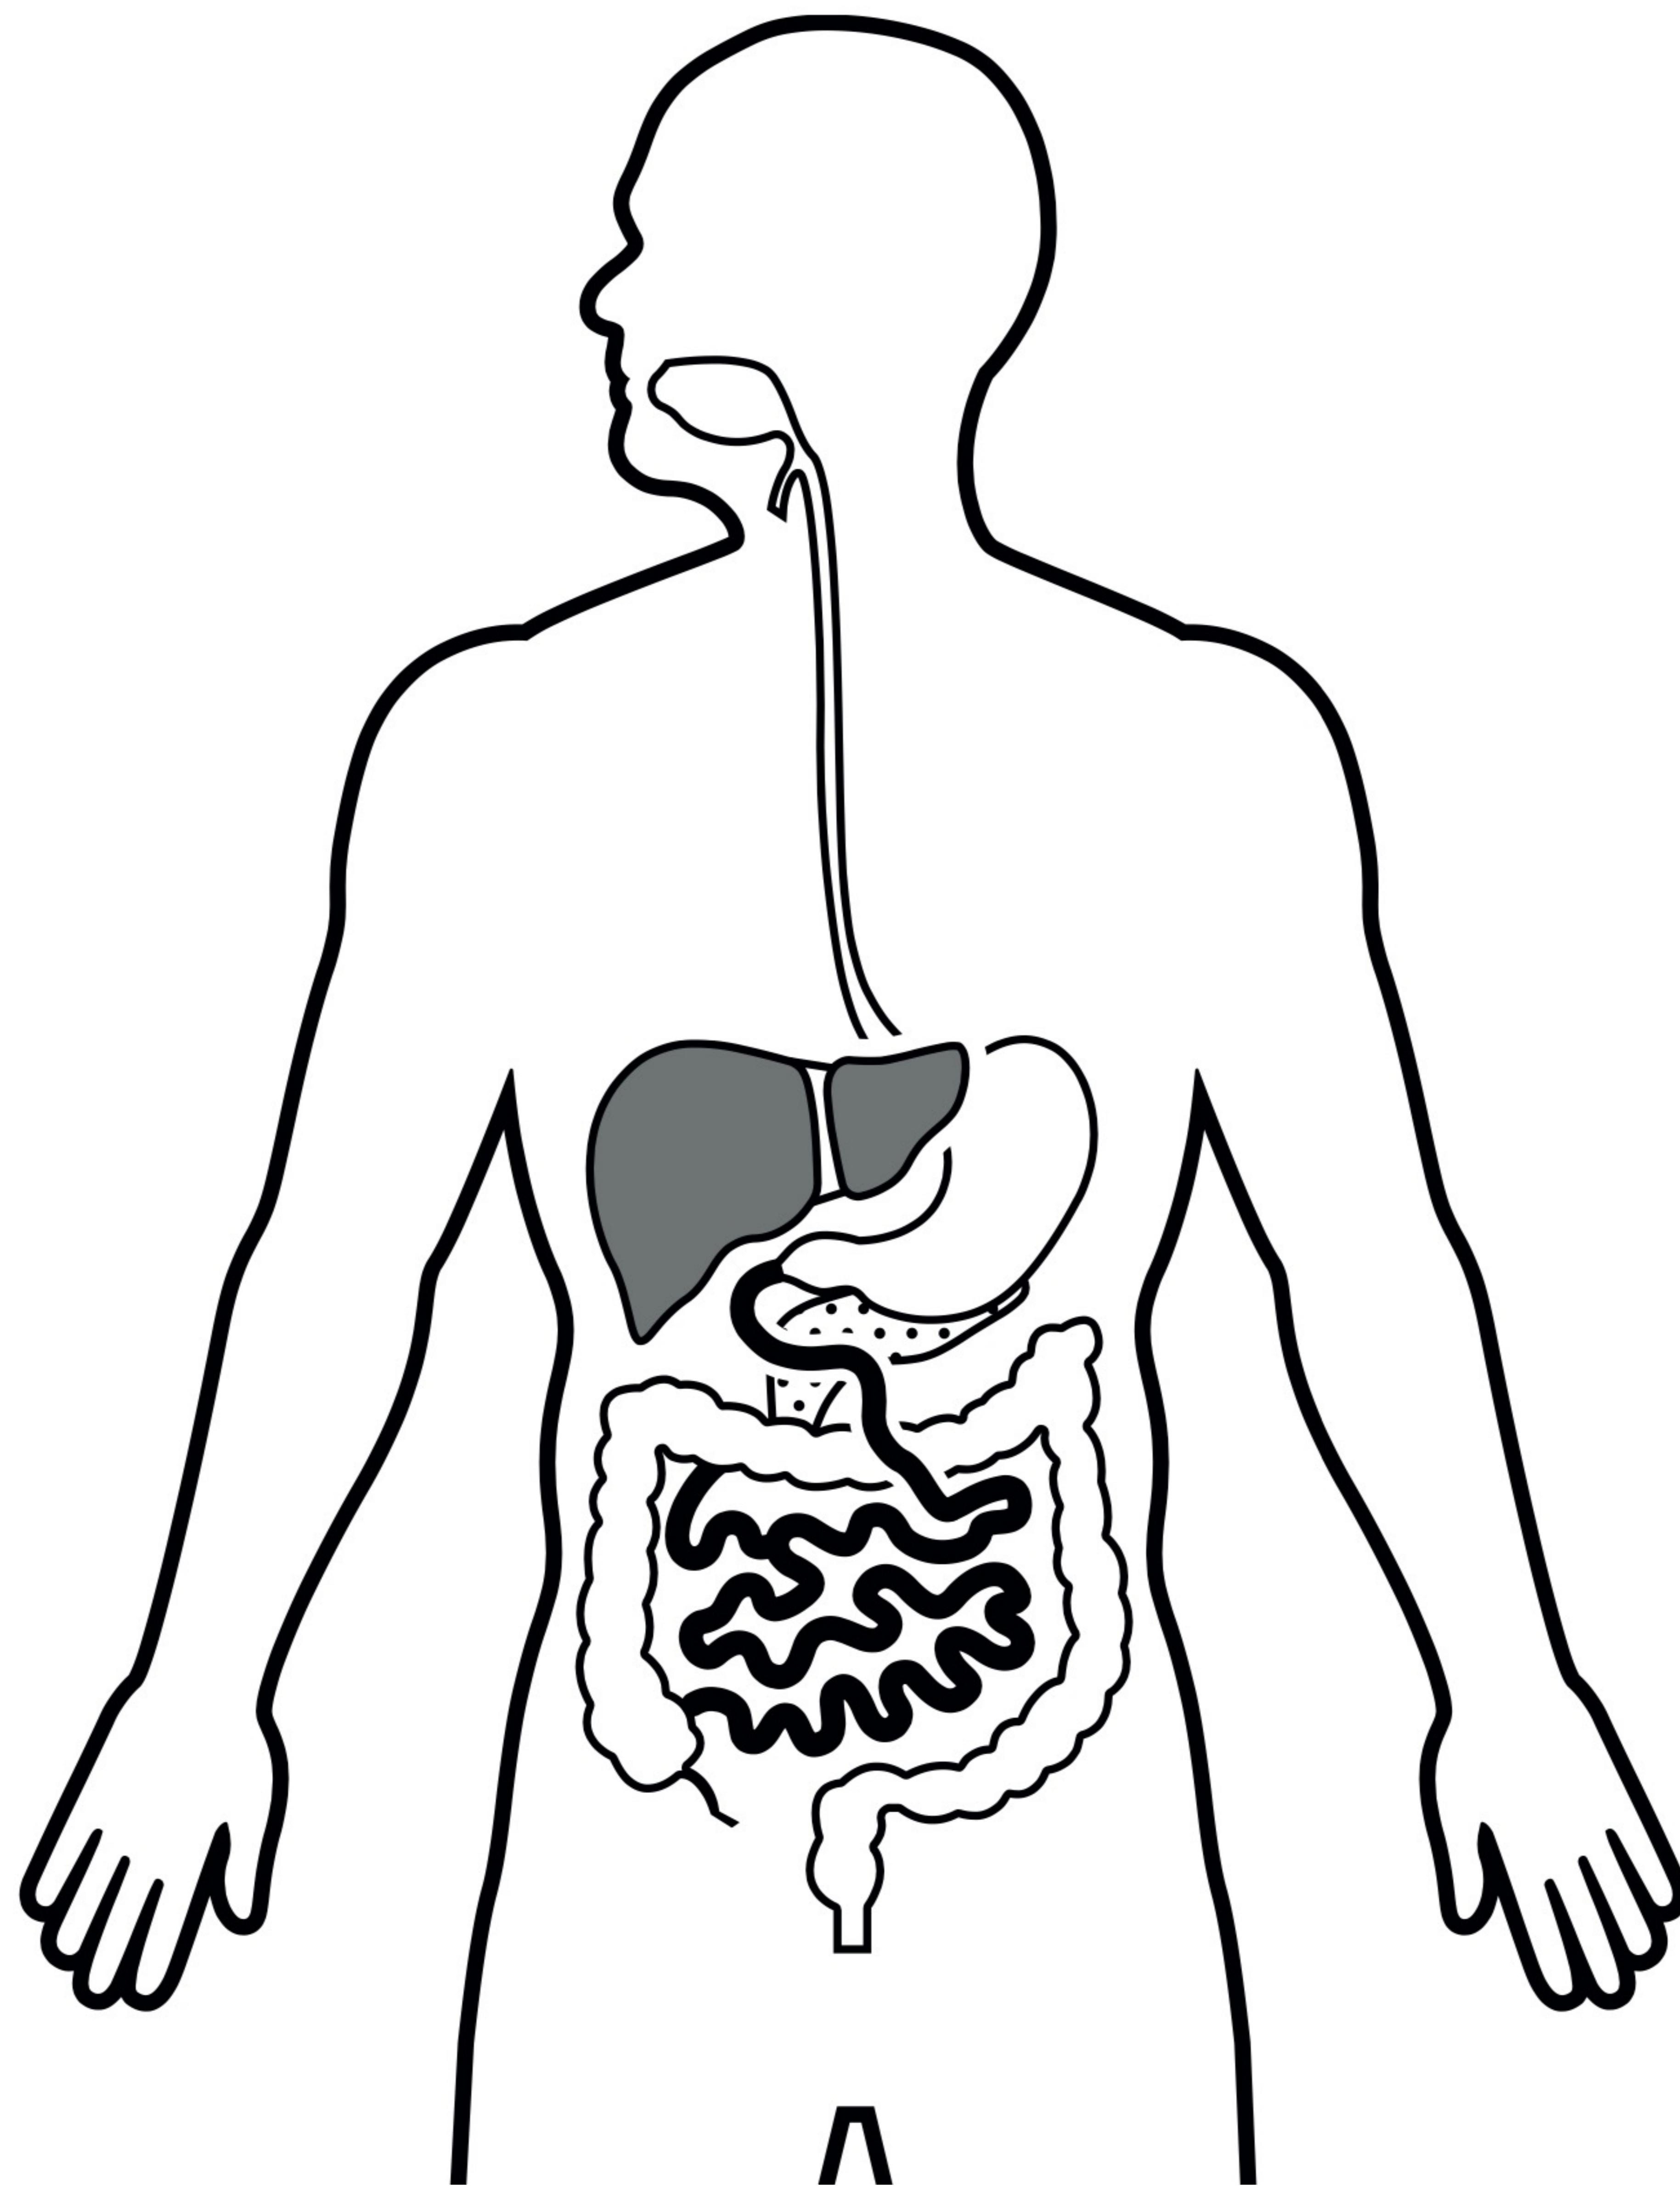

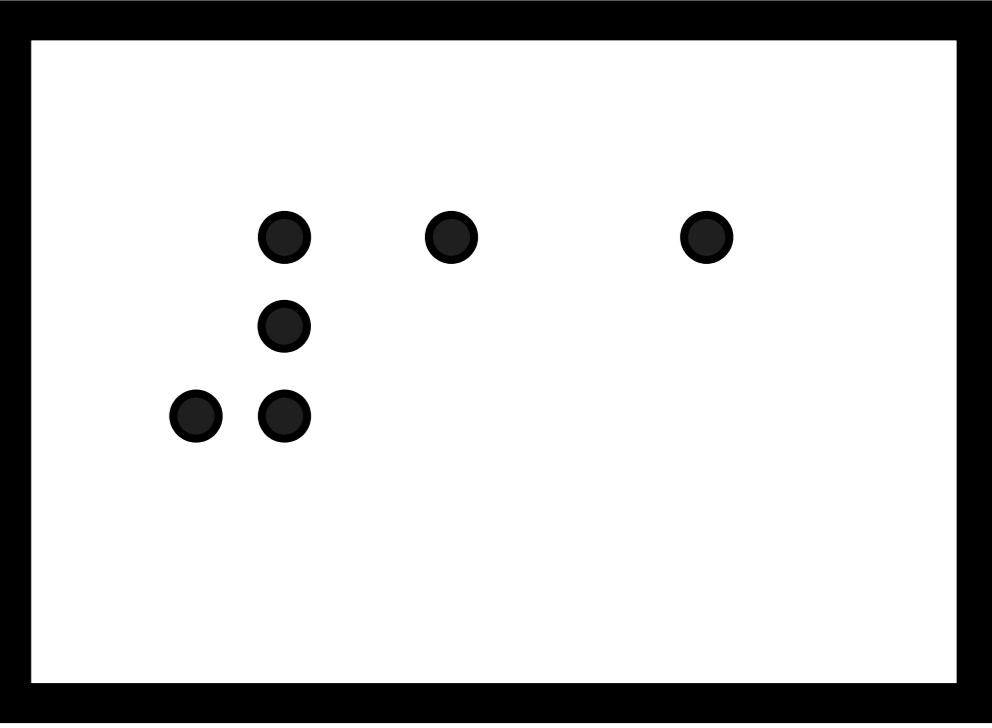

# ÖRÜMCEK

The image shows a grid of black dots arranged in a repeating pattern. The dots are organized into several horizontal rows. Within each row, there are vertical columns of dots. The pattern creates a visual effect of small squares or a grid within a grid. The dots are solid black and have a uniform size and spacing.

# DOLAŞIM SİSTEMİ

The diagram consists of three horizontal rows of black circular dots. The top row contains 5 dots, the middle row contains 3 dots, and the bottom row contains 7 dots. The dots are arranged in a staggered pattern, with each dot in one row positioned between two dots in the row above it. This creates a grid-like structure where the vertical distance between rows is equal to the horizontal distance between adjacent dots.
