

## ÖRNEK DOKUNSAL KİTAP

dokunduyogren.com

A horizontal row of 24 black circular dots, organized into four distinct groups of six dots each. The first group is at the far left, the second group is in the center-left, the third group is in the center-right, and the fourth group is at the far right.

A scatter plot showing the relationship between the number of children (X-axis) and the number of hours worked (Y-axis). The X-axis ranges from 0 to 5, and the Y-axis ranges from 0 to 10. The data points show a general upward trend, indicating that as the number of children increases, the number of hours worked also tends to increase.

Number of Children	Number of Hours Worked
0	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
1	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
2	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
3	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
4	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
5	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10

A scatter plot showing the relationship between the number of children (X-axis) and the number of hours worked (Y-axis). The X-axis ranges from 0 to 5, and the Y-axis ranges from 0 to 10. The data points are as follows:

Number of Children	Number of Hours Worked
0	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
1	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
2	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
3	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
4	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
5	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10

A scatter plot showing the relationship between the number of children (X-axis) and the number of hours worked (Y-axis). The X-axis ranges from 0 to 5, and the Y-axis ranges from 0 to 10. The data points show a general upward trend, indicating that as the number of children increases, the number of hours worked also tends to increase.

Number of Children	Number of Hours Worked
0	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
1	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
2	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
3	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
4	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
5	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10

The image shows a horizontal sequence of 20 black circular dots. They are arranged in two rows: a top row with 10 dots and a bottom row with 10 dots. The dots are positioned such that there are approximately 4 dots in the first column, 2 dots in the second, 1 dot in the third, 2 dots in the fourth, 1 dot in the fifth, 2 dots in the sixth, 1 dot in the seventh, 2 dots in the eighth, 1 dot in the ninth, and 4 dots in the tenth column. This creates a visual effect of density variation along the horizontal axis.

The image shows a grid of black dots. The dots are arranged in several vertical columns. Some columns have a single dot at the top, while others have multiple dots stacked vertically. Horizontal rows of dots are also present, particularly in the center and right sections. The overall pattern is a mix of vertical and horizontal alignments.

A horizontal sequence of black dots arranged in a grid pattern. The dots are organized into several vertical columns. The first column has 3 dots. The second column has 2 dots. The third column has 3 dots. The fourth column has 2 dots. The fifth column has 3 dots. The sixth column has 2 dots. The seventh column has 3 dots. The eighth column has 2 dots. The ninth column has 3 dots. The tenth column has 2 dots. The eleventh column has 3 dots. The twelfth column has 2 dots. The thirteenth column has 3 dots. The fourteenth column has 2 dots. The fifteenth column has 3 dots. The sixteenth column has 2 dots. The seventeenth column has 3 dots. The eighteenth column has 2 dots. The nineteenth column has 3 dots. The twentieth column has 2 dots. The twenty-first column has 3 dots. The twenty-second column has 2 dots. The twenty-third column has 3 dots. The twenty-fourth column has 2 dots. The twenty-fifth column has 3 dots. The twenty-sixth column has 2 dots. The twenty-seventh column has 3 dots. The twenty-eighth column has 2 dots. The twenty-ninth column has 3 dots. The thirtieth column has 2 dots. The thirtieth column has 3 dots.

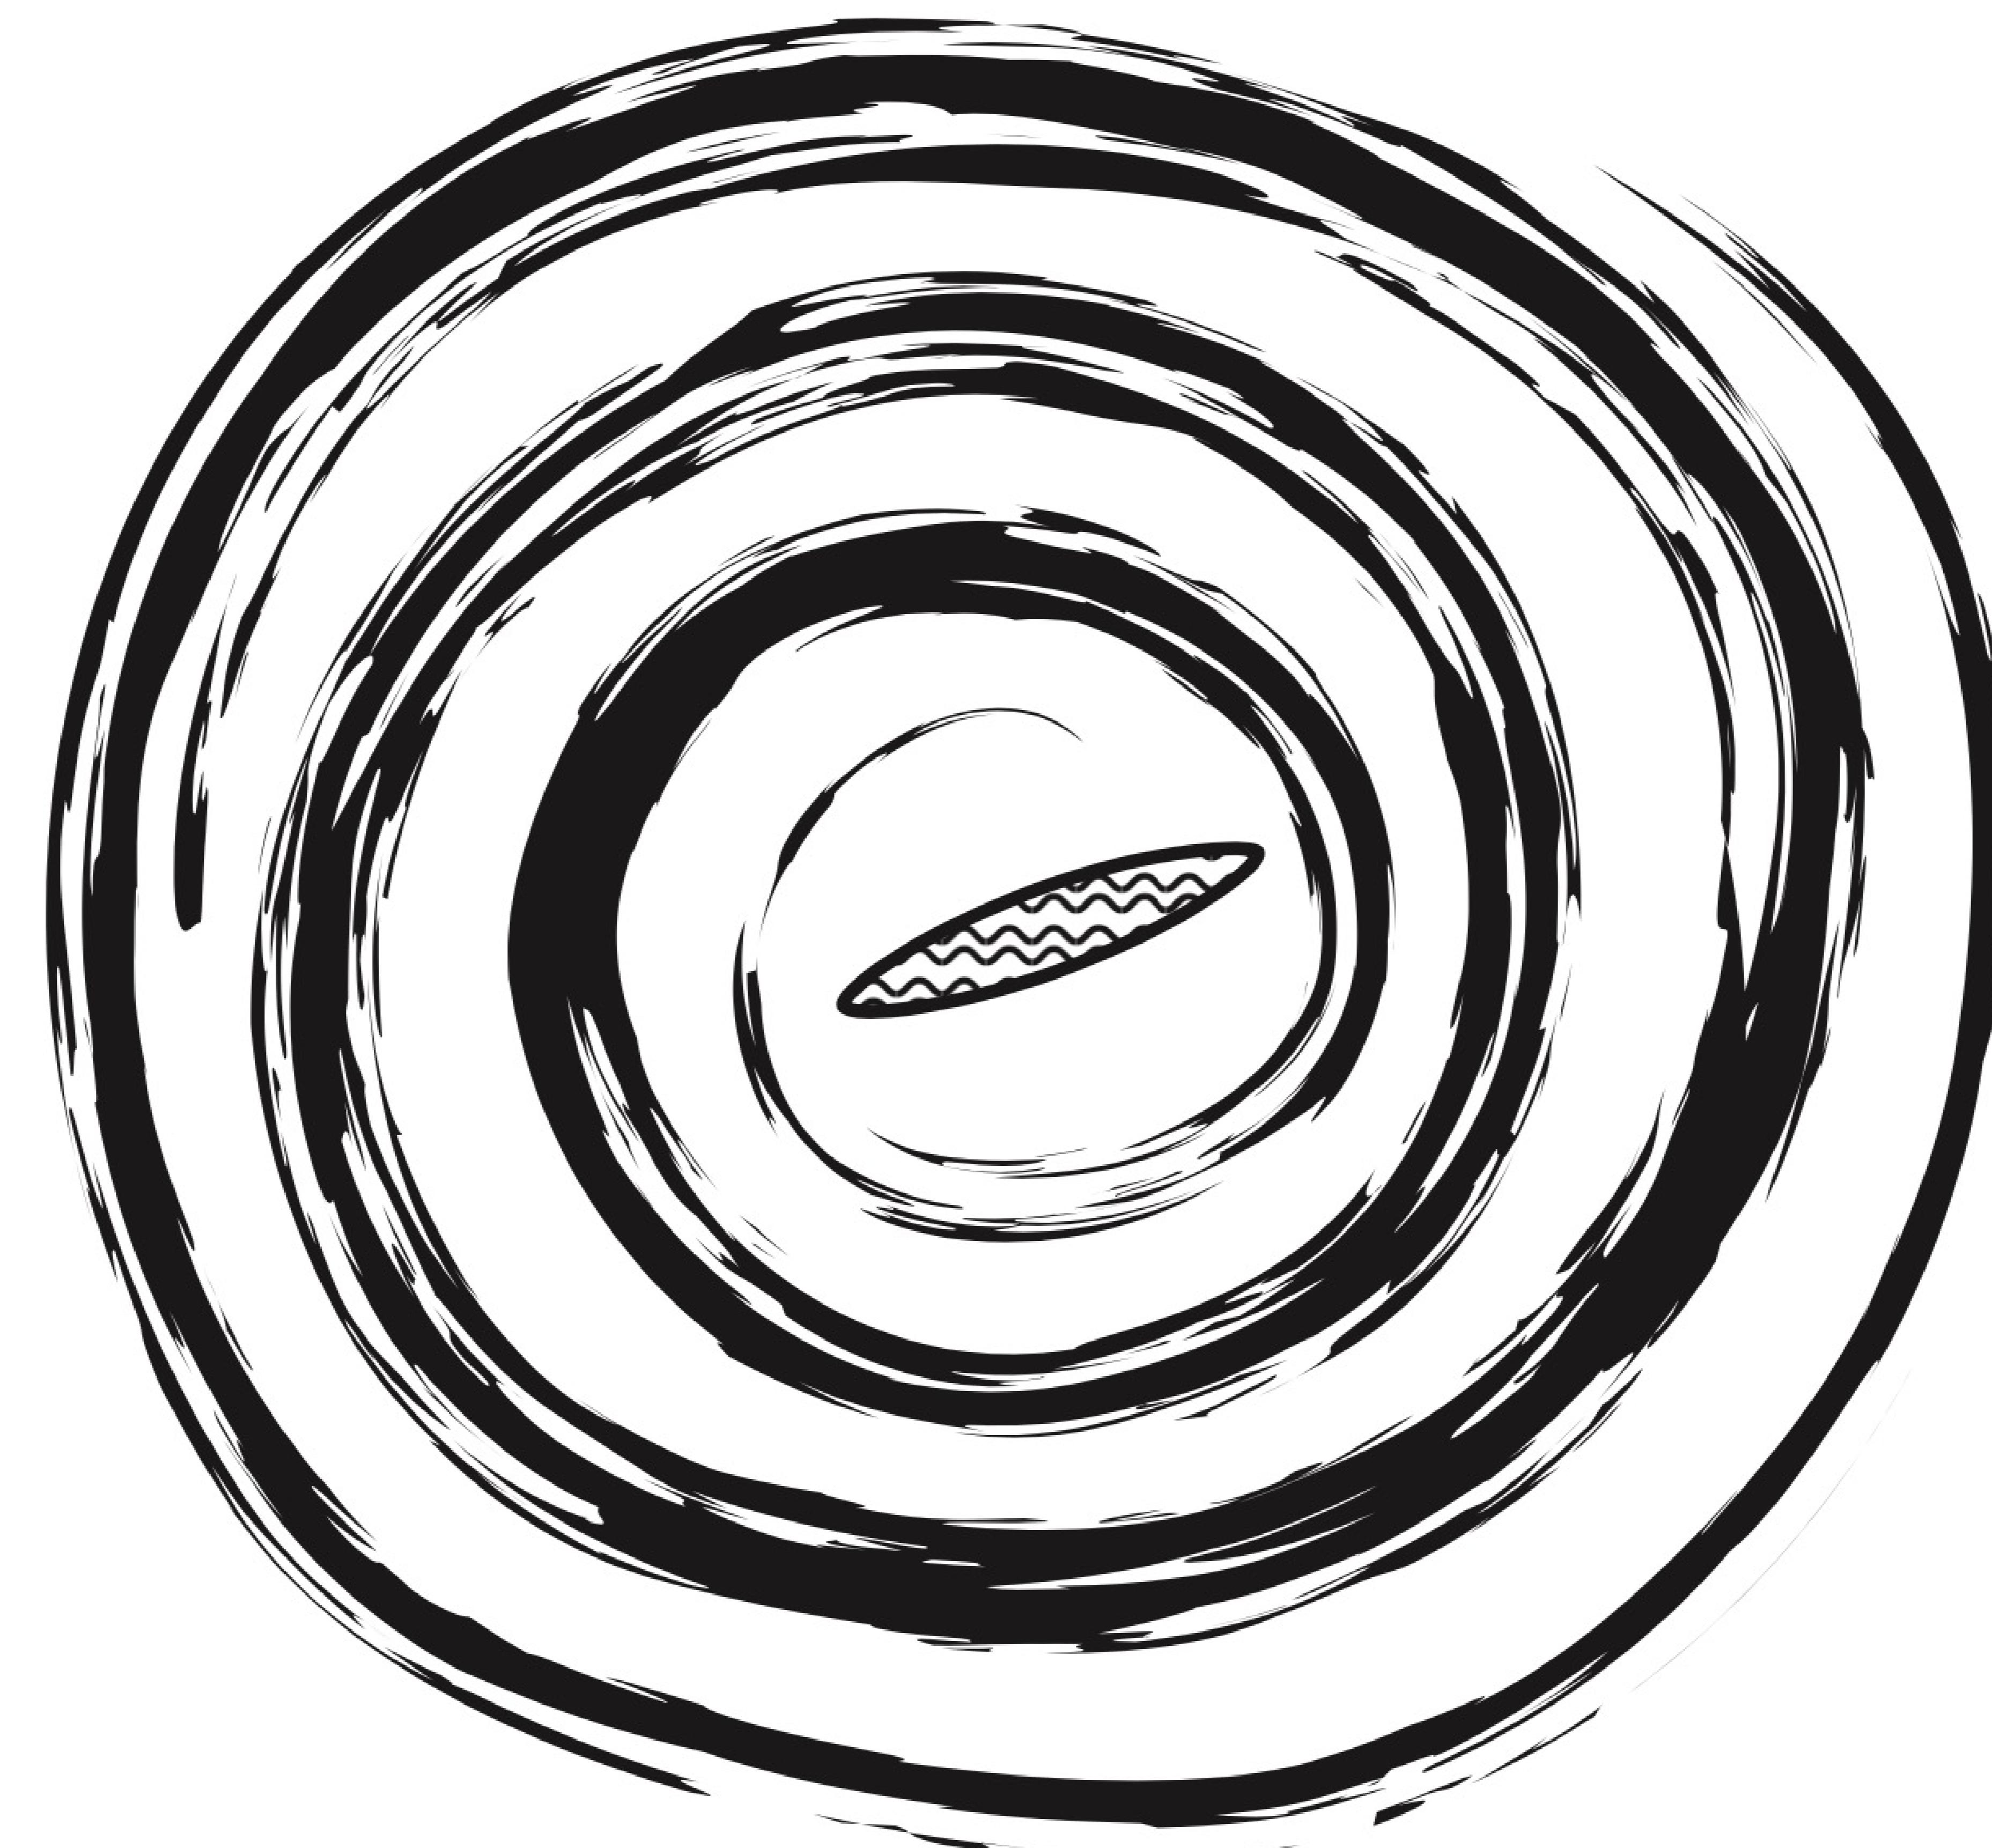

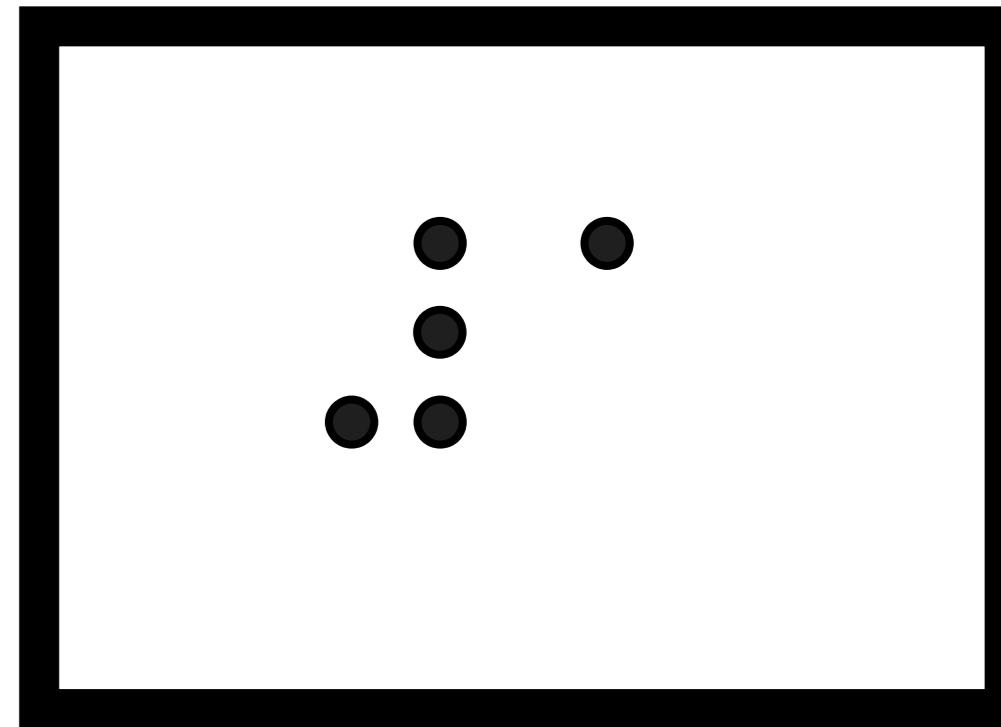

A scatter plot showing the relationship between the number of children (X-axis) and the number of hours worked (Y-axis). The X-axis ranges from 0 to 6, and the Y-axis ranges from 0 to 40. The data points show a general upward trend, indicating that as the number of children increases, the number of hours worked also tends to increase.

Number of Children	Number of Hours Worked
0	0
1	0, 10, 15, 20, 25, 30, 35
2	0, 10, 15, 20, 25, 30, 35
3	0, 10, 15, 20, 25, 30, 35
4	0, 10, 15, 20, 25, 30, 35
5	0, 10, 15, 20, 25, 30, 35
6	0, 10, 15, 20, 25, 30, 35

A scatter plot showing the relationship between the number of children (X-axis) and the number of hours worked (Y-axis). The X-axis ranges from 0 to 5, and the Y-axis ranges from 0 to 10. The data points show a general upward trend, indicating that as the number of children increases, the number of hours worked also tends to increase.

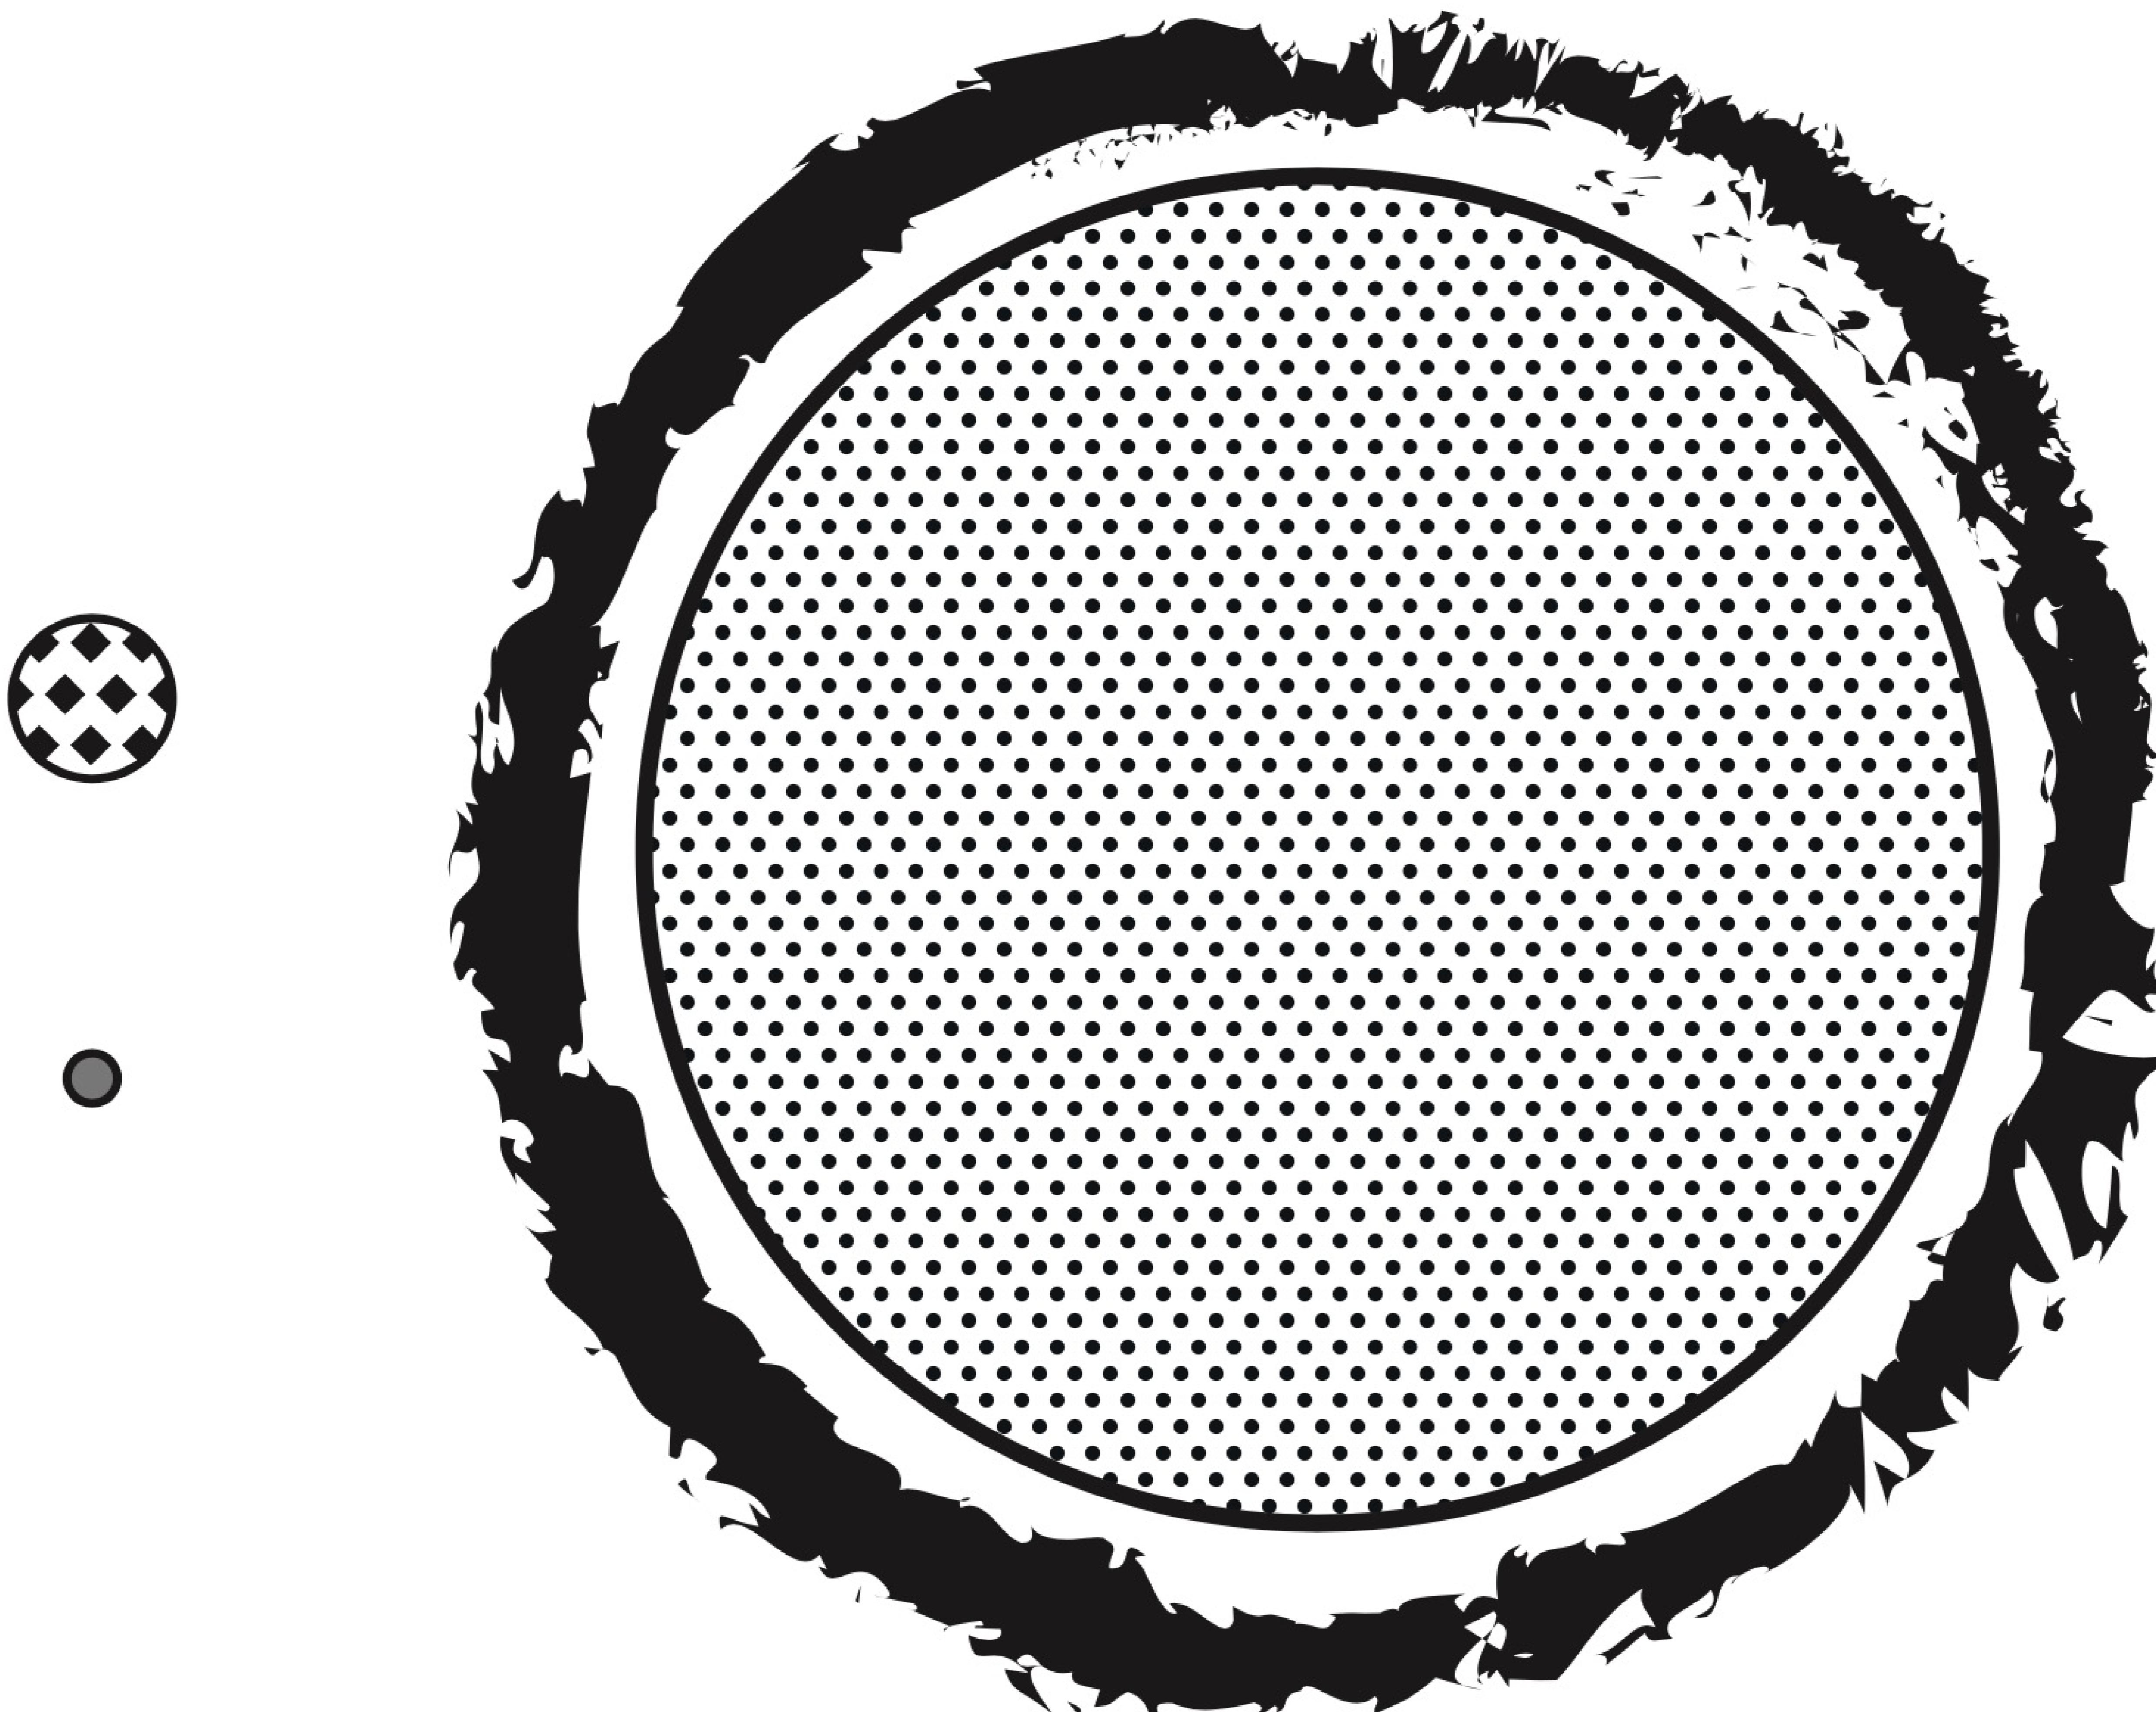

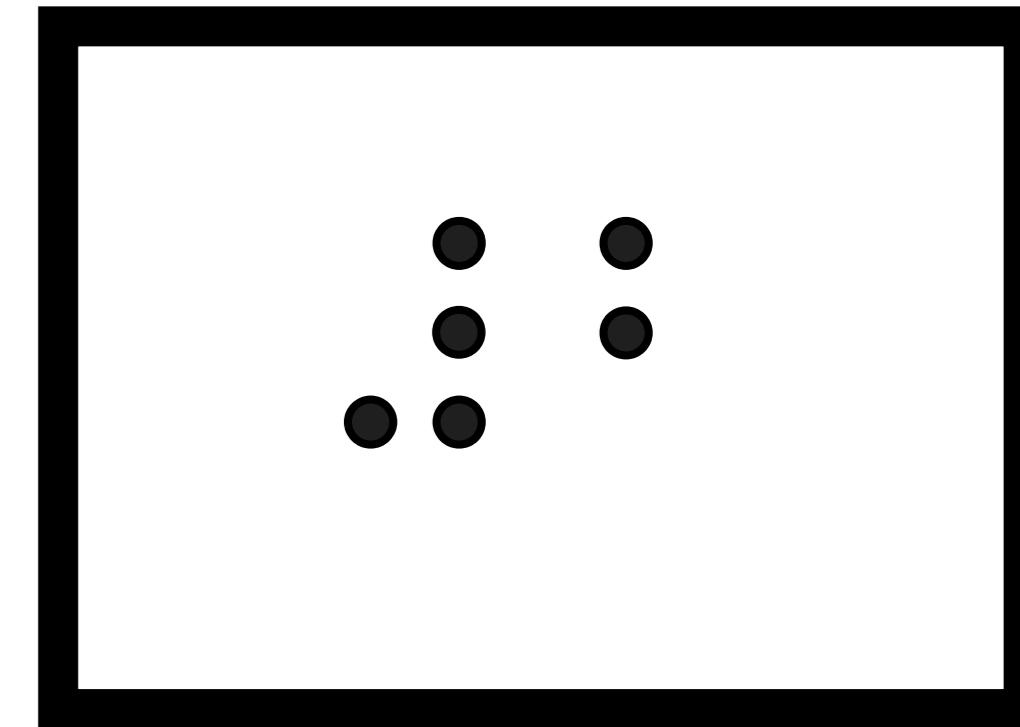

Number of Children	Number of Hours Worked
0	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
1	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
2	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
3	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
4	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
5	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10

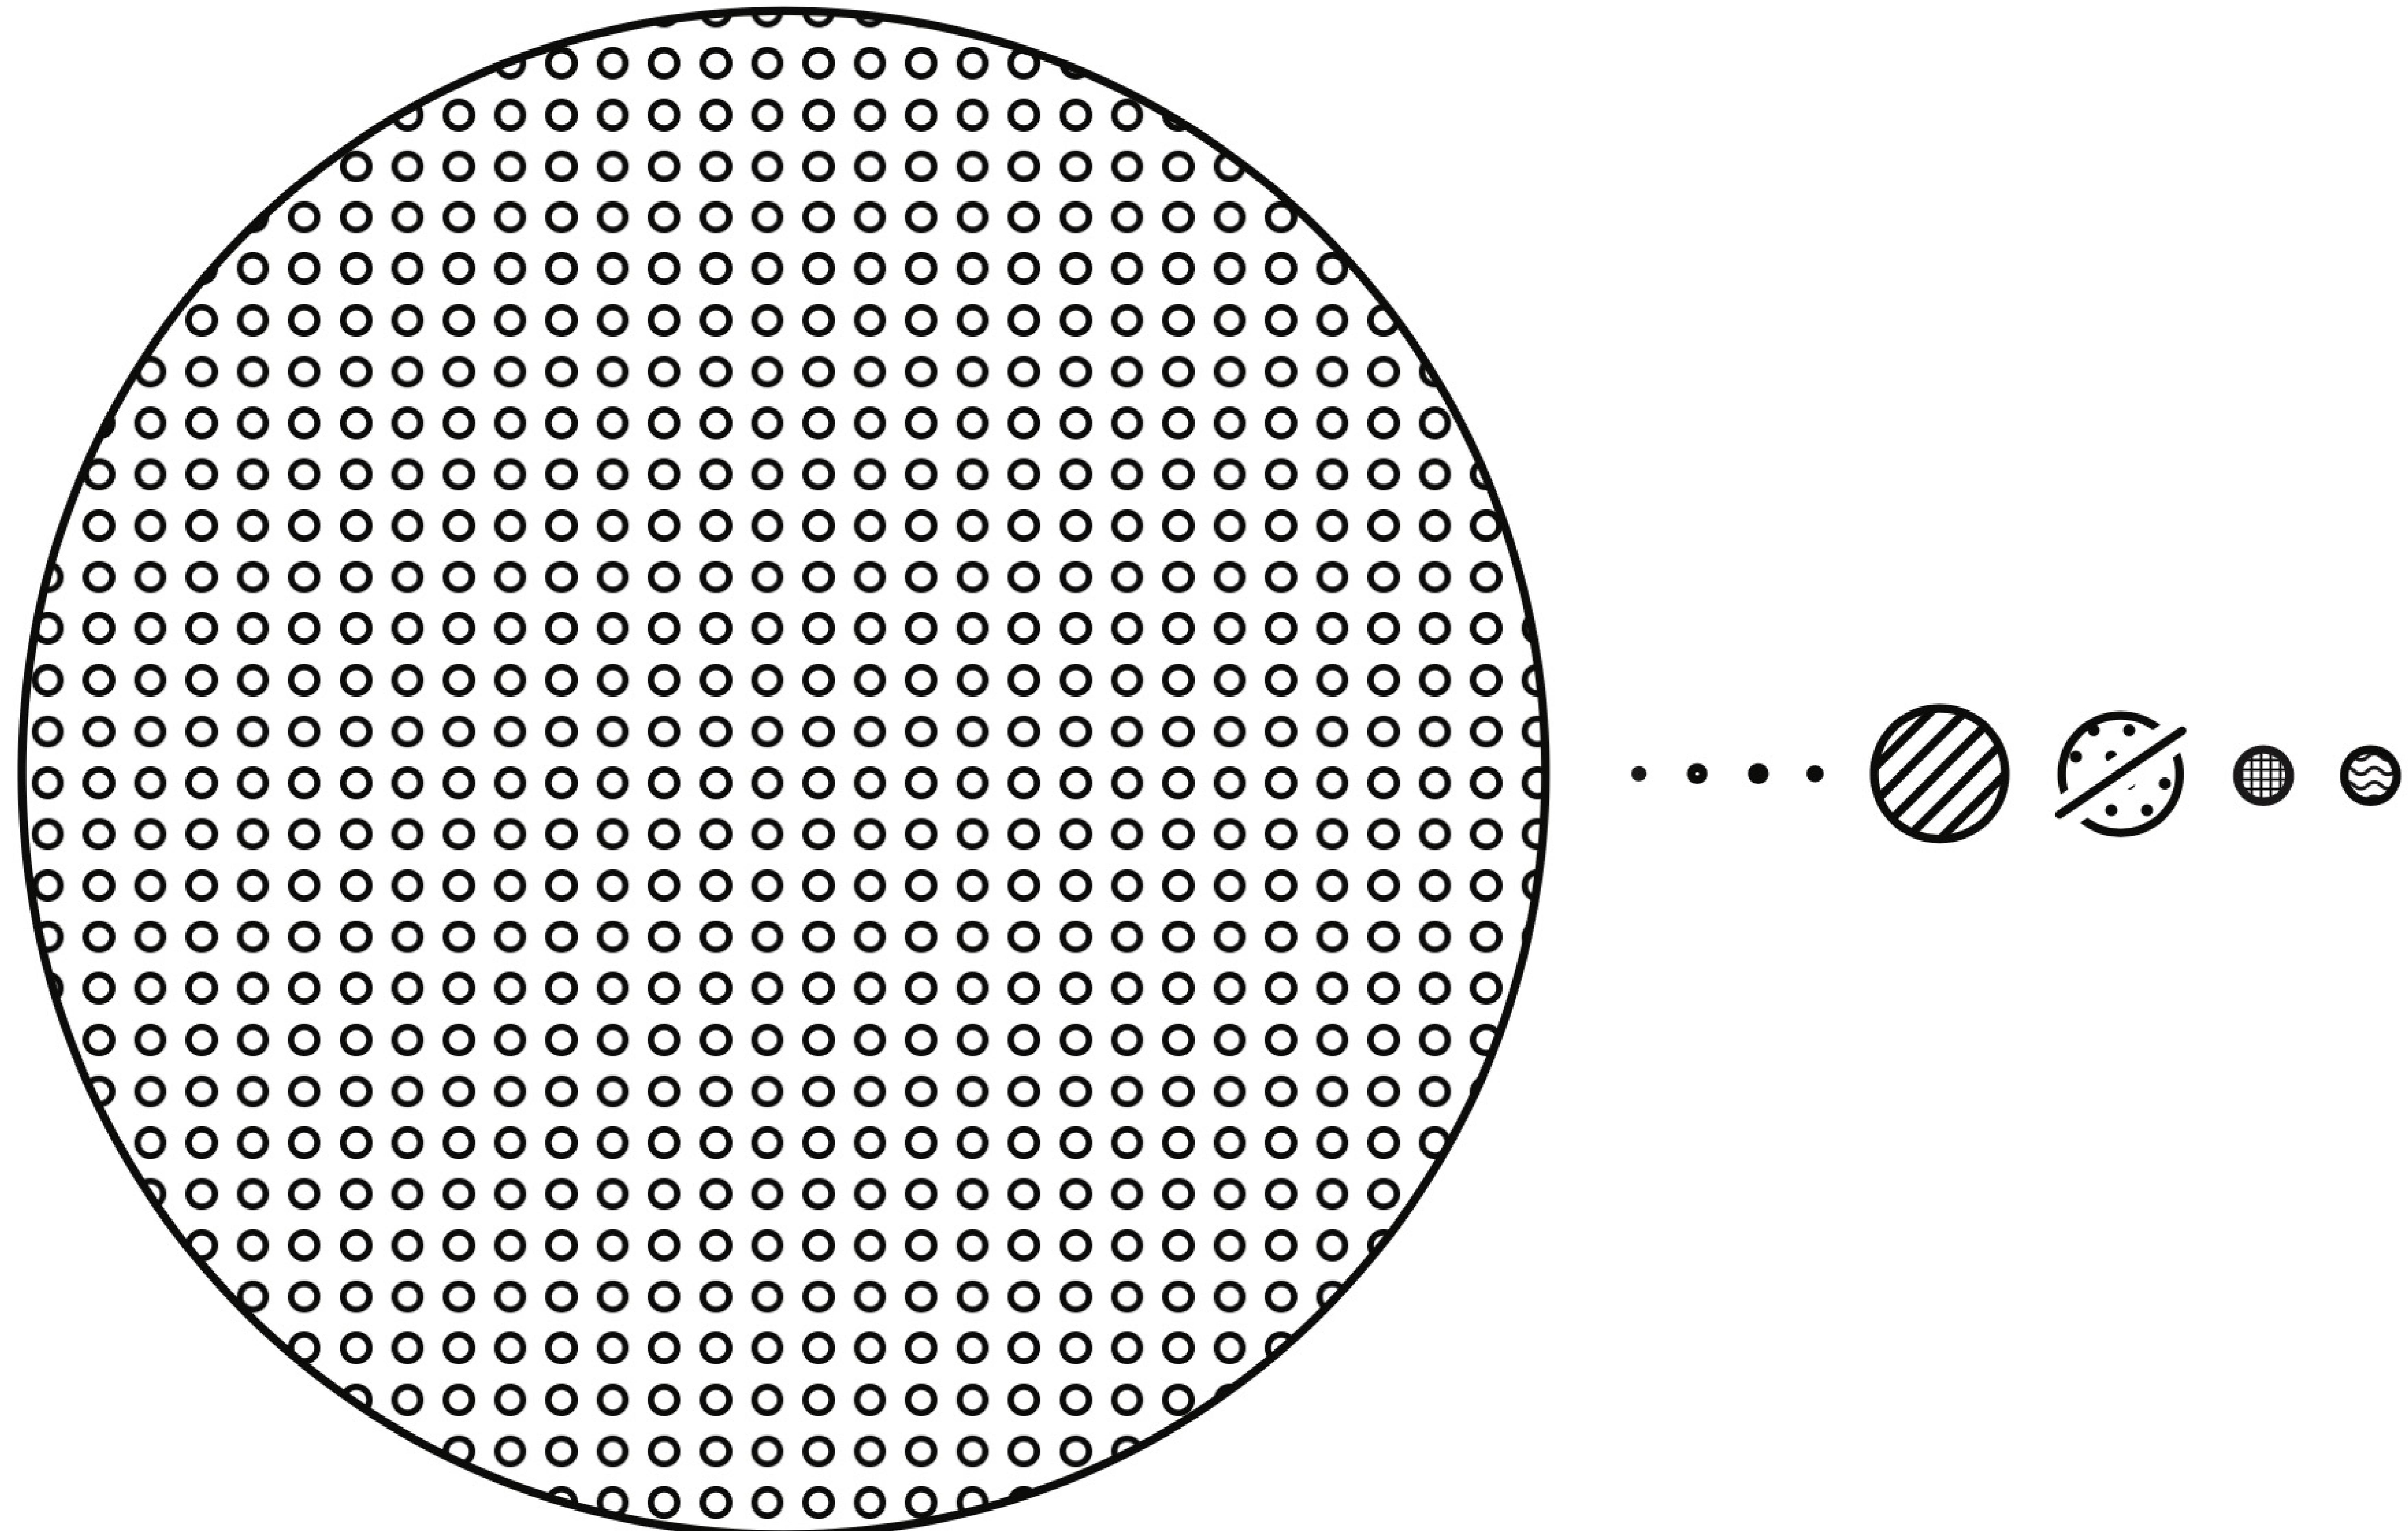

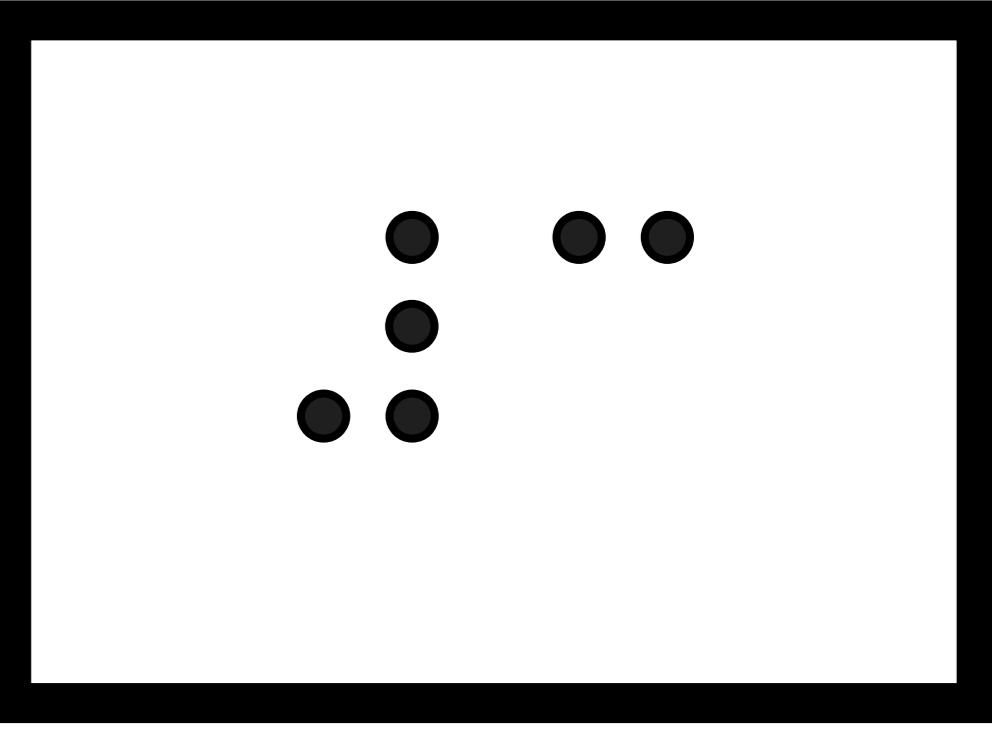

The image shows a collection of black circular dots scattered across a white background. There are approximately 30 dots in total, organized into several distinct groups. On the far left, there are two isolated dots. To their right is a cluster of four dots, with two in the top row and two in the bottom row. Further right is a group of five dots: three in the top row and two in the bottom row. Next is a single isolated dot. Then there is a cluster of six dots: three in the top row and three in the bottom row. Following this is a single isolated dot. To the right of that is another cluster of six dots, identical in arrangement to the previous one. After this is a single isolated dot. Finally, on the far right, there are two more isolated dots.

FOTOSENTEZ

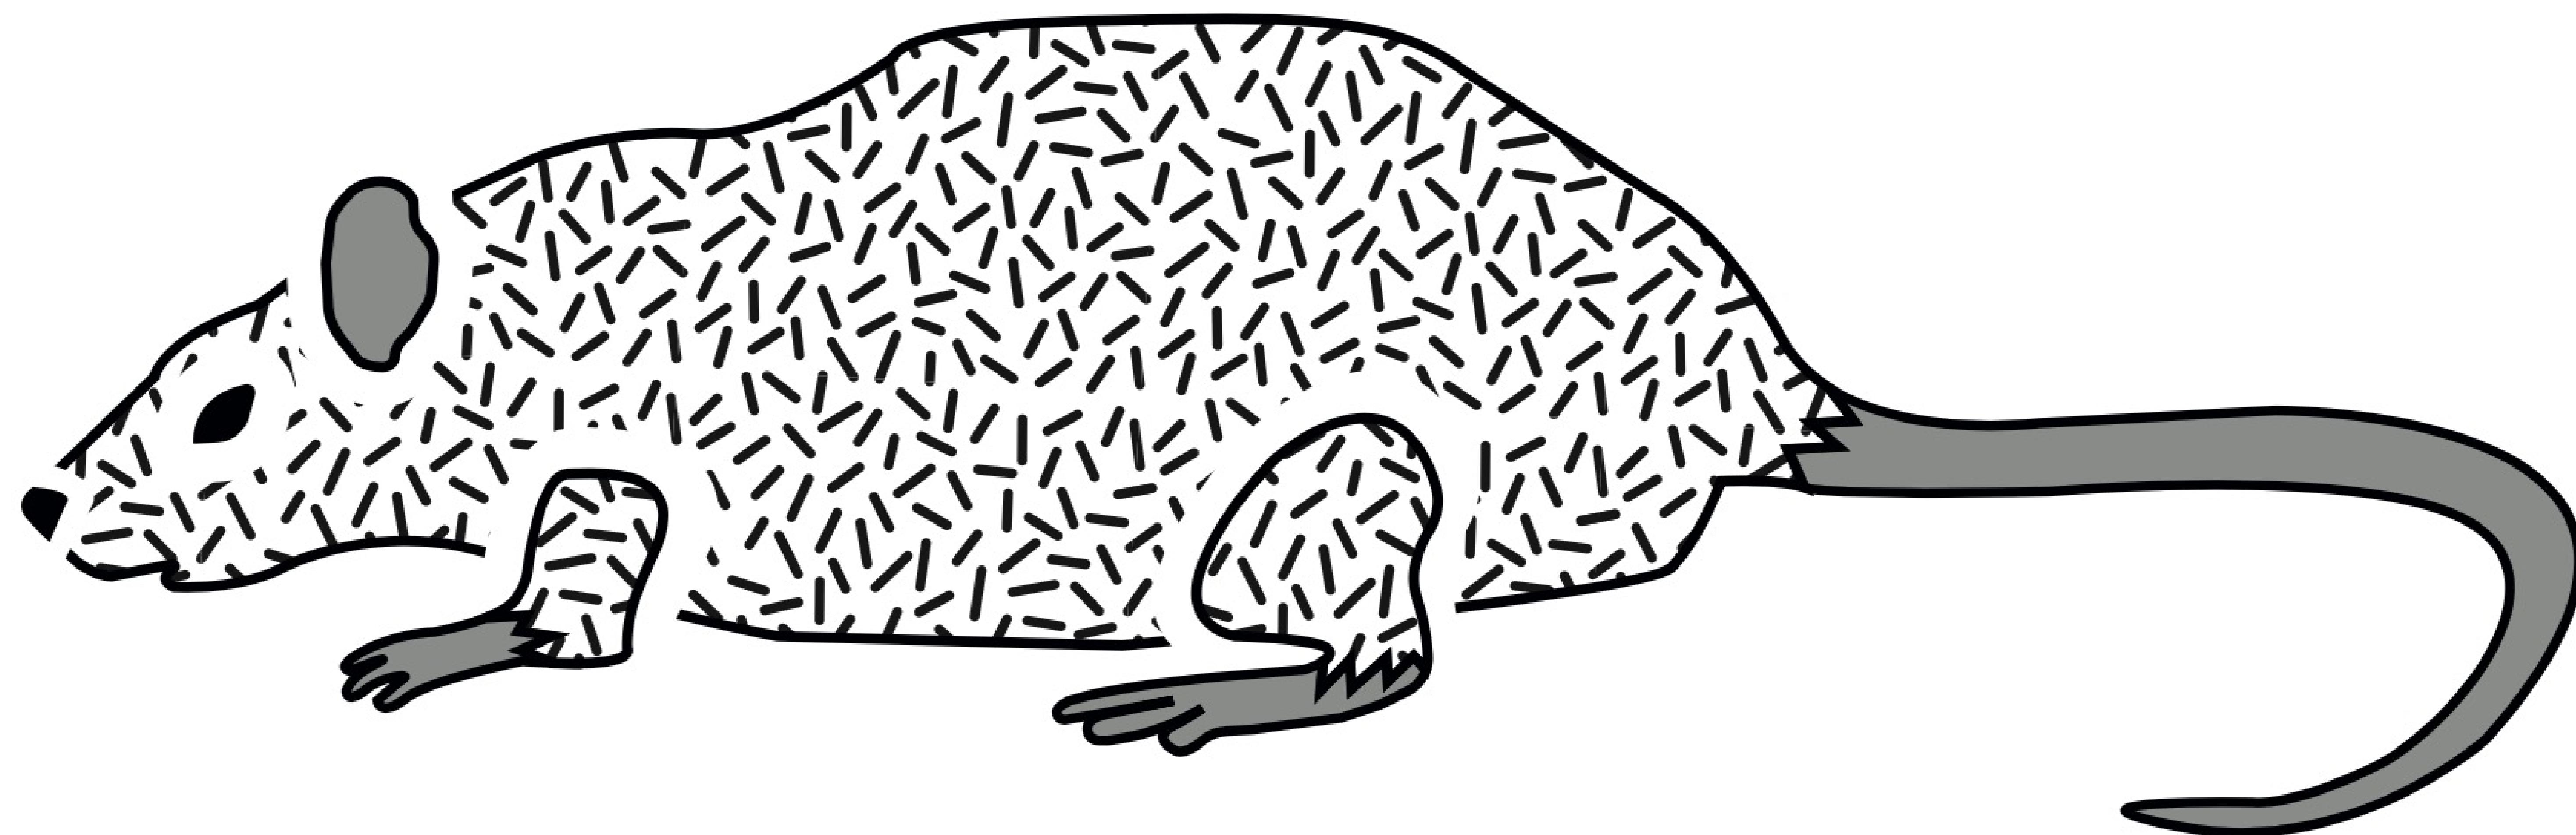

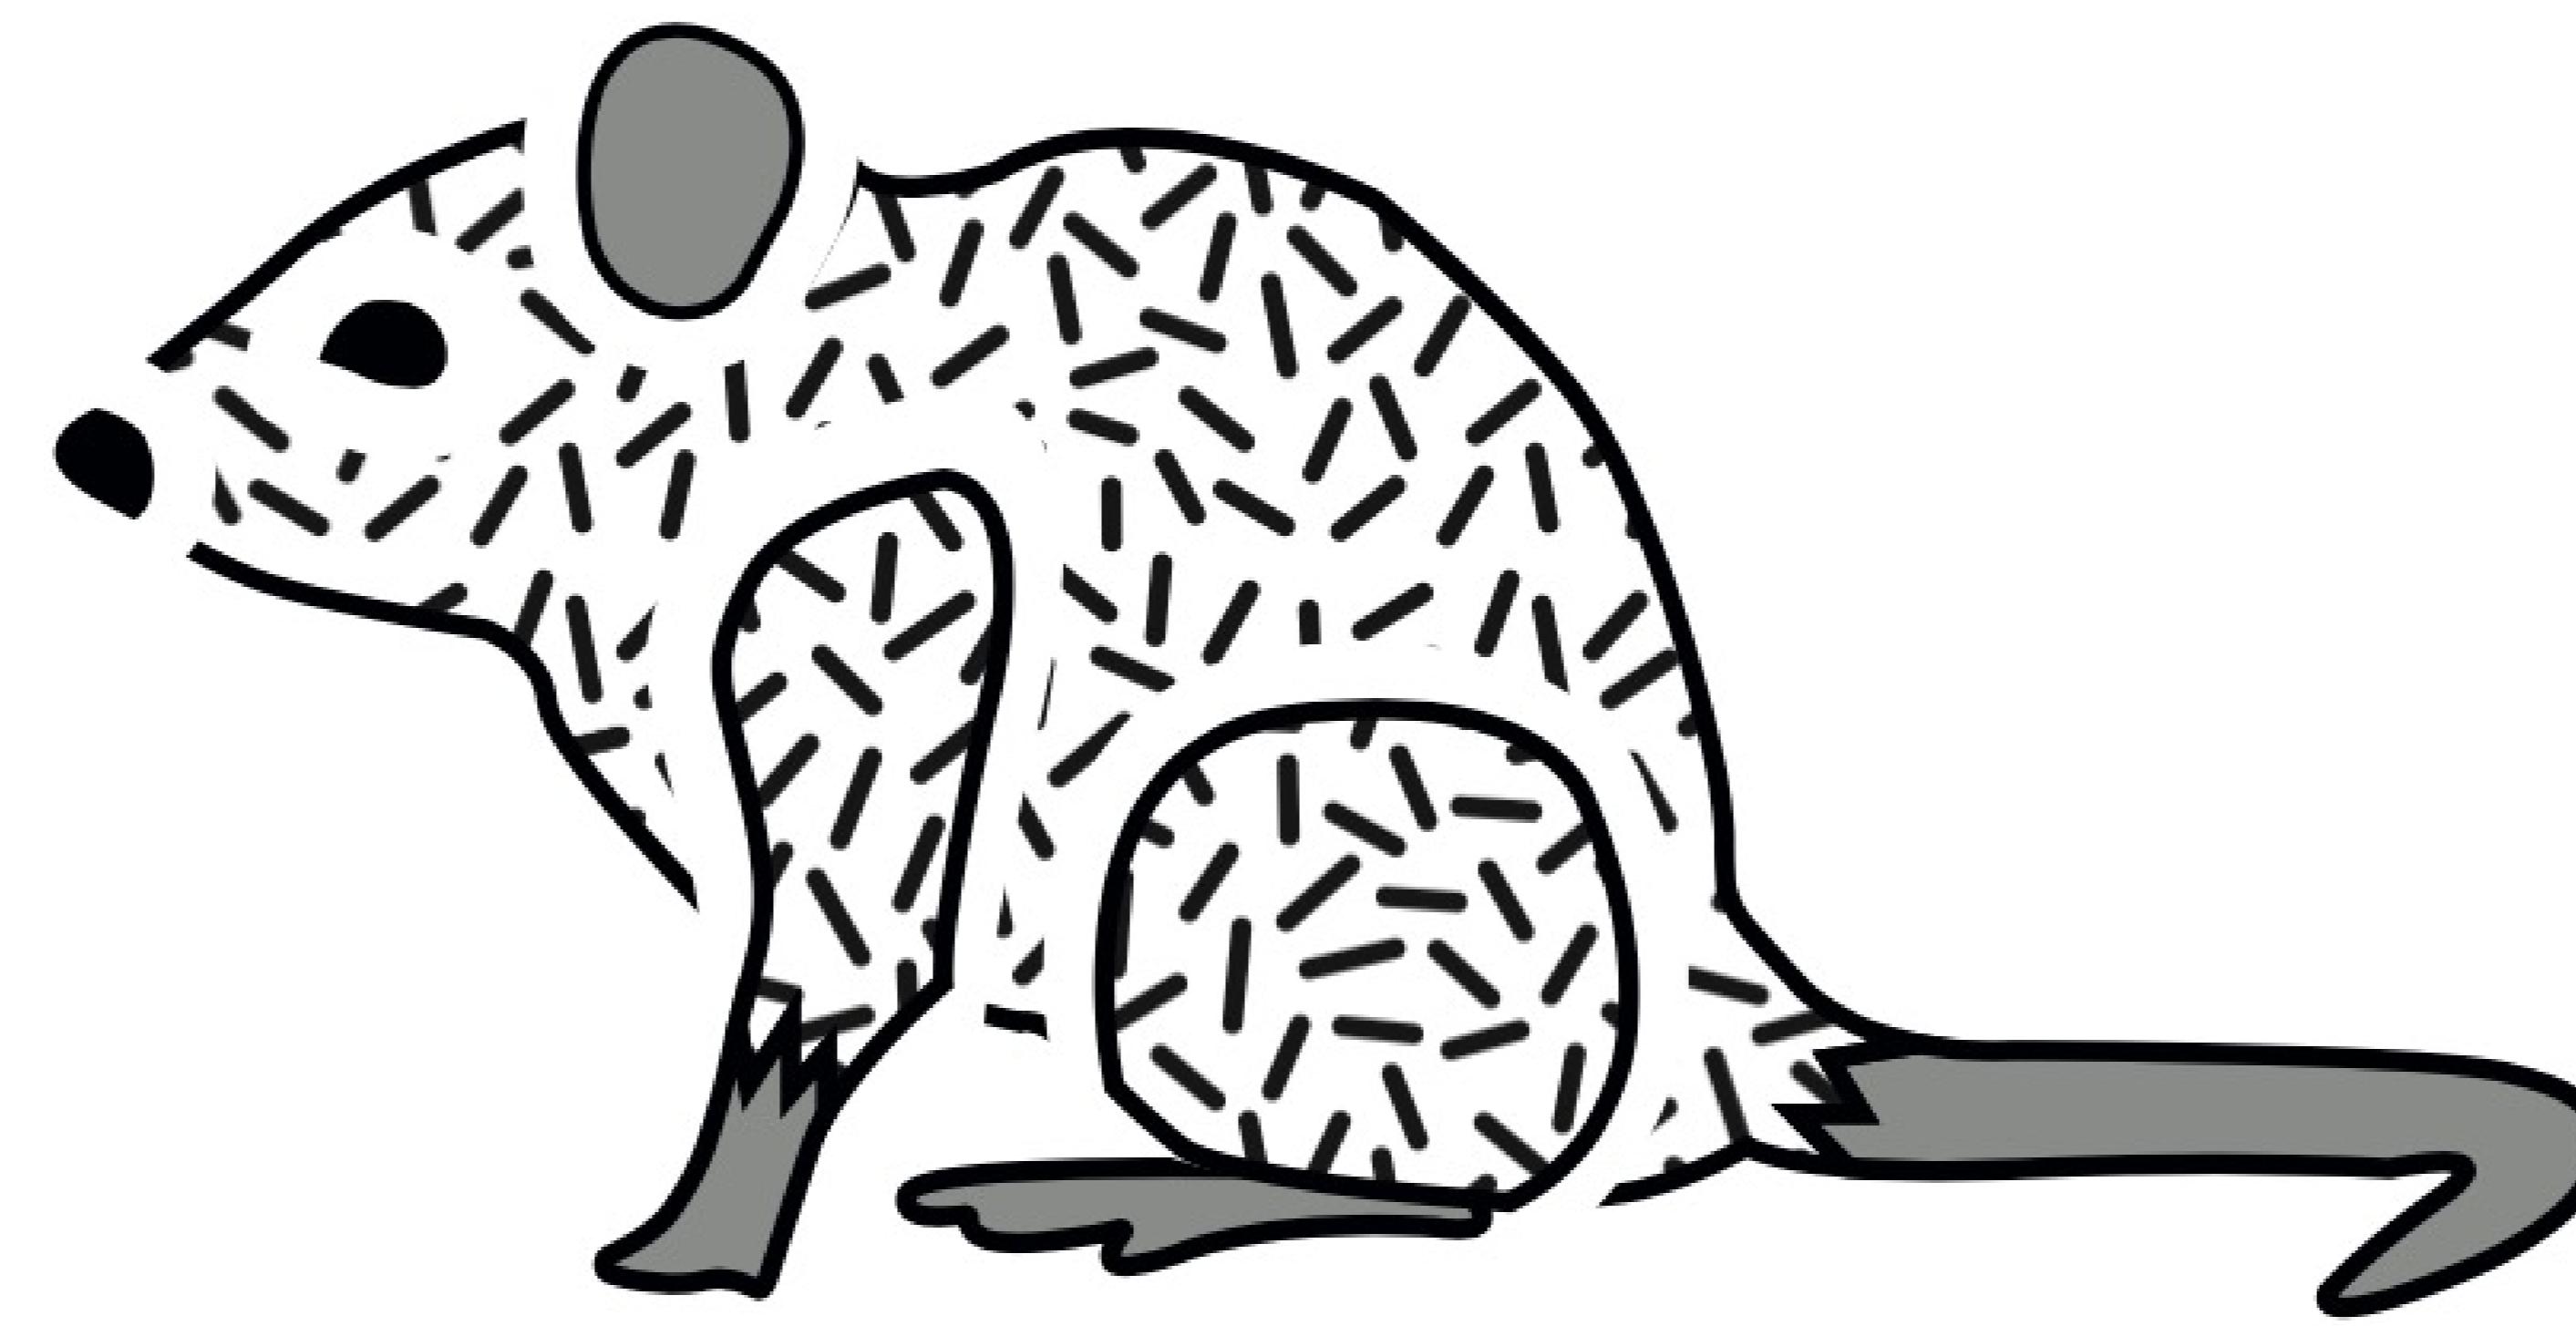

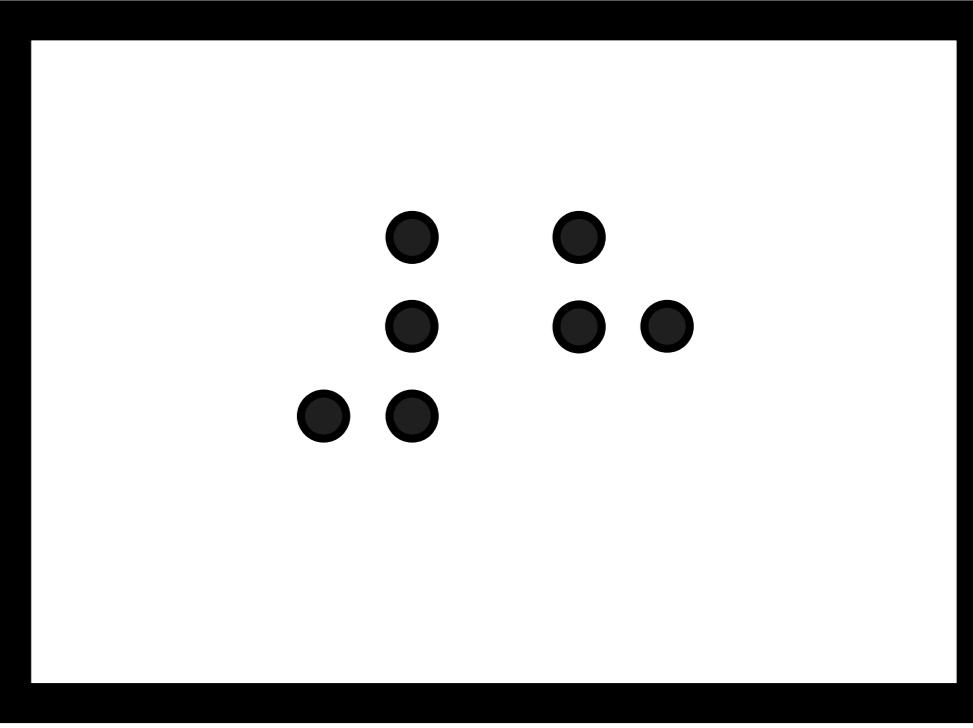

The image shows a collection of black dots scattered across a white background. The dots are organized into several distinct horizontal rows. Some rows are relatively straight, while others exhibit slight curves or irregularities. Vertical columns of dots are also present, particularly towards the left and right edges of the frame. The overall effect is a sense of a grid that has been partially obscured or shifted.

FARE VE SİÇAN

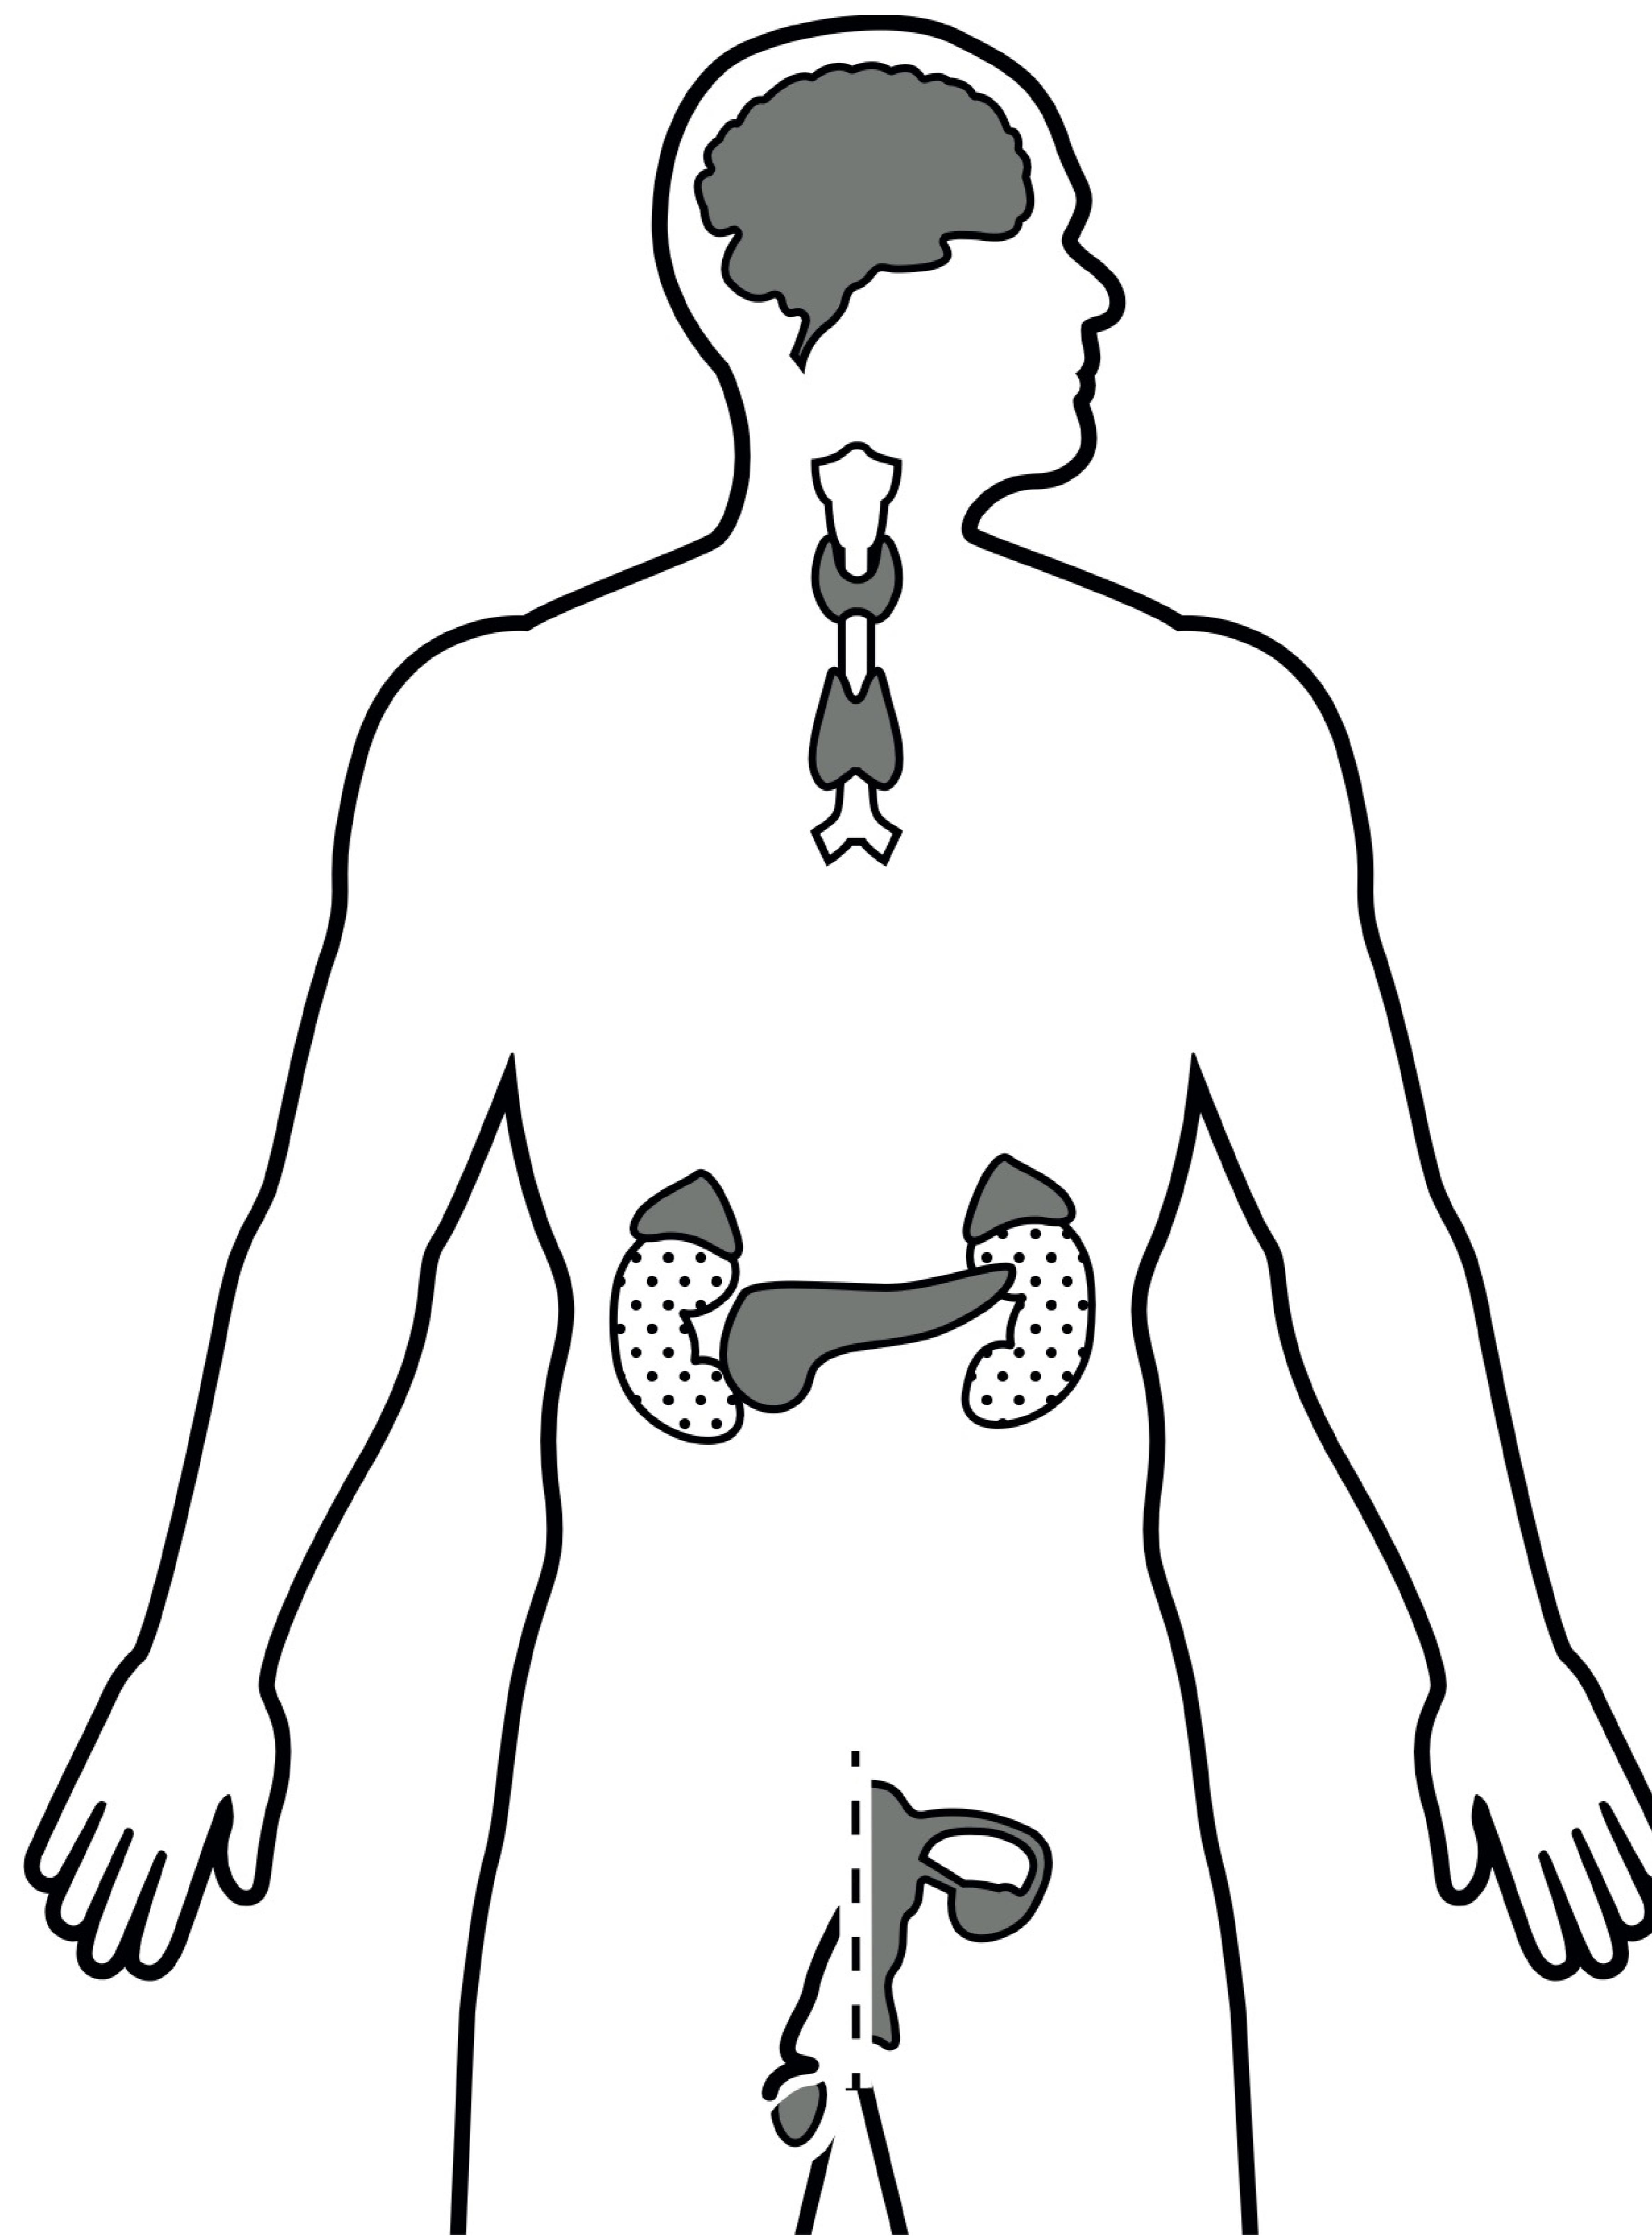

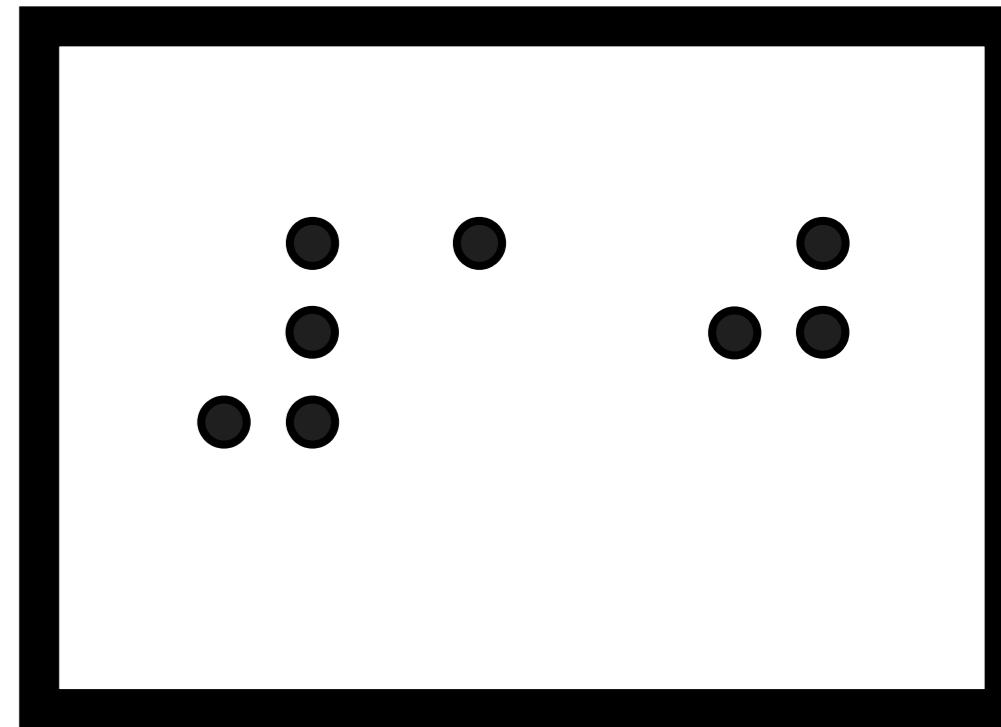

A horizontal row of 10 black circular dots, arranged in three distinct vertical columns. The first column contains 3 dots, the second contains 2 dots, and the third contains 5 dots, representing a 3x10 matrix.

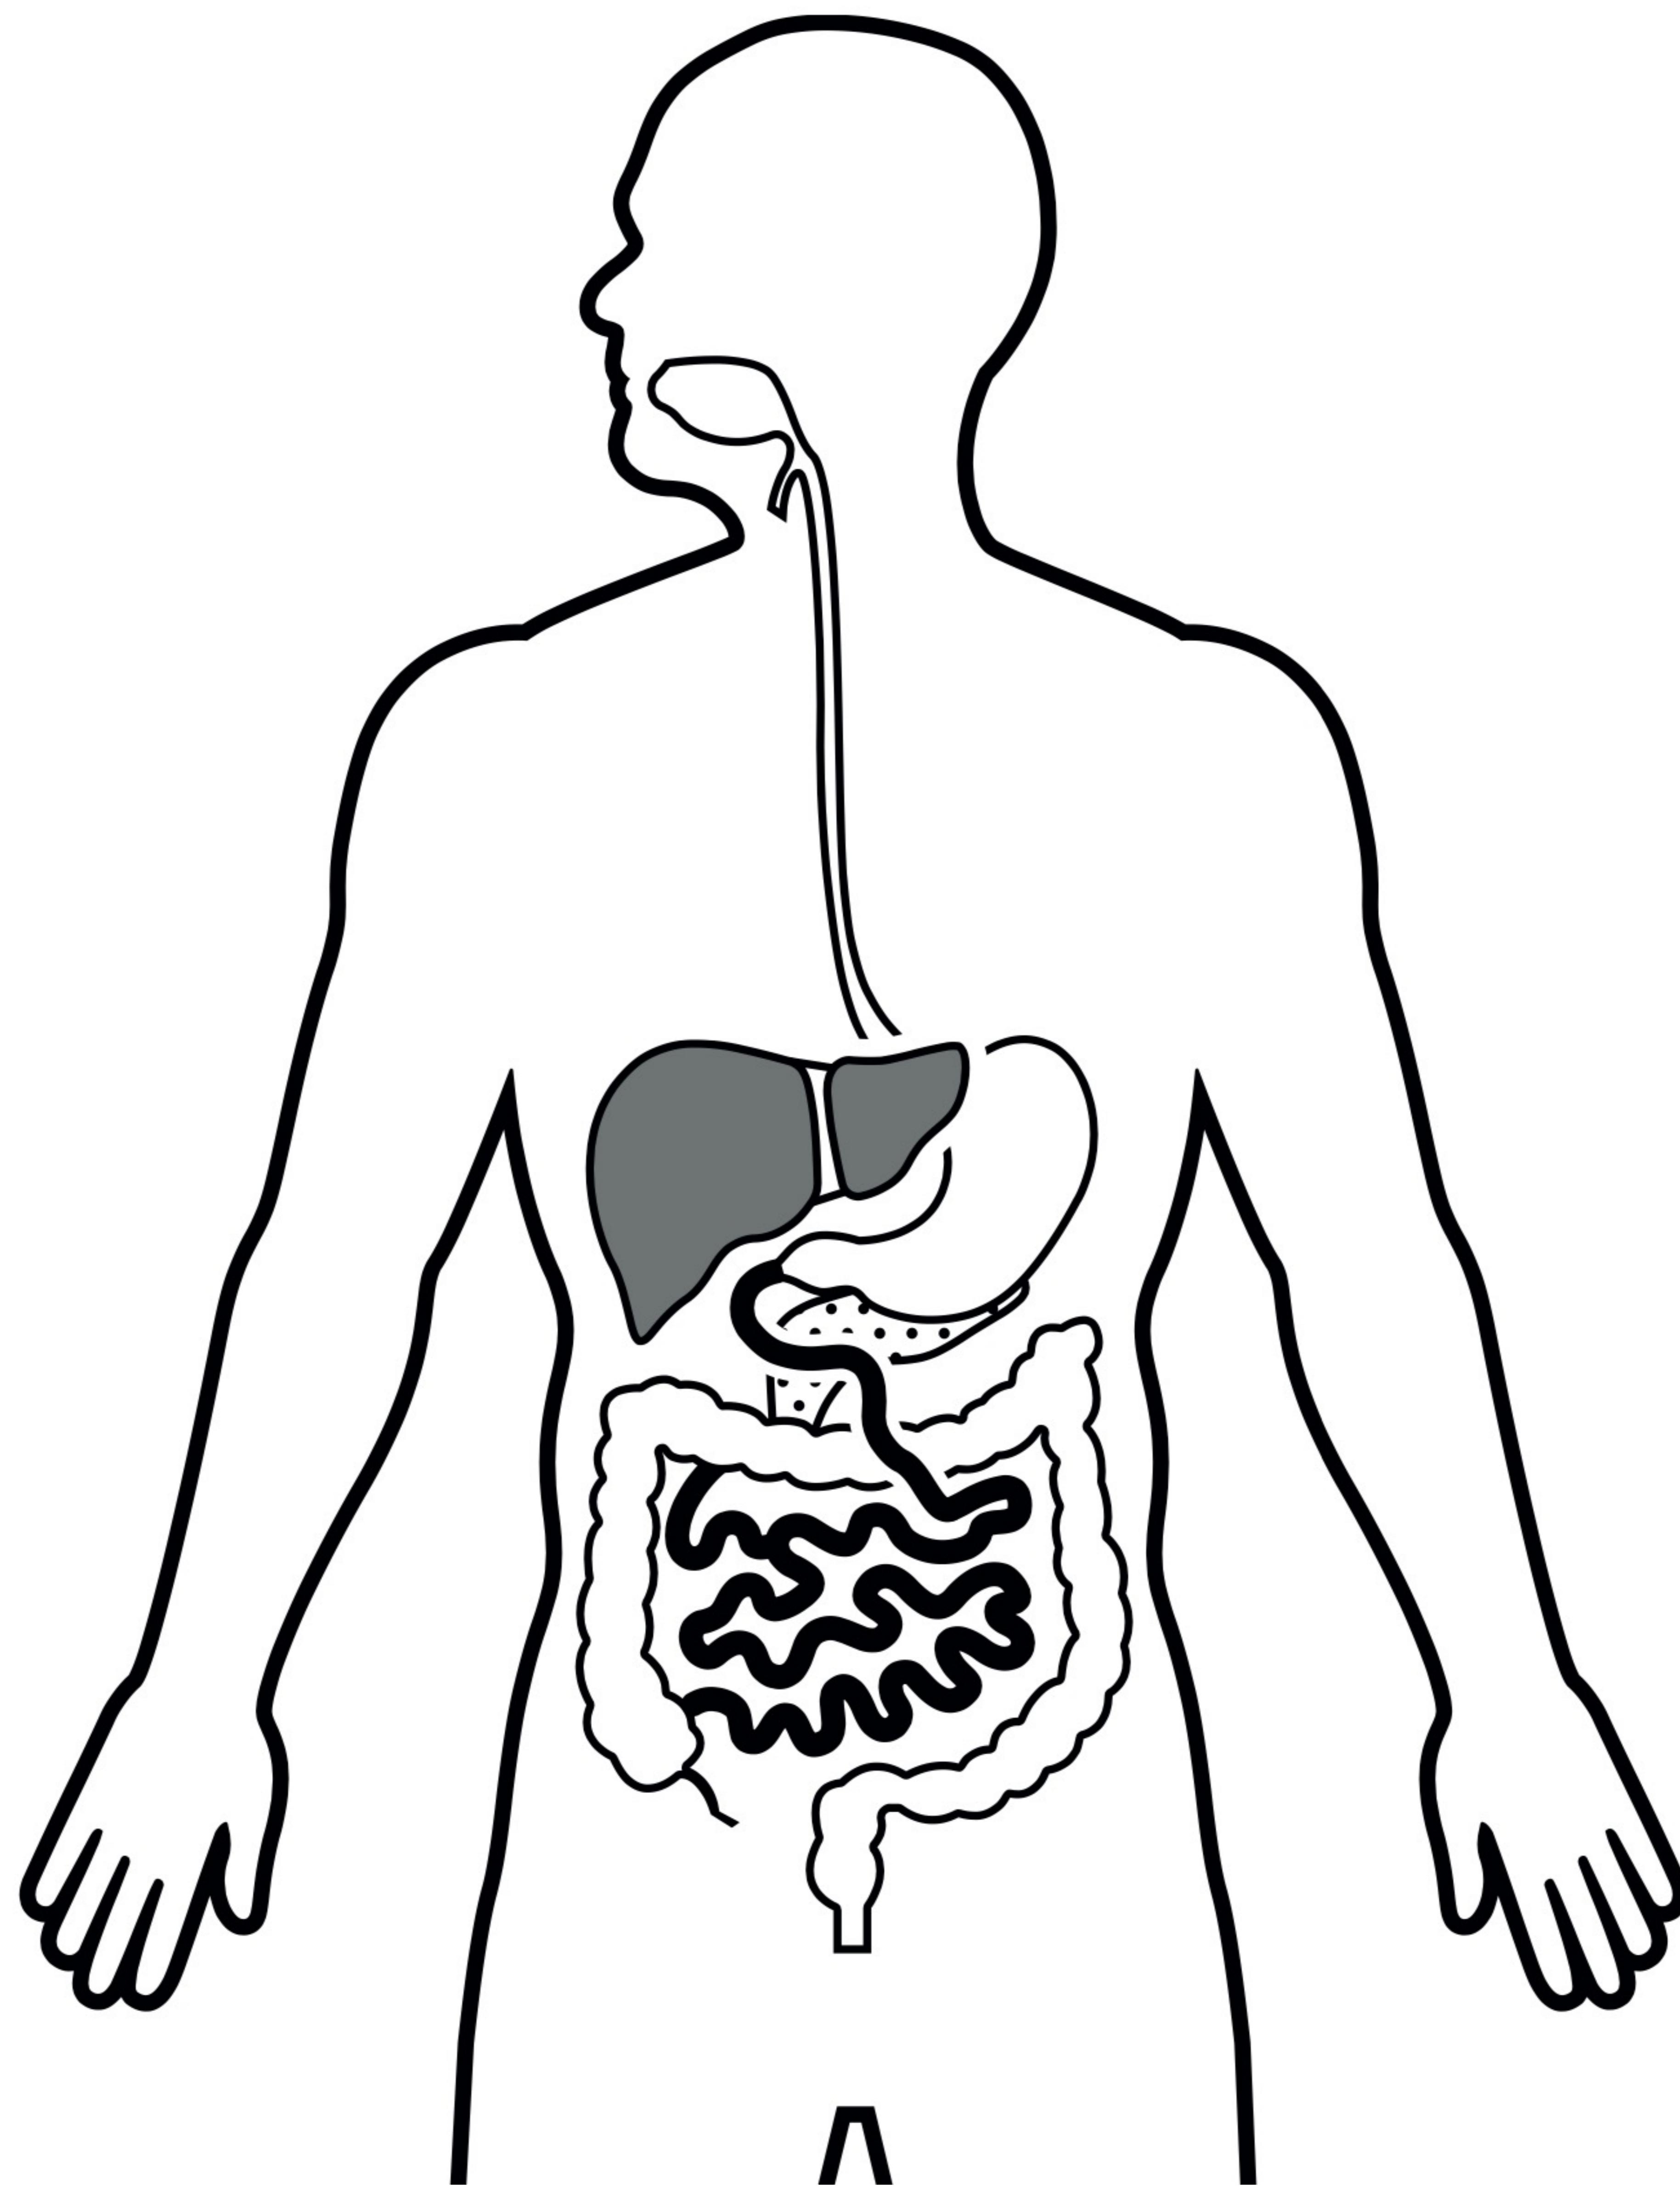

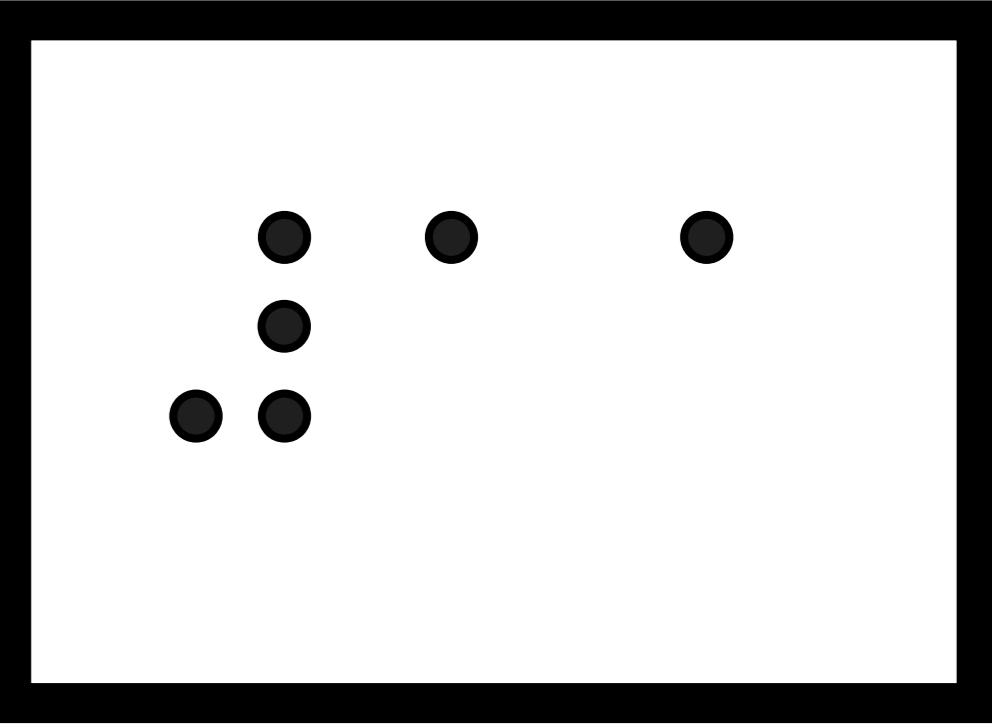

# ÖRÜMCEK

The image consists of a grid of black dots arranged in horizontal rows. The dots are positioned such that they form a series of small, irregular squares or rectangles of varying sizes. These shapes are scattered across the frame, creating a sense of a random pattern. The background is white, and the dots are uniformly black.

SİNİR SİSTEMİ

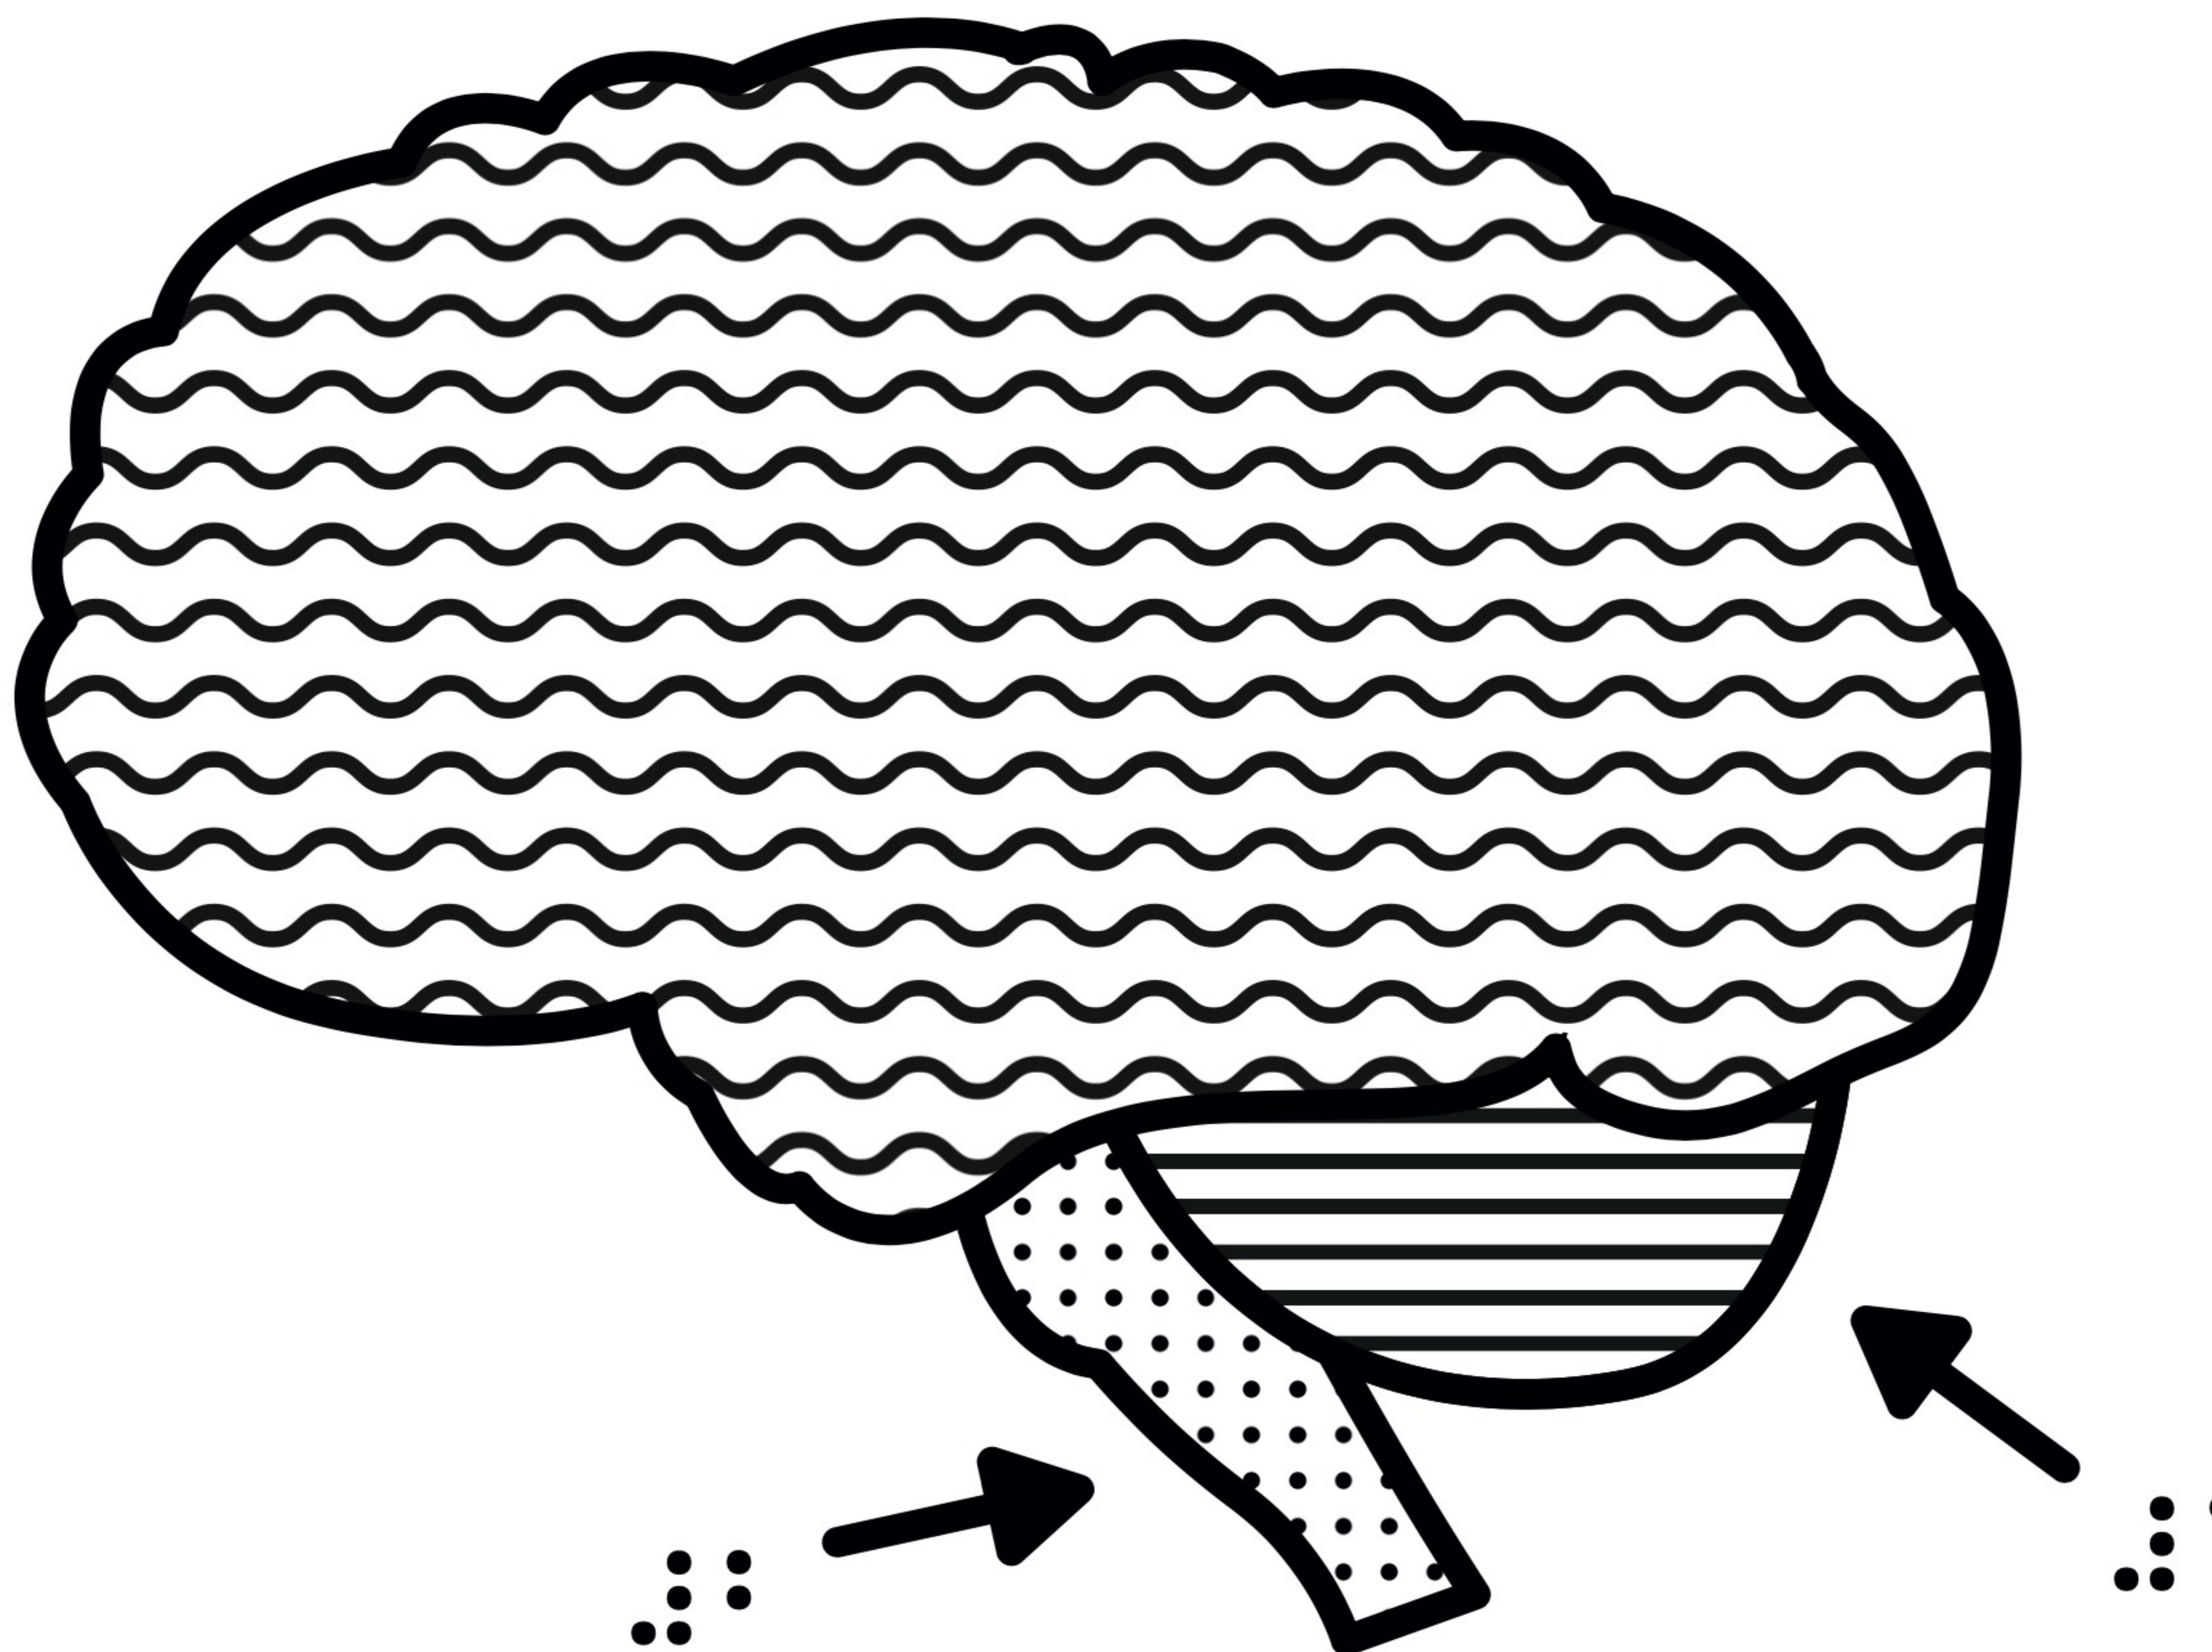

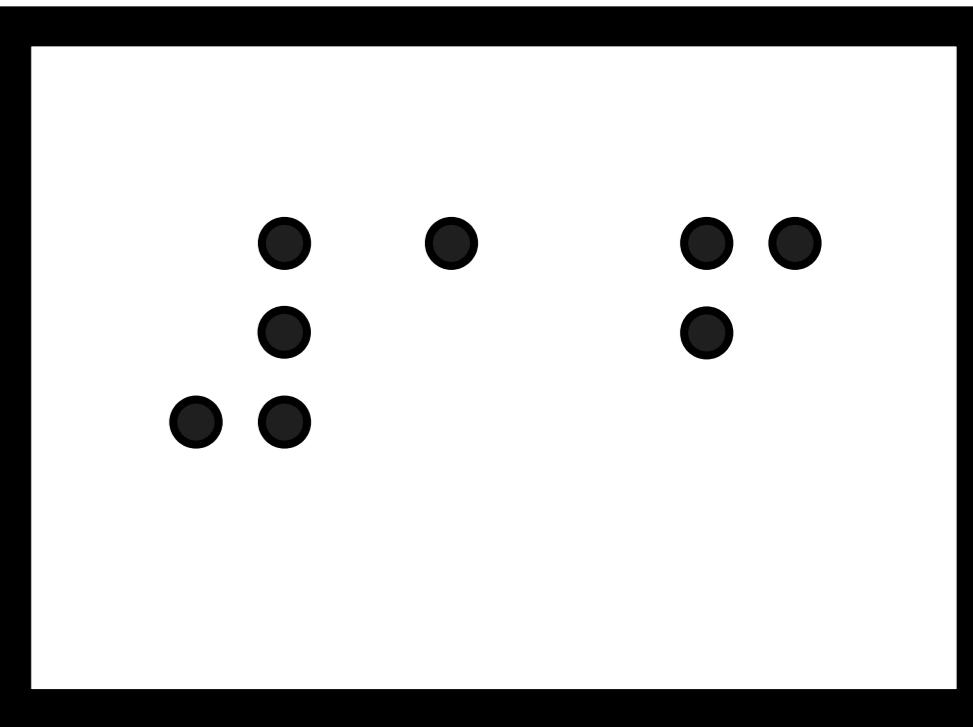

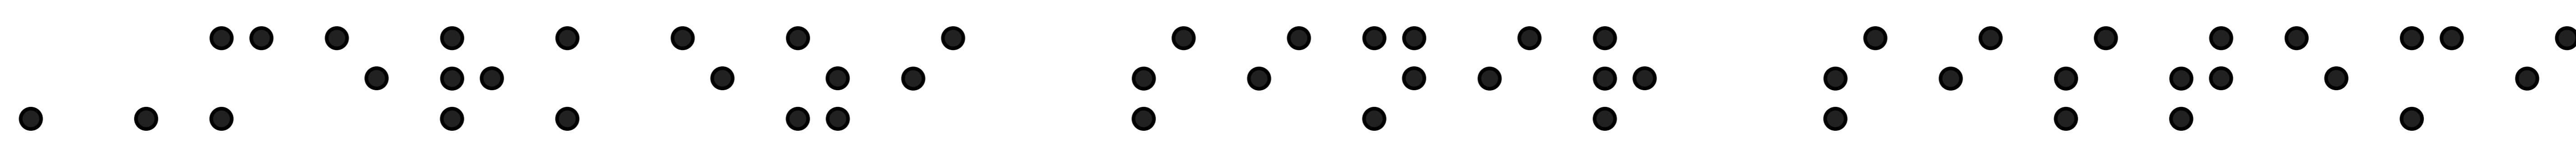

# DOLAŞIM SİSTEMİ

The diagram consists of three horizontal rows of black circular dots. The top row contains 5 dots, the middle row contains 3 dots, and the bottom row contains 7 dots. The dots are arranged in a staggered pattern, with each dot in one row positioned between two dots in the row above it. This creates a grid-like structure where the vertical distance between rows is equal to the horizontal distance between adjacent dots.
